SAULT STE MARIE, Ont., June 19.—In an effort to save the life of Mrs. Angelina Napolitano, convicted of the murder of her husband, and doomed to execution after the birth of her expected child, her attorney, Uriah McFadden, today cabled the Canadian premier, Sir Wilfrid Laurier, who is in London.

"Women throughout America petition you to intercede with the governor general or the king to pardon or commute the death sentence of Mrs. Napolitano. Her provocation was great. The woman was under a great mental strain. You are asked to spare her for her four living children and her unborn child," the cable read.

McFadden has asked the Italian consul general at Montreal to petition the king of Italy to use his influence with British and Canadian officials to save the woman.

OTTAWA FLOODED WITH PETITIONS
SAULT STE MARIE, Ont., June 18.—The report of the judge who sentenced Angelina Napolitano to hang for the murder of her husband, and the stenographer's notes in the case were today forwarded to Ottawa, where those interested in trying to free the woman because she is soon to become a mother, expect that action soon will be taken.

Attorneys for the condemned woman are advised that the department of justice at Ottawa is flooded with petitions from both Canada and the United States asking clemency for the woman.

From the above United Press dispatches, it is evident that the tremendous campaign for the freedom of Angelina Napolitano by the good women of United States and Canada is beginning to have its effect.

Every ounce of pressure that can be applied on Canada's officialdom is being exerted to save the woman from being dragged away from the bedside of her new-born child to be hanged.

If Angelina Napolitano is freed between now and August 9, the good woman and men of Tacoma will have done their part well in a mighty work. For Tacoma has responded nobly to the woman's cry for mercy.

The petitions which have all but overwhelmed the Times office since the first publication of the story a week ago are still coming in in undiminished force. Between the last report Saturday and this morning 750 petitions came in.

At the Circuit theater, where the petitions and the Times story were pasted up, a total of 1481 people signed up on Saturday and Sunday. This was in addition to 1900 people who have signed up there before.

So the total signatures to date is 7,130.

HERE'S FRIENDSHIP
ALAMEDA, Cal., June 9.—Adrian Ambruller and Ernest Miller, youths aged 13 and 14, and firm friends, decided to cement their friendship in blood and each agreed to chop off the other's thumb with the ax in token of fraternal fellowship.

Miller whacked off the end of Ambruller's thumb and then the latter in trying to carry out his part, fainted but got a finger off Miller.

BABY VIOLET FINDS HOME

Baby Violet has a home and a mother today.

The response to the motherless baby's appeal in the Times Friday for a home was quick and earnest. Scores of people applied for her. Some were well-to-do folk whose own children had grown up and who were hungry for the sound of a baby's voice in the house once more. Some were old people, some were newly wedded. Some asked many questions about the baby. Others asked only the one question, "Can we have her for good?"

It was a big responsibility for the editor of the Times. Many of the people who applied will be disappointed today. But the editor after taking over the whole question with Violet's widowed father, did what he thought best for the child.

Lives Close By.

New Picture of Mrs. Napolitano

MRS. ANGELINO NAPOLITANO

The American and Canadian public is deeply stirred over the story of this poor woman's tragedy. Petitions signed by tens of thousands are pouring in upon Earl Grey, governor general of Canada, at Ottawa, asking for her pardon or reprieve. Have you sent yours yet?

Angelino Napolitano killed her husband on Easter morning in their rude home at Sault Ste. Marie, Ont., because he threatened her with horrible death if she would not support him by a life of shame. She was tried, convicted and sentenced to hang, the execution being postponed until August 9, a month after the date when it is expected her baby will be born. She already has four children.

Blue Envelope Author Kills Self In Cell

(By United Press Leased Wire.)
PORTLAND, Ore., June 19.—Lloyd Light, who came to Portland two months ago from Los Angeles and claimed to be the author of "The Blue Envelope," which appeared in a popular weekly magazine recently, was found dying in a cell in the city jail this forenoon. He died en route to the hospital. Light had been arrested a few hours previous for the forgery of a check at the Oaks, an amusement park.

It is believed Light ended his life by taking poison but this will not be known positively until an autopsy is performed. Light was arrested here several weeks ago for non-payment of his hotel bill but was acquitted of the charge.

Light was prominent among the literary set of Long Beach last winter.

SUICIDE SLIM BUSTS THINGS Surround Bandits

(By United Press Leased Wire.)
FOCATELLO, Ida., June 19.—Posses of cowboys today have surrounded the two bandits who shot Conductor William Kidd and Deputy Sheriff Sam Milton on an Oregon Short Line train near Highbridge, Idaho, Saturday and a battle is imminent.

The bandits were located in the lava beds near Spencer by bloodhounds.

"I'm Suicide Slim," said Pat McGee, longshoreman, as he entered a lodging house opposite the city hall on Commerce street, picked up an ax and started to break up a trunk belonging to Mrs. Mae Horton, the proprietress.

Mrs. Horton tried to stop McGee. Whereupon the man threw the woman on the floor and was drawing a razor when the police interfered.

McGee threw Mrs. Horton's shoes out in the street and broke one window with his fist. Mrs. Horton reports.

Leaves Father For See

(By United Press Leased Wire.)
CHICAGO, June 19.—When the trial of Evelyn Arthur See, charged with contributing to the delinquency of Mildred Bridges, 17, opened today, the court room was crowded with girls and women. It was reported that most of them were former followers of See.

Mildred Bridges, one of the high priestesses of See's "Absolute Life" cult, sat in court refusing to desert See. She refused even to glance toward her father, Stephen Bridges, who is the first witness for the state.

Attorney Cantwell, representing See, denounced Mildred's father.

"The teachings of the Absolute Life were pure and not immoral," he said. "Mildred Bridges was not enticed from her home, but left with the consent of her parents; the first time she heard evil words was in her own home from her own father."

