

Lillian Graham Missing

(By United Press Leased Wire.) NEW YORK, July 24.—Much speculation is indulged in here today over the alleged disappearance of Lillian Graham, one of the girls who shot Millionaire Stokes, from the Cathedral Plaza apartment, where she has been living with her sister, Mrs. Singleton, and Ethel Conrad.

Charles Lawrence, a friend of the girl, says she came to his house, saying that she had quarreled with Miss Conrad over a dress, and that she is still domiciled with him.

Mrs. Singleton says this is not true. Miss Graham's press agent is much concerned over her disappearance today and threatens to start an extensive search for her.

Police Not Excited.

The police refused to become excited over Miss Graham's alleged disappearance, believing it a press agent stunt. Clark Jordan, counsel for the show girl, however, insists that she has been kidnapped.

WILSON MAY FACE COURT FOR KILLING

Sheriff George Gaston of Thurston county worked all day yesterday investigating the connection of J. H. Wilson, the Rainier section foreman, with the murder of Mr. and Mrs. Archie Cobel of that place. Wilson is held at the Olympia jail and will be arraigned before a justice of the peace this morning.

If any evidence is then brought out against Wilson he will be bound over to await trial. Wilson had been arrested on testimony of his wife who found blood stained paper in a tent in which he had slept the night of the murder.

State News

Minnie Cox and Lillian Moore of Centralia, aged 13 and 14, who bought tickets to Tacoma and then disappeared, have not been heard from, and fears are entertained for their safety.

President H. C. Phillips and Cashier Gilbert W. Daniels of the Funct Commercial bank must appear in court for bankroking at Vancouver August 2.

Minnie Maddern Fliske is the guest of Aberdeen today, and is being accorded great honors. She plays there tonight.

The Centralia Commercial club will raise \$18,000 to start a factory to make electric automatic incubators on patents by L. L. White of Portland.

Sentiment is almost unanimous in favor of forming a reclamation district for irrigation in Kittitas county.

Fred Jewell, aged 15, from near Littell, for the third time was taken in tow by the sheriff Saturday and finally sent to Chehalis training school for threatening to kill his grandfather.

Three hundred thousand visitors are estimated to have visited Seattle for the potato show.

Mike Pappias, a Greek, when taken to court in Chehalis for creating disturbance, railed at the court and it cost him \$40 and 30 days in jail.

Oakdale's telephone system is dangerous, and patrons are being shocked daily. Operator Goyton was killed by electrocution last week.

The Montana street sawmill and one building of the Heffernan Dry Dock Co. were burned at Seattle Sunday with losses of \$80,000 and \$10,000 respectively.

Frederick Kaufman, a stock farmer at Orchards, ran to catch a car to Vancouver and died from apoplexy from the exertion.

MOBILE, Ala.—One hundred cases of typhoid fever have been reported here since last Monday.

FUNNY SIGHTS IN FOREIGN SITES

GYMNASIUM ON BOARD BUILT FOR LAZY FOLKS; IT'S ALL AUTOMATIC

Enroute to Naples.

EAR BILL:

If you think life on an ocean liner is a round of bridge whist, penny ante, shuffle board, and gossip, let me set you right. The idea may have been correct last season, but since the advent of corsets the size of lead pencils and hobbie skirts, the dear old pastimes are passe.

Each morning between 10 and 12 I hear the stairs creak with heavyweights hurrying to the gym. In those two hours the women have exclusive control. Every woman aboard who doesn't resemble Maude Adams—and there are several—is working like a nailer to reduce flesh on the high seas.

The gym was built for lazy folks. Each contrivance is run by electricity, saving the candidates for thinness a lot of work.

Mrs. Innator Deddo of Long Island, arrives at the gym clad in a white sweater, panting, with a poodle to match at her heels—also panting. She is placed with her back to machine No. 1. A switch is turned and two iron arms pummel her spinal column. Machine No. 2 vibrates her arms and legs until she resembles an undertimed photograph.

Then comes a canter on the electric horse, and a ride on the camel machine. This twists and squirms in a wofull way. Sailors would seem like a demure Quakeress alongside this wobbly affair. I have never ridden a camel, but from my experiences with the camel machine I intend to take a street car to the pyramids of Egypt.

The gymnasium is a regular. The first person to lose a pound wins. No one has won so far.

Yours,
WEBSTER.

Reciprocity Opponents Carry Fight Into Canada

(By United Press Leased Wire.) OTTAWA, Ont., July 24.—Bitter fighting in the Canadian parliament is predicted here today before the reciprocity agreement with the United States is confirmed.

It is believed the passage of the bill by the American senate will aid the Canadian government, but since the Washington victory all the interests opposed to the pact have transferred their activities to Canada.

