The money king will be asked how much money the trusts in which he is interested have contributed to both the democrats and republicans in the last three campaigns. Morgan's testimony is expected to develop the biggest sensation since John D. Other important witnesses to appear Monday will be Cornelius N. Elias, jr., C. C. Tegethoff, secretary to the late E. H. Harriman, and Ormsby McHarg of Chicago, who argued the Roosevelt contest cases before the national republican committee

Tacoma pays a milk and dairy inspector \$125 a month. He is a graduate veterinarian. Tacoma also hires outside "hoss doctors" to attend the city horses at an average of \$40 a month. Some people think the milk and dairy inspector might also doctor the sick horses and save this \$480 a year and that a private corporation would fix it that way. Besides the salary boosts and addition of more city employes this may be one reason taxes are going up all the time. The people will have a chance to be heard October 7 at the city council chamber. In the meantime what do you think about taxation? Do you want more city employes and more salary boosts and more taxes, or have you some solution to the high cost of municipal living? Write your ideas in 150 words or less and send them to the Times at once.
