OTTAWA, Sept. 22.—With a
majority of from 45 to 50, the greatest within the recent history of the country, Canada's coming premier, Robert L. Borden, today stands committed to a policy of "trade under the flag," as the result of the sweeping defeat of Sir Wilfrid Laurier's government which for 15 years has guided the destinies of "Qur Lady of the

Trade concessions only to Great Britain and her colonies will be the policy of Canada. All more in-timate relations with the United States will be tabooed and the whole efforts of the Dominion will be bent toward building up trade within its own borders,

The victory of Borden is a triumph for the imperialistic policy of trade preferences, which aims to consolidate the British colonies by commercial connection and to establish a practical "all red" of commercial communities around

Returns of the landslide today are still incomplete. So far they Indicate that the next parliament will be composed of 130 conservatives and 86 liberals.

The conservatives in Ontario parried 71 of the 85 seats of the province. The big feature of the election was the gain by the conservatives of two seats in Saskatchewan, which was supposed to be unanimous for reciprocity.

Annexation Bogey Worked. There is little doubt expressed today that one of the principal causes of the defeat of the Laurler government was the annexation cry raised when Speaker Champ Clark, in the American house of representatives declared that he hoped one day to see one flag flying from the Gulf of Mex-

ico to the North Pole. The defeat of the liberals, the most sweeping since confederation of the Dominion of Canada, means the final retirement from public life of Sir Wilfrld Laurier, for nearly a score of years one of the prominent colonial figures in the British empire. The defeated liberal leader, who is 70 years old, was greatly disappointed at the result of the election.

restore that bright, promising boy, Charles Van Horn, to his mother's arms

White must have a fair trial, of course. If, as his friends assert, he was running slowly and carefully, if he did all that a man could to avert the accident, then he must be acquitted.

But if White, as other witnesses say, was driving at a speed of from 20 to 35 miles an hour through a crowded downtown street; if, as these other men say, his auto skidded for from 20 to 30 feet after striking the boy, so great was its momentum, THEN WHITE SHOULD BE JAILED FOR MAN-SLAUGHTER.