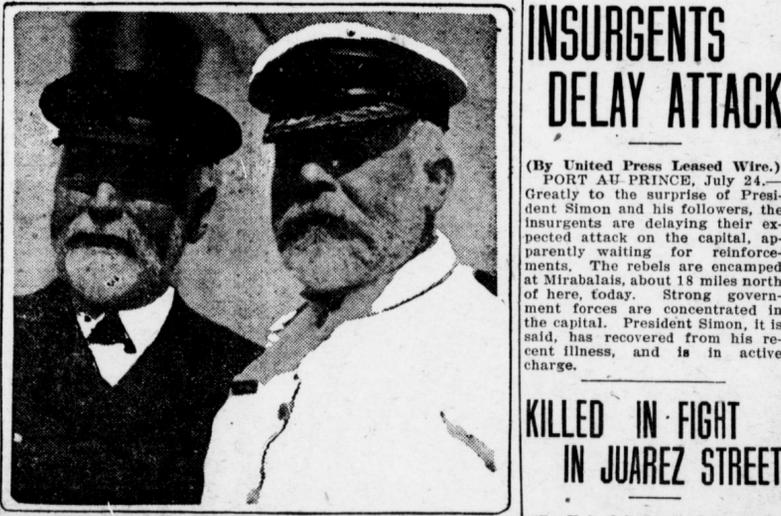

Opponents of the measure say they will talk the bill to death, but Premier Laurier insists that the agreement would lead to a general election on the proposition, but there is little doubt that the Laurier forces would win.

Taft Is Congratulated.
BEVERLY, Mass., July 24.—

Telegrams of congratulation from many of the friends of President Taft were received by the chief executive today. All lauded the president for his statement on reciprocity and many of his political friends declared, it is announced, that his giving of praise to the democrats for their share in passing the measure would, in the long run, prove to be "good politics."

Adherents of the Taft administration, by their telegrams, indicated that his praise of the opposition party and of those republicans who were staunch to him would tend effectually to combat the schisms in republican ranks. President Taft, it is said, has received direct assurances from the Dominion government that there is practically no doubt that Canada will confirm the agreement.

MAN WHO MADE AND MAN WHO RUNS BIGGEST STEAMSHIP IN THE WORLD

Here are K. P. Pirrie (in the dark suit) and E. J. Smith. They were photographed on the deck of the Olympic, the world's greatest steamship, in the harbor of New York. Pirrie built the ship; Smith is its captain. They spent much time together on the trip across, watching the workings of the giant vessel, for Pirrie is building a sister ship, the Titanic, and wishes to improve, if possible, upon the Olympic.

PLAN TO HAVE CITY PAY THIRD OF ROAD

The scheme to build the South Tacoma road from Center street to the city limits is shaping up. The property owners are, of course, eager for this, but other sections of the city will say where the people have had to build their own streets remains to be seen.

The argument in favor of this idea is made that it is a general road and not merely a street for use of the abutting property.

NEW LAW TO HIT BLIND PIGS

Trouble is brewing for the blind pigs.

Under the present law the city could prosecute only under the state law and the prosecuting attorney's office has not shown any disposition to enforce the law.

Now Assistant City Attorney Carnahan is drawing an ordinance to classify blind pigs as nuisances and then the city will be able to proceed against them.

In addition to blind pigs, whistling mills and steamboats, flat-wheeled cars and the usual run of public nuisances will probably be included.

The old nuisance ordinance was passed in 1886 and is out of date.

SEYMOUR STILL HOLDING FOSS RESIGNATION

As stated in the Times several days ago, Mayor Seymour has the resignation of President Louis Foss of the civil service board in his pocket. He has not yet presented it to the council. When he does so it will probably be accepted. It is not unlikely that then the other two members will also resign. If not, they may be asked to.

Commissioner Freeland, just returned from his trip east, reports that in a town as badly bossridden as Chicago everything in public service is under civil service. He is more firm than ever in his stand for civil service. Pettit is standing with him to get a board that will co-operate with the commission and yet sustain civil service.

Freeland has been planning a charter amendment to put civil service on its feet and give the city a real civil service instead of the farce it has at present. He will bring this up in plenty of time before the next spring election.

HOOT PREMIER OFF THE FLOOR

(By United Press Leased Wire.) LONDON, July 24.—For the first time in the history of England, a premier was today howled down when he officially attempted to explain the government's course on the lords' veto bill on the floor of the house of commons.

For half an hour Premier Asquith tried to explain the stand of his ministry on the veto bill, but all his utterances were drowned out by shouts of "traitor," which were kept up by the conservatives.

The speaker of the house was unable to preserve order and Asquith, tired out, finally made a brief and inaudible statement and sat down.

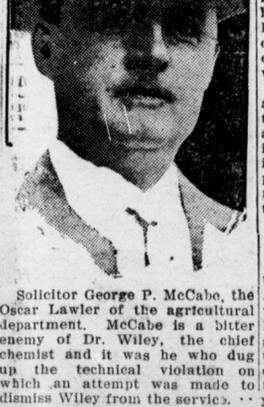

(By United Press Leased Wire.) CONSTANTINOPLE, July 24.—Two grave outbreaks of fire this evening in the Stamboul district leads to the fear that last night's holocaust will be repeated. The wind is fanning the flames, which are spreading rapidly through the native quarter of the town.

