

THE VENOMOUS TONGUE OF SLANDER, THE POISONED ARROWS OF LIBEL AND OTHER DEADLY THRUSTS OF FANATICAL CHARACTER ASSASSINS INSPIRED BY THE MALICIOUS HATRED OF SPECIAL PRIVILEGE WON'T FOOL MANY PEOPLE INTO VOTING AGAINST BOB HODGE. THE PEOPLE HAVE LEARNED THAT THE LEADER WHO ATTEMPTS TO DO SOMETHING FOR THEM IS ALWAYS THE TARGET FOR THE ATTACKS OF THEIR ENEMIES, THE POLITICAL BOSSES, AND THE SPECIAL INTERESTS.

GAVE LIFE FOR ANOTHER

Above is a picture of Billy Rough, the crippled newsboy whom the city of Gary, Ind., honored Sunday with a public funeral. He had let the doctors cut off his leg so that the skin could be grafted on the burned body of Ethel Smith, thereby saving her life at the cost of his own. The picture was taken in the hospital a few days before his death. Below is Miss Smith, on her hospital cot, now on the way to recovery.

BULGARIA DEFEATS TURKS

(By United Press Leased Wire.) SOFIA, Bulgaria, Oct. 22.—Disaster to the Turkish arms all along their line of battle, from the Greek frontier to the Black sea was officially announced here today. The government reports declare that the Bulgarian troops have pierced the Moslem line of defense in a dozen places, isolating the detached forces of the Turks throughout the whole territory. No confirmation of the government announcement has yet been received from independent sources, but if the reports are correct and the Bulgarians have overwhelmed the Turks throughout such a stretch of country, it means an almost irreparable Turkish disaster, the almost certain fall of Adrianople, the opening of the way to Constantinople and a probable great battle near the shores of the Bosphorus in which will be decided the continu-

BATTLE EXPECTED

(By United Press Leased Wire.) MEXICO CITY, Dec. 22.—Dispatches received here late today state that government troops this morning moved into position to attack Vera Cruz, which city is held by Felix Diaz, the rebel general. News of the actual start of the battle is momentarily expected. Later advices say General Diaz and his troops have left the seaport and are advancing inland to meet the federals.

SAYS BOYS FIRED INTO HOUSE FULL OF DYNAMITE

Three Tacoma youths and the family of A. F. Bailey owe their lives today to the peculiar trick of fortune called luck. On Sunday, October 6, according to a complaint sworn to by Mr. Bailey, the three boys discharged several volleys of shotgun and rifle fire into his house near Seneca landing. No members of his family happened to be home at the time, and more peculiarly none of the bullets embedded themselves in the large quantity of dynamite which was stored in the building. Ossey Nolde, 17 years old, and Herbert Gori, aged 14 years, were arrested today on the warrant Mr. Bailey secured from Justice Frank H. Graham. Charles Gori, brother of Herbert, aged 20, is being sought by Constable Theodore Mohrbacher. All will be charged with defacing the home of Mr. Bailey. The two lads arrested live with their people near the scene of the near-catastrophe. The Nolde boy is the son of C. G. Nolde, an employe of the Sunset Telephone company. The Gori family live on Day island. The youngest Gori boy and Ossey Nolde, when arrested today, said the other lad, Charles Gori, had nothing to do with shooting up the Bailey home. They had been out hunting that day, they said, and Charles had been with them, but had not taken part in the firing upon the Bailey house, having been a quarter of a mile away at that time. Neither have they admitted as yet, it is believed, that they themselves had a hand in the affair. The dynamite in the house would have been sufficient to have killed any person within quite a considerable distance of Bailey's house.

Munson of the Enrore, a small boat plying between Tacoma and Shelton. The body had evidently been floating for three or four weeks, and the presence of two whisky bottles indicates drowning when the Indian had fallen into the water intoxicated. The remains were taken to C. O. Lynn's undertaking parlors.

WIVES OF CANDIDATES: THE REAL MRS. ROOSEVELT, AT HOME AND PERSONALITY

SAGAMORE HILL, THE ROOSEVELT HOME AT OYSTER BAY.

mouth most sensitive; it reveals her every thought almost before she speaks.

Mrs. Roosevelt is not one of those women who take themselves too seriously. She smiles often and has a great sense of humor; indeed, one of her fads is collecting nonsense rhymes, and she laughs heartily over many that have the colonel as their subject.

The progressive candidate's wife is noted for her splendid executive ability. The dispatches have told you how she brought order in the colonel's room at Mercy hospital and how she soon established her own absolute rule where only the stricken victim's impetuosity will rule before.

At Sagamore hill, she is manager in the full sense of the word because she considers it the duty of a wife and mother to be the home keeper, absolutely.

For hundreds of years the forbears of Edith Kermit Roosevelt have been people of means and used to being waited upon. Those who work for them, live with them until they are past service and then are pensioned. At the Sagamore hill home most of the service is performed by colored people who simply adore its mistress—and well they may, as she is as careful of their rights as of her own.

In my recent visit there I left my coat upstairs and when I was leaving, Mrs. Roosevelt said, as quite a matter of course: "Ethel, go up and get Mrs. Gibson's coat."

In a moment Miss Ethel was helping me on with the wrap. It's a very little incident, but it points to the simplicity and sincere hospitality of the Roosevelt family and the absolute democratic spirit which prevails among them. Mrs. Roosevelt never speaks of the "plain" people nor the "common" people, but you feel when talking to her that you and she are one with all the great human family.

Highly educated, she was able, while in the White House, to converse with a number of our foreign ministers and ambassadors in their own language on topics which appealed to them most, yet the plain things of life appeal to her quite as much. While I was in Oyster Bay I was told of a discussion between Mrs. Roosevelt and another woman on the question of apple pie and cream and the way to serve it. If it were possible, a glance over Mrs. Roosevelt's menus for a week would be a lesson in

domestic economy. The food which is brought to her table is of her own choosing and her meals are always ordered in reference to the perfect combination of food values, although they must also appeal to the eye as well as to the palate.

TEDDY IS HOME AT LAST

(By United Press Leased Wire.) OYSTER BAY, N. Y., Oct. 22.—Colonel Theodore Roosevelt arrived at his home here shortly before 10 o'clock today. To avoid the crowds, the train was stopped at Syosset, where a limousine was waiting. The colonel walked to the automobile, accompanied by Mrs. Roosevelt and his daughter Ethel. Then the party was hurriedly driven to Sagamore Hill.

Arriving at Sagamore Hill, the colonel walked to the house unassisted. His efforts were cheered by a small crowd.

A large number of persons had gathered at the Oyster Bay station, but were disappointed upon learning that the former president left the train at Lyosset, driving to his home in an automobile. Dr. Alex Lambert issued a statement from Sagamore Hill later, saying that the colonel was feeling fine, and greatly appreciating the interest of the residents of Oyster Bay in his condition.
