**MOVIE MAN IS  
GREELEY NEPHEW**

**SYDNEY AYRES.**

Sydney Ayres' mother was Horace Greeley's sister. A little figuring will easily reveal to you the exact relationship between this good-looking fellow and the illustrious American journalist.

Ayres is an actor, a vaudeville star and a playwright. He's a dashing-looking cowboy, yet a dress suit seems to fit him like a glove.

His is one of the most familiar faces in the "movies." Recently he became one of the leads at the American Film company, at Santa Barbara. The spirit of his illustrious ancestry seems to hold him in the nest!

**COUNTRY CLUB  
BLAMED FOR  
ROADS**

In reply to a letter from Charles Richardson, president of the Tacoma Ice company, who declared that ice on the American lake prairies were almost impassable because of mud, the country commissioners today wrote back that the Tacoma Country club was entirely to blame for the present condition. The country club demanded that the roads be oiled, and paid one-half the cost. Now the oil causes water to stand in the roads, forming mud, and practically no sewage takes place. The commissioners will make no effort to alleviate the muddy condition.

**SUES FOR \$1600.**

Struck in the breast by a 32-foot cant-log that had been hurtled through the air by a "kick-er" in the Evergreen Lumber company's mill at Puyallup, Clarence Whiteford, age 18, filed suit for \$1,600 damages in the superior court today. Several ribs were broken and one of them protruded through his side, where it will remain permanently, he alleges.

RECORD WEEK'S SALE**

The biggest week in the history of the Pacific Car company was reported this week by Manager Ross. Six cars were delivered in four days, and four of them were the huge '14 model Hudson "6-40." Orders were taken for 11 other cars, to be delivered as quickly as they arrive in the city.

Among the purchasers of cars were Dr. B. H. Foreman, who secured a Hudson 6-40; Attorney G. W. H. Davis, Hudson, 6-40; W. J. Sector, Hudson, 6-40; Dr. E. A. Rich, Hudson, 6-40; A. G. Hanson, Buick touring car, and W. L. Gregg, Buick roadster.

**NEW MERKEL MAKES  
INSTANT HIT HERE**

The new 1914 Flying Merkel motorcycle, with automatic self-starter, has arrived in Tacoma. It is attracting no little interest, and is being sold in the district for the Merkel, has been followed by a crowd of motorcycle fans whenever he has demonstrated the new machines, and has received orders already for quick delivery of the self-starting motorcycle.

The '14 Merkel is the only machine to have a mechanical self-starter. The pressure of the toe on a small lever starts the engine, and the self-starter is said to be ready for instant use at all times.

**CRACKS SAFES  
WITH BARE HANDS**

Jimmy Valentine, a smooth young bookkeeper, whose ability to open combination locks merely by sense of touch, finally succumbs to temptation, and lands in the penitentiary. The daughter of a prominent banker who had been saved from insult at the hands of a brute, through the timely interference of Jimmy, while on a train some years before, one day calls at the prison and recognizes Valentine. Through her efforts a pardon is secured, Valentine always having maintained his innocence.

Jimmy's chance comes when the girl's father offers him a responsible position in the bank. He accepts, having already determined to lead a straight, honest life—a determination inspired by the sweet-faced girl who had confidence in him. Detectives trail Jimmy with a warrant for an old offense. He completely baffles the detectives, but is compelled to expose himself later when he opens the door of the new vault in order to save the life of a little girl who has locked herself in accidentally.

This is a brief sketch of "Alias Jimmy Valentine," the greatest of all crook plays which will be the big Christmas week offering at the Princess theater beginning tomorrow matinee. There will be a special matinee Christmas and bargain matinees tomorrow, Wednesday and Saturday. Monday night is ladies' bargain night. Telephone Main 7760 and order tickets.

WASHINGTON, D. C., Dec. 20.—Daniel C. Roper, first assistant postmaster general, says the Sunday holiday in the postoffice has increased the cost and lessened the efficiency of the department.

**FOUND PAINTING**

NEW YORK, Dec. 20.—Daughter of George Inness, prominent American artist, now dead, removed a blur of white paint from a canvass left by her father which he had painted over and found a beautiful painting of Sunlit Woods worth today \$25,000.

**"DON'T WALK ACCORDING TO STYLE," SHE SAYS**

**JESSALYN VAN TRUMP.**

"Wear your hair and your WALK and your clothes and your manners, not according to style, but according to your own sense of fitness, good taste and becomingness. It's bad enough to affect a style of hair, no matter how unbecoming, just because it is stylish. But when it comes to wearing a 'patterned' walk it's time to think."

This is the "style" argument of Jessalyn Van Trump, leading movie lady.

**HARLEY-DAVIDSON IS  
DELIGHT OF RIDERS**

The Harley-Davidson agency is exhibiting two of its late model two-speed 1914 machines. The most novel feature of the new machine is the selective two-speed gear, incorporated in the rear hub. This gear has proved most effective on the steep hills of Tacoma.

The new machine has a step-down motor is started, with both wheels on the ground. This makes starting easy and convenient and eliminates the old disadvantage of having to place the machine on a stand before starting. Large aluminum footboards, give the rider ease of position and preclude any possibility of cramp on long trips.

**CYCLECAR IS IN DEMAND**

"Never in my experience in a vast stack of mail in front of the automobile world as an automobile designer and builder have I witnessed a demand so quickly formed for any class of automobile as has been developed within a few months for the cycle cars of these modern days," said J. P. LaVigne of the LaVigne Cyclecar company of Detroit, as he viewed

starters. By pushing the pedal down the motor is started, with both wheels on the ground. This makes starting easy and convenient and eliminates the old disadvantage of having to place the machine on a stand before starting. Large aluminum footboards, give the rider ease of position and preclude any possibility of cramp on long trips.

"Every foreign country is after our cyclecars, and other manufacturers in this field report a like demand," continued the veteran, who made his first car in 1898 at New Haven, and who in 1902 made an automobile that embodied ten features that were not adopted for many years on the cars of the day.
