HOW A YOUNG SINGER MADE A FORTUNE

A young European singer has made a fortune by making a recipe of a sauce which has had the most phenomenal success. The singer had suffered for years with a severe case of indigestion and consulted many celebrated doctors in Europe. A distinguished French specialist mentioned to the singer a vegetable which had marvelous digestive properties but was not much used. The singer made a sauce, containing this vegetable, which he added to his food and in the cooking. Leading cooks in Europe pronounced it a sauce unequalled for seasoning and when added to food. The name Waw-Waw was given to the sauce and a company was formed to make it for the general public. So great and immediate was the success that Waw-Waw is now to be found in all parts of the world and is already used by the principal hotels and railroads throughout America. It adds a zest and piquancy when used in cooking and in soups, salads, and cold meat and fish, which is unequalled and at the same time, see how easily you can digest anything. Waw-Waw is absolutely unlike all other sauces and although in taste it resembles a Worcestershire, yet the ingredients are quite different. Waw-Waw (an obsolete South American Indian word for vegetable) is a purely vegetable sauce and contains no raw spices and guaranteed absolutely pure. Letters have been received from people stating how much good it has done them. A trial 25-cent bottle will convince you how much more you will enjoy your food and how easily you digest anything and everything. West Coast Grocery Co., Tacoma, Wash.
