

Rebel Captain Is Shot at Sunrise

Pays Death Penalty for Killing American Soldier in His Ranks.

(By United Press Leased Wire.)
SAN DIEGO, May 31.—Following the execution of Captain Francisco Viza at sunrise, it was learned that General Pryce and his aide, Captain Melvin Hopkins, were missing from the camp. Whether Pryce had left the rebels for good, whether he had gone to the Los Angeles junta on business or whether he had met with foul play was questioned by his men. It was generally believed that Pryce has gone to Los Angeles. Most of the white officers of his force, it was reported, also had left camp. Pryce and his officers, it was said, had learned they were to be replaced by Mex-

Francisco Viza commander of the Mexican troops under General Rhys Pryce, was shot at sunrise this morning for having shot and killed an American soldier in his command. Harlan Makes Supreme Court Very, Very Sore

(By United Press Leased Wire.)
WASHINGTON, D. C., May 31.—As a result of the sarcastic opinion expressed by Associate Justice Harlan in the tobacco trust case and his stinging criticism of the court, relations between Harlan and the other justices are said today to be very strained. Several stormy scenes were enacted in the private chambers. When the trust cases were under consideration, Justice Harlan even then strongly opposed the

attitude of his colleagues. Justice Harlan had prepared a brief typewritten statement embodying his dissenting views. But when he started to read it he departed completely from his typewritten outline and astonished his hearers with the bitterness and sarcasm with which he attacked the "rule of reason" doctrine. The justices who had to listen to Justice Harlan's stinging criticism moved uneasily in their seats and Chief Justice White flushed visibly.

Wreck Cost Road Quarter Million

(By United Press Leased Wire.)
LINCOLN, Neb., May 31.—Officials of the Burlington railroad today stated that the failure of the telegraph operator at McCook to deliver the meeting orders was responsible for the

wreck at Indianola Monday. Two passengers, Hiram Feeklin and Grace Dean, died last night. This brings the death list up to 16. It is stated that damage suits aggregating \$250,000, will be brought against the Burlington.

WELL, WELL, HERE'S ANOTHER ELECTION COMING UP NOW

The park board election to be held June 6 is warming up. Two elements are lining up. The contest is for the election of three members on the board which will be enough to control. One element is made up of the North end aristocracy which has assumed to control the parks in the past. The elite seem to be lining up for Mrs. Laube Loomis, Richard Vaeth and Rev. H. B. Hendley. The other side is rallying around E. E. Roberts, Mrs. W. H. Johnson of Fern Hill and A. Christofferson. Was Old Superintendent. Roberts was formerly park superintendent and built them to

their present efficient state. He is conceded to be the best park man in the state. He was let go a few years ago when he got to drinking but he straightened up and has not touched a drop of liquor for two years. Christofferson was in the parks even before Roberts. He laid out Wright Park and learned landscape gardening in the old country. Mrs. Johnson is a prominent church worker at Fern Hill. Vaeth is the jeweler and in on the board now. Rev. Mr. Hendley is active in the Fifth ward and is always in the political game. Mrs. Loomis was manager for the Seymour campaign.

LAD OF 14 SAVES TWO COMPANIONS

ELMA, May 31.—Vernon Himes a lad of 14 was the hero of a double rescue yesterday. With his brother Roy and Earl Strubel he went out on a raft in the Cloquallam. The raft upset and all were dumped in the water. Strubel caught a root and hung on. Roy Himes sank twice when

Vernon grabbed him and swam ashore and left Roy hanging to the slippery bank. He then swam down stream to where he could land and got out and rescued his brother. By this time Strubel was swept away from his raft and was sinking when Vernon plunged in and brought him to shore.

BAR EDITORS FROM FLOOR

(By United Press Leased Wire.)
COLUMBUS, Me., May 31.—Representatives of the Scripps-McRae newspapers were barred from the floor of the senate today by a vote of 24 to 8. The action followed the refusal of the editors to appear before an investigating committee to testify in the present legislative graft cases.

The newspaper men refused to testify on the ground that the senate committee was a "white-wash" committee, and that if the accused legislators should be tried and acquitted by it they could claim immunity in the courts.

HALL MAY YET BE REJECTED

Bill Hall has been booked to take his job as dock superintendent tomorrow, but it is possible some objection may be raised to him yet in the council, although that body last week confirmed his appointment. Investigation has been going on by some city officials as to his standing in the community. They discover that Hall is not even a taxpayer in the city. Rowland, the present dockmaster, who is making good, is a heavy taxpayer. The council has been rather insistent on appointing taxpayers, and even held up an appointment by Weeks last week to look into the case to see whether he is a taxpayer. Possibly they may rescind the action confirming Hall. Another council meeting will be held tomorrow.

CITY SELLS ITS TIMBER

The city council this morning voted to sell the city's timber on the 80 acres near Patterson springs. It will get \$2 a thousand for it, and a million feet of timber there, so it will yield over \$2,000. Freehold voted against the deal. He thought the lumber was not very good anyway, and he suggested that city prisoners be sent up to cut the stuff into cordwood, and that it be shipped down here and be sold or given to the associated charities for next winter. The other commissioners said there would be enough left that would not saw into lumber to make wood if it is desired.

ARMOUR CLEARS UP FORTUNE IN THE WHEAT PIT

(By United Press Leased Wire.)
CHICAGO, May 31.—By dumping immense quantities of May wheat into the pit today when the price reached \$1.04 and preventing the squeezing of shorts, J. Ogden Armour cleared up a fortune and prevented a pit scandal. The bulls had planned to corner the cereal. The options of many shorts expired at noon today. Heavy arrivals of wheat from elevators also helped prevent the panic which threatened the pit today. The greatest excitement marked the trading.

