Over 300 members of the league have pledged themselves to quaff only buttermilk, to the exclusion of every other beverage. It is suspected that a couple of prominent dairymen are behind the movement.

**SAUERKRAUT AND BEANS.**

By Oh, Henry!

It was a beautiful day. I might describe it at length and so much a word, but what is the use?

In a secluded corner of the beach we find Maggie and her admirer, stalwart Fritz Casey. He has one grimy arm around an artificially-narrowed waist, and their faces were close.

"Here, Fritzie dear," remarked the practical Maggie, "we got to tie a can on this mushy stuff, before someone lumps us."

Casey, for answer, gave her a squeeze that almost broke a dozen steel corset-ribs.

"Maggie," quoth he, "I need a skirt to pare the Murphys and stew the tripe. You are it. Do we march to the halter?"

A pregnant silence ensued.

(To be continued.)

## LODGE BACKS UP WILSON PROGRAM

WASHINGTON, D. C., April 9.—Comparing the outbursts of those opposing the surrender of canal rights to Ajax defying the lightning that did not exist, Senator Lodge today advocated the passage by the senate of the resolution for the repeal of the tolls exemption clause in the canal bill. Lodge said he could not deal with the treaty questions in a partisan or a political spirit, and told of supporting Cleveland and of opposing a number of republican presidents on treaty questions. "But Cleveland's policy in regard to the Venezuela treaty," said Lodge, "involved serious issues and grave possibilities. It was not a mere declamation against another country but a policy of importing danger intended only to raise the temper around our polling booths."

## FAWCETT VOTE STRENGTHENED

Both A. V. Fawcett and Rev. C. W. F. Stoever, the candidates for mayor in the finals April 21, express complete confidence in the outcome. Stoever insists he will get the Greer, Bone, Burdick votes, which of course would elect him. Fawcett, however, Stoever will not get anything of the kind. As a matter of fact alignments are already being made by the voters who went for Greer, Bone and Burdick Tuesday. And as far as can be seen they are for Fawcett by a large majority. The Burdick vote was largely a church vote and prohibition vote. It was generally from those who had signed cards of the New Movement league which pledged the member to stand for a clean government.

As J. O. McCauley stated before the referendum was taken declaring for Burdick, "We are for clean government and want Burdick but will be for anybody to beat Stoever, who is the representative of the saloons." In view of the fact that the saloon vote went down the line to a man for Stoever Tuesday he will never be able to get the Burdick vote.

The same is largely true of the Bone vote. This 2,423 was made up of "yes-no" socialists, who by the way, are generally for prohibition and are out and out against the vice and saloon elements, and the club women and church workers of the city, including the W. C. T. U., the leaders of which were strong Bone supporters.

The strength Bone got from the laboring classes was taken bodily from the old Fawcett vote and it will naturally gravitate back to him now that Bone is out of the going. A conservative estimate would give Fawcett at least 2,000 of the 2,423 votes for Bone and the other 423 would probably stay at home and not vote at all.

The Greer vote was made up largely of old friends and real estate associates and there is no reason to expect this vote to go to either candidate because of natural alignment. It will be a fight between the two to see who will get the 1,513.

The 152 Langford votes are all Fawcett. Probably Heinrich's vote of the same number would go

## 18-YEAR TERM FOR LEADING JEKYLL - HYDE EXISTENCE

DOUBLE PERSONALITY OF PROMINENT BUSINESS MAN LEADS TO LONG TERM IN PRISON.

NEW YORK, April 9.—Edward Mendel, a prominent business man of Newark, N. J., was sentenced today to 18 years in Sing Sing prison. Evidence showed that he had lived a Dr. Jekyll and Mr. Hyde existence for years. Mendel's wife and two children were in the court. She collapsed when the sentence was pronounced.

Mendel had been convicted on a charge of assault preferred by Mrs. Paulina Koetzle. They met several months ago, she said, at a banquet in the Woolworth cafe. "After several drinks," said Mrs. Koetzle, "Mr. Mendel led me to the railroad yards and attempted to assault me. He was unsuccessful but took my rings and earrings and escaped."

District Attorney Whitman told the court that 10 women had identified Mendel as the man who had robbed them in a similar manner. Mrs. Mendel declared that Mendel was a model husband and a regular church-goer.

## WIRELESS DIVORCE; HEIRESS IS WED

SAN FRANCISCO, April 9.—Mrs. Marie K. King, a beautiful Hawaiian heiress, now in Honolulu, is the first woman who ever obtained a decree of divorce by wireless. She got it yesterday in order that in the capital city of Hawaii she may be married to another man.

Mrs. King was the wife of S. G. O. King, a well known figure in San Francisco financial circles. Mrs. King is rich in her own name.

Mr. and Mrs. King were separated in 1909, and Mrs. King sued for divorce, charging desertion. The interlocutory decree was granted April 1, 1913, and Mrs. King returned to her island home.

In Honolulu, she met a wealthy man, whose name is withheld by her attorneys. They decided to be married, but at the last minute Mrs. King remembered that the final decree of divorce from King had never been granted. She sent wireless messages to her attorneys, McManahan & Derby, and as a result Judge Donahue of Oakland today signed the final decree.