WILEY'S FOE IN HIS OWN OFFICE

(By United Press Leased Wire.) LOS ANGELES, July 24.—Returning to a burning structure to rescue an angora cat and three kittens today cost the life of Miss Louise B. Frederic, 30, an artist of New York City, in a fire which destroyed three homes in Garvanza, a suburb.

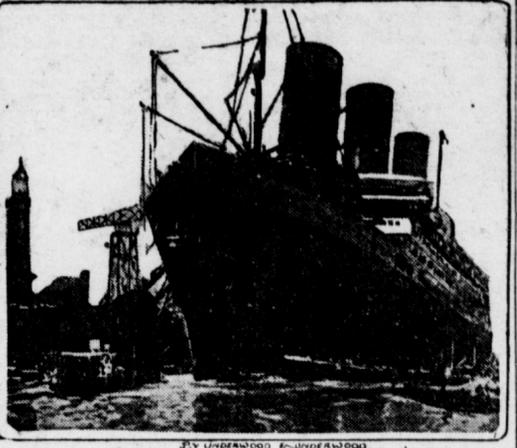

The landlady was awakened by a pet Maltese cat scratching at the bed clothing. She gave the alarm and eleven other occupants including Miss Frederic escaped in their night clothes. Despite protests of friends, Miss Frederic rushed back to save the cat and the kittens.

GIVES LIFE FOR A CAT

Solicitor George P. McCabe, the Oscar Lawler of the agricultural department, McCabe is a bitter enemy of Dr. Wiley, the chief chemist and it was he who dug up the technical violation on which an attempt was made to dismiss Wiley from the service.

NO MORE SEASICKNESS WHEN NEW "BIGGEST SHIP" IS COMPLETED

Sea-sickness will be eliminated, they say, when the new German boat "Imperator" makes her maiden trip over the Atlantic in the spring of 1913. This picture is reproduced from a drawing of the vessel, now building at Hamburg. Sea-sickness will vanish, it is said, because of the rahn decks—a device that reduces the motion of the ship to a minimum. It was tried out by the company on a small ship and is declared to have reduced the oscillation in heavy weather from 63 to 3 degrees. On a craft the size of the Imperator it is believed even the last 3 degrees will be eliminated.

The Imperator is also to be the biggest ship afloat, 900 feet long, even surpassing the new Olympic. She will have 50,000 tons displacement, with nine decks above the waterline. She is built more for comfort than speed and will require seven days to cross the Atlantic. She will carry 4230 passengers of all classes and will need a crew of 1000 men. Among special features will be reproductions of ancient Roman baths in bronze, marble and ivory, a roof garden, squash courts, a gymnasium, a swimming pool and a rathskellar.

Playground Children to Hold An Election

The playground movement is taking a deep hold on the youngsters in Tacoma, and at Lowell and Edison schools the playground boys and girls are getting organized for proper regulation of affairs.

Tomorrow the election for mayor and commissioners will be held, and there is keen rivalry. No campaign cigars are being passed, for Dwight Ball and Ralph Towne are candidates for mayor. The girls are hinting they may enter the field with a suffragette candidate.

Championships in tennis for girls and in croquet and the more strenuous games as well were played last week.

ASSESSOR GETS EIGHT YEARS

(By United Press Leased Wire.) OAKLAND, July 24.—Former County Assessor Henry P. Dalton, convicted of having solicited and received a \$5,000 bribe from the Spring Valley Water company, was sentenced today to a term of eight years in the penitentiary. His attorneys announced that he would not appeal.

Henry P. Dalton was for 16 years assessor of Alameda county. When sentence was pronounced there was no relatives of the accused man present except his brother, Frank N. Dalton.

Dalton took his fate calmly, showing little emotion.

Robbed With the Gun He Sold

DENVER, July 24.—"Let me look at a revolver."

A well-dressed youth walked into the second hand store of Sam Boitz about 11 o'clock last night and made this request. Boitz laid a revolver on the counter. The young man examined it carefully. "That will do very nicely. Now let me have some cartridges," he said.

Boitz handed him a box of cartridges. The youth loaded the five chambers and then covered Boitz with the revolver.

"Throw up your hands," he commanded. Boitz obeyed. The robber bound and gagged him, went through his pockets, emptied the cash register and fled with \$16.

SO SHE ASKED THE P.O. CLERK

She wanted the clerk to put glue on her stamps.

She wanted to know a good cure for the cramps.

She asked if he knew of a good picture show.

The dear little girl only wanted to know!

She wanted to know what the temperature was.

No reason at all but a woman's "Because."

The stamp clerk was busy, she knew very well.

His answer was horrid and torrid as Uno!