"Bridges said," Cantwell continued, "I raided See's apartments and I will spend every penny and consider my life wasted unless I ruin him."

"The Absolute Life is but a step in the evolution prophesied by great men of old, and needed to preserve the laws of God and man. Bridges wrote to his daughter saying that if the courts did not send See where he could run no more homes he would take the responsibility and the consequences upon himself. Mildred is pure and her father is more dangerous to her than See could have been."

Bridges was then called to the stand.

EXTRA! SHOOTING SUSPECT

The police are busy today trying to find evidence to connect a mysterious prisoner named John W. Roberts, with the shooting of Patrolman Cunliffe at Seattle last Friday night.

The man walked into the station at midnight with a bullet hole in his hip. He explained that he had shot himself accidentally at the Massasoit hotel, C and Seventeenth street. The police say that he had never been at the Massasoit.

NEW COMPLAINT AGAINST MR. WRIGHT

Despite Contractor George Wright's denial that he worked more than eight hours on the gravity water system, complaints are still coming in.

Three men came into the Times office today who said they had been working for the Wright Construction company ten hours a day.

Foreman Andrew Jergenson, when he hired us on May 17," said the spokesman, "told us it was eight-hour work. When they worked ten hours we asked him about it. He stalled us along, saying we would get overtime for the extra work. But when we got our money we got pay for eight hours only."

Wright had answered previous charges by saying that some of his sub-contractors might be working the men over time, but that he wasn't.

PLUNGE FROM SKY TO DEATH

(By United Press Leased Wire.)
PARIS, June 19.—Sickened by the toll of death that has marred the opening of the Paris-Belgium-Holland-London aeroplane race today, many today are demanding that the contest be abandoned.

In spite of this and the three deaths and five injuries, however, the air men are hurrying along in the race today. Sixteen of the 48 starters have reached Belgium.

The accidents came almost with the starting gun. Before one million people Capt. Princetau, gazzeted captain only a few hours before, was cremated in mid-air when the engine of his monoplane exploded.

Then M. Le Martin's Bleriot became unmanageable and fell. His head was crushed and he died within a few minutes.

M. Lendron was the third victim. After he had made seventy miles his gasoline tank exploded and he was crashed to earth and killed.

M. Gaubert, who entered under the name Delgar, a French army officer, fell near Villiers-Croterets, and is dying. Four others were less seriously injured.

Many Are Injured.

M. Billé was severely hurt when his monoplane fell and was completely wrecked. M. Morrison fell near Gagay, his machine was wrecked and he was painfully injured.

M. Morin fell near Chevron. His injuries will not prove fatal. His machine was crushed. M. Lorian fell near Charleville. He was the least seriously injured. His machine was totally wrecked.

The fact that such a great crowd thronged the course and threatened to become unmanageable is believed to have made the aviators nervous. On this very field Lafford and Pola were killed last December and four weeks ago Minister of War Berteaux was killed and Premier Monis severely injured.

Princetau's death was most spectacular. Scarcely had he risen when one of the planes of his machine caught fire. He struggled desperately to loosen the strap which held him in his seat. While he was working at this with one hand and endeavoring to steer with the other, the gasoline tank exploded and covered him with flaming gasoline. His aeroplane dropped like a plummet.

Friends rushed to the wreckage, cut the strap and dragged the captain's body away. He was dead when released. The aeroplane burned fiercely for a few moments and then lay a mass of twisted wreckage while other aviators mounted and soared over it on the race, whose prizes total \$94,000.

Seamen Believed to Be Winning Out In Strike

(By United Press Leased Wire.)
LONDON, June 19.—That the striking seamen will win their demand for increased wages is the general belief here today. Several owners have yielded. The strike is becoming better organized, and shipping is practically at a standstill. Officers of the seamen's union assert that the steamers Megantic, Celtic and Dominion will be tied up until their crews are given an increase of 10 shillings monthly. The organized demand was for twenty shillings.

Shipping on the Clyde is paralyzed. Shipping unions are threatening to strike today.

(By United Press Leased Wire.)
ROSEBURG, Ore., June 19.—With 400 names signed to the petitions asking for the recall of Judge John S. Coker of the second judicial district of Oregon, secured as a result of one day's work, circulators resumed their task of gathering names today.

Attorney Cannon, who has charge of the movement, said today that a score of petitions would be circulated in adjoining counties.

ONE MAN FATALLY WOUNDED

(By United Press Leased Wire.)
SALT LAKE CITY, Utah, June 19.—One man was fatally wounded and another shot through the hand in a battle this morning between bandits who Saturday killed Conductor Kidd and fatally wounded Deputy Sheriff Jones on an Oregon Short Line train, and a posse which has since been pursuing them. The fight occurred near Highbridge, Idaho, at 10 o'clock this morning. The desperadoes escaped.

The posse got on the trail of the bandits, after the desperadoes this morning held up a farmhouse near Highbridge, shot the owner, seriously wounding him, and escaped with a horse. The news was rushed to Highbridge and sent on to the posse which was already in the field.

TELLS SECRETS OF SUGAR TRUST

(By United Press Leased Wire.)
WASHINGTON, D. C., June 19.—James H. Post, former agent for Henry O. Havemeyer, told the sugar investigating committee how \$10,000,000 had been manufactured from thin air for Havemeyer.

The entire \$10,000,000 was issued to Post and then transferred to Havemeyer although Post always voted it.

Post said that a dividend of 10 per cent on this \$10,000,000 stock in 1903 and 15 per cent in 1904 was paid to Post, who transferred it to Havemeyer.

Post admitted that he named the sugar directors, instructed them what to do and then left the room while they voted the \$10,000,000.