Try to Blow Up Negro Resident

(By United Press Leased Wire.)
KANSAS CITY, Mo., May 31.—Negro invasion into one of the residential districts, heretofore occupied exclusively by whites, was resented today by dynamite. An attempt to blow up the house of Augustus Morgan on Bellefontaine avenue was made. A number of windows were broken by the explosion. No one was injured.

ANOTHER BOMB IN TENEMENT

(By United Press Leased Wire.)
NEW YORK, May 31.—The "Sicilian block," where forty murders and a score of Blackhand outrages have occurred, was the scene today of another explosion. A bomb in the five-story tenement, the lower floor of which is occupied as a grocery store by John Madonia, tore an immense hole in the second floor, brought down portions of three walls and threw Madonia and several scores of tenants out of bed.

Can Madero Hold Mexico Against American Capital?

Rebel Leaders' Next Big Fight Will Be Against Money Kings Who Worked With Diaz to Enslave the People.

BY WILLIAM G. SHEPHERD.
 (Special Correspondent for the Times in Mexico.)
JUAREZ, Mex., May 31.—This is Madero, head of the Mexican revolutionists, as I have studied him, after daily observations, and many conversations with him: The wrath of the Mexican people against Diaz was piled up like a log jam. Madero was the tiny midge of a man, who, bravely running out on the grinding mass, happened to strike with the pike hook, the keystone log. Down went the jam of Mexican wrath in a mighty tumult. The logger who sets free the log jam is content, if he cannot reach shore, to stand on a log and float with the jam, if destiny is kind, to safety. It isn't a question of what Madero will do. It's—what will the jam do?

If this loosened log jam of Mexican wrath moves rightly Madero's name is illustrious. If not, then some truly powerful man may step in and reap the honor. Madero is a dreamer and a lover of mankind. He abstains from liquor and tobacco, and eats no meat. His father, Francisco Madero, is extremely wealthy, he and his children owning 2,500,000 acres of land, which yields \$800,000 a year. Francisco I. Madero is 27, the eldest son. When he was 20 his father sent him to a business college in Europe and America. He has no children. He speaks English with some effort. His brothers, Gustavo, Alfonso, Emilio, Gabriel, Julio and Raoul, the latter only 22, were educated in Europe and America. Francisco dreamed of Mexico's poverty and suffering. Four years ago, when he was 33, he made up his mind that the governor of the state ought to be put out, even if he was a Diaz man.

Madero supported Senator Carranzas, Carranzas lost, and Madero made up his mind that he himself would run for the presidency against Diaz. He tried it. Many votes he got were not counted. In his speeches he said that Diaz wasn't a good president—plain campaign talk. Diaz had him thrown into jail for sedition. From June 7 to Oct. 6, 1910, he was in jail. Madero disguised himself as a workman, issued a call for an insurrection and fled to the United States. The whole family were forced to follow him, deserting that?

Today he smiles in a faint, tired way. Back to Mexico City he is going, the dreamer. The millions of Mexico speak his name with reverence. Back to their palace homes and broad acres are to go his father and his brothers and sisters. Down goes Diaz from his place as tyrant. But there still exist the men who made up the golden machine that has crushed the Mexican people. Can Madero upset

Women In Hobble or Harem Skirts Can't Blame Mashers

(By United Press Leased Wire.)
LOS ANGELES, May 31.—Adios to the hobble skirt, "23," for the peep-a-boo waist, and to the city dump with the harem. Police Commissioner John Topham is peeved at the many complaints received against Broadway mashers, and today advised the women's clubs to begin a campaign against the hobble, the harem and the peep-a-boo, which, he says, invite attention and insult. "Any woman regaling herself in such apparel," said Topham today, "should expect to be greeted with 'whoops, my dear' or similar salutations. Such apparel has a tendency to make a man feel frolicsome, for he looks upon the wearer in the nature of a freak. The way some women appear on the street is degrading, and if they would give a little more attention to such matters there would be fewer complaints against mashers. I am heartily in favor of a city ordinance making it a misdemeanor for a woman to appear on the streets garbed in either a hobble or a harem skirt."

Picked Up From the Day's News

PHILADELPHIA, May 31.—Dr. Chevalier Jackson before the American Laryngological society convention yesterday performed a remarkable operation, removing a brass paper clip from the lung of a patient without the use of a knife. He used a bronchoscope inserting a small electric light down into the lung through the mouth and then with a pair of forceps worked the brass out of the lung.

SEATTLE, May 31.—After two days in jail George Kelly was released and her accuser placed behind the bars. George Miller invited George to go to his home and get some groceries. George went. When George got home he missed his \$15 watch. He had the woman jailed. Two days later the timepiece was found in a second coat of George's. So now George is in jail accused of drunkenness and George is free.

No arrests have been made and no information as to the persons indicted will be given out until the persons are arrested.

Expect Railroad War In This State Soon

(By United Press Leased Wire.)
PORTLAND, Ore., May 31.—That north central Washington will be the scene of the next big railroad building war between the Harriman and Hill forces is reported here today. The report is based on activity shown by the Harriman forces in Washington under the guidance of R. P. Strahorn, general manager of the third district of the O. W. R. & N. with headquarters in Spokane. General Manager J. P. O'Brien of the first district, with headquarters in this city said today that any activity on the part of

the Harriman system along the upper Columbia, above the confluence of the Snake river would come under Strahorn's jurisdiction. Surveys were made by the Harriman people along the upper Columbia some time ago into the territory which so far has been covered exclusively by the Great Northern. That this survey will be followed up soon by the right of way and eventually construction crews is now predicted. North central Washington contains 11,000 square miles of which 5,000,000 acres are said to be suited for agricultural purposes.