## GIRLS! MARRY AT 44, CAVALIERI ADVISES

NEW YORK, April 9.—Lina Cavalieri and her new husband, Monsieur Muratore, sailed for Paris today on the steamship La France. The famous singer and beauty was in a melancholy mood when approached by interviewers.

Her utterances were pessimistic, particularly those pertaining to marriage. She said: "Married life is not so good. Girls ought to wait until they are 44 before they marry. Then they should have one child. I have had more than 800 proposals of marriage. I think that international marriages are very good."

"My advice to girls is to marry for love, if you can, but never fall to have an eye for convenience. Sweet words and kisses won't pay the chauffeur."

## QUARREL ENDS WITH MURDER

CHICAGO, April 9.—A quarrel over woman suffrage is believed by the police to have been responsible for the murder of a man subsequently identified by his father as Isaac Henagow, a cigarmaker who posed as a rich westerner, and was generally known as "Woodsey."

Detectives are looking for James Franchise in connection with the murder. The killing occurred either in or in front of Roy Jones' Wabash avenue under-world cafe. According to waiters, Henagow, Franchise and a woman entered the cafe and began disputing over woman suffrage. Finally they left, still wrangling. A moment later the woman rushed back crying, "Woodsey is dying." He was shot through the heart.

# DEVELOPMENT PLAN OFFERED BY P. H. HEBB

## HEBB'S LETTER TO COUNCIL

April 8, 1914.

Gentlemen: Now that the port district scheme is a thing to be forgotten, the question of harbor development is up to the municipality. I am convinced that the people of Tacoma will back any legitimate development necessary at this or any future time. I suggest to your honorable body as a starter that the city of Tacoma make a proposition to build for the United States government one or more docks, such as would meet the requirements of the war, navy and commerce departments.

The city owns fourteen acres west of the Puyallup. A site more ideal cannot be imagined and cannot be equaled as a shipping depot for packages or rapid transit business, including quartermaster supplies for Puget Sound forts, the transshipment of armament to Pacific coast points, and the handling of machinery and other equipment for the Alaska railroad. Provision should be made for huge cable tanks, and for a large and up-to-date detention station. The docks would be within walking distance of the business center, and easily reached by all of the railroads. A lease should be offered for a long term, and the rental figured at 4 per cent of the cost of construction; if necessary, without figuring the value of the site.

The government has not yet selected a site for a dock on Puget Sound. If the proper effort is put forth Tacoma can secure this business. At present we have the cable tanks at the municipal dock. Let us keep what we have, and go after more without delay.

It would be advisable to send an agent to Washington, loaded with facts, and with authority to close a deal if possible. If not, the world will know that Tacoma is not asleep.

I would suggest further that your honorable body work out the scheme for a fishermen's dock at Old Town; and for a lumber and general cargo dock on a part of the site heretofore mentioned.

Respectfully submitted,

P. H. HEBB.

The first gun in the "get together" program for development of the harbor requirements by the city was fired in the city council this morning when P. H. Hebb sent a letter to the commission urging the city to communicate with the U. S. government offering the 14 acres of state harbor area at the mouth of the Puyallup river for ocean docks, and government wharves with a big detention station to be leased in its entirety to Uncle Sam for government purposes at a low rental.

The commission placed the letter on file and agreed to take it up in a few days. The mayor said he had a man in Portland who would come and show how the property could also be used advantageously for lumber handling.

A day will be set and the matter will be taken up at an early time.

The movement for a municipal cold storage plant also is being renewed and the Bay Island producers' union will have a consultation with the city this week with a view to the erecting of a cold storage plant under the 11th street High bridge.

## Scripps is Out Of Danger Now

PASADENA, Cal., April 9.—William A. Scripps, veteran newspaper man, who is seriously ill at his Alameda home, passed a comfortable night. Early today he was believed to be in no immediate danger. It is stated that as far as the acute attack of pneumonia is concerned the crisis has safely passed. On account of prolonged ill health preceding the attack of pneumonia, Scripps' complete recovery is gravely doubted.

NEW YORK, April 9.—Attorney Joseph Shay, representing former Police Lieutenant Becker, who was recently granted a retrial following his conviction on the charge of murdering Herman Rosenthal, announced today that he was prepared to file an order before the state supreme court asking District Attorney Whitman to show cause why a commission should not be appointed to take a deposition from the four New York gunmen sentenced to die April 13 for Rosenthal's murder. If any justice of the court received such an order it is believed the execution of the four men would be delayed.

## \$25 A WEEK GIRLS HOPE OF NATION

NEW YORK, April 9.—"The class of girls in our city that means more to us than any other class because they are the future mothers, the girls with imagination, ideals, impulse and a need for recreation, rest, amusement—are the wage earning girls who get from \$15 to \$25 a week. The very poor—the \$6 and \$8 a week girls—either work into the \$15 to \$25 class later, else there are many philanthropies and societies who aid them. The girl I am speaking of, with her independence of mind and economics, has been neglected as a social factor. She needs all the sympathy and genuine encouragement that we can give her."

The foregoing is the way Miss Anne Morgan talks. This afternoon in the beautiful library of her home in Madison avenue the daughter of the late J. Pierpont Morgan talked of what has led her into the vacation committee work and what plans she has to give it wider scope and interest.
