JOB HUNTERS STILL WONDER

What's going to happen! This is the question in the mind of every employe at the city hall and a lot outside. They are approaching May 3 with anxiety. All sorts of rumors are floating around as to who is to be let out by the new administration and who is to be retained. In the meantime Atkins, Drake and Fawcett are saying little. Woods apparently is eager to do something to get in the good graces of the new officials, hoping to stave off recall. Mills may be expected to follow suit. Atkins says he has perfectly good reasons for insisting on Mills removing McAlevy. Just what they are he will not say. Apart from this he says he is not making any statement as to what he will do or not do. Atkins and Drake had a conference Monday afternoon. This morning Fawcett and Drake met and talked things over somewhat. They say there is nothing to announce as yet, no decision apparently having been reached. Fawcett insists he wants to eliminate all dead timber at the city hall and he thinks there is considerable. The city attorney question has not been settled. It is likely the salaries will be adjusted back to what they were before Stiles got the increase from \$200 to \$400 a month last year, however. Fawcett has not yet picked anyone for the place of Dr. Calkins, where they have been hiring outside horse doctors.

REFERENDUM MAY BE LAUNCHED

Stationary engineers have employed an attorney and a movement is on foot to get a referendum to try to defeat the franchise granted last week by the council to the Tacoma Central steam heating plant. The plan would throw several engineers out of their jobs. It would cost about \$2,500 to hold an election.

THE REAL SECRET OF REJUVENATING THE FACE

She holds the true secret of facial rejuvenation who has learned how to remove the dead skin particles as fast as they appear. It's a secret anyone may possess. The aged, faded or discolored surface skin may be gradually absorbed, in an entirely safe and rational manner, by the nightly application of ordinary mercurized wax. Within a week or two the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day there's no inconvenience at all, and no one suspects you are putting anything on your face.
