Our Thanks to the Almighty

(In a letter to the editor of The Times the other day, "Constant Reader" said: "Editor—There's going to be a new program for my family this Thanksgiving day. First thing, I'm going to thank God, in my heart if not on my knees, for all I've had during the year and for what I've still got. When I see homes burning, human corpses rotting, wives and children wandering, hungry and homeless, all over that beautiful foreign world, while I have my wife and babies in my arms, safe and cared for, my heart goes out to God. And so, on Thanksgiving morning, my children are going to hear their father talk some about the goodness of the Almighty, who has protected them from war, famine and pestilence, while millions of their fellow beings were suffering." The editor offers "Constant Reader" and all constant readers of this newspaper the following psalm to read as an appropriate hymn of thankfulness to the Almighty on this 1914 Thanksgiving morn.) He that dwelleth in the secret place of the Most High shall abide under the shadow of the Almighty. I will say of the Lord, He is my refuge, and my fortress; my God; in Him will I trust. Surely he shall deliver thee from the snare of the fowler, and from the noisome pestilence. He shall cover thee with His feathers, and under His wings shalt thou trust: His truth shall be thy shield and buckler. Thou shalt not be afraid for the terror by night, nor the arrow that flieth by day. Nor for the pestilence that walketh in dark-

ness, nor for the destruction that wasteth at noonday. A thousand shall fall at thy side, and ten thousand at thy right hand; but it shall not come nigh thee. Because thou hast made the Lord, which is my refuge, even the Most High, thy habitation. There shall no evil befall thee, neither shall any plague come nigh thy dwelling. For He shall give his angels charge over thee, to keep thee in all thy ways. They shall bear thee up in their hands, lest thou dash thy foot against a stone. Thou shalt tread upon the lion and adder; the young lion and the dragon shalt thou trample under feet. "Because he has set his love upon me, therefore will I deliver him: I will set him on high, because he hath known my name. "He shall call upon me, and I will answer him: I will be with him in trouble; I will deliver him, and honour him. "With long life will I satisfy him, and show him my salvation."

SCENES AT TENINO OIL WELL

Crescent Well May Show Pay Oil Is Belief

TENINO, Nov. 26.—The work of placing the Crescent oil well in shape for actual operation is progressing under the direction of Drillers McGowan and Horns. Experts declare that when the oil sand covering the hidden depths below is fully pierced or shattered by a nitro shot that the well will develop into a paying producer. Casing will be sunk as soon as the cave-in, now clogging part of the hole, is cleaned out.

Langford Leads In the Betting

LOS ANGELES, Nov. 26.—Indications today were that the Vernon arena would be jammed this afternoon when Sam Langford and Harry Wills meet in their 20-round battle. GERMANS CLAIM TO HAVE TAKEN JAP GARRISON AT KIAO CHAU

BERLIN, Nov. 26.—Official reports from Constantinople today blame the unfavorable weather for the delay of the Turks in beginning operations against the advance of the Russian troops along the Trans-Caucasian frontier. "The Slavs," read the message, "continue to hold their frontier positions, but our forces advance in the Tsohorok district have been victorious." The German war office announced that in the fighting between the Germans and the Japanese at Kiao Chau, 170 Germans were killed, 600 wounded and that 4250 Japanese, including wounded, and representing the entire surviving portion of the garrison, had been finally captured.

ZAPATA ENTERS MEXICO CITY

WASHINGTON, Nov. 26.—Official telegrams from Mexico City received here last night declare that the forces of Gen. Zapata have entered the capital. The Zapatistas gained the city after a brief but sharp clash on the outskirts and as the victorious troops rushed into the town the forces of Gen. Blanco were evacuating. OIL TALKS

The writer of these ads is mighty happy tonight. The many friends who have helped pull Crescent through have stood loyally by. Oil has been proven to exist in quantity, and that is what they put in their money for. Brokers have been receiving buying orders from far and wide for the old Crescent so that any old stockholders who wish can get their money back and receive a handsome profit. It is a pleasure to make good for your friends.

The few knockers grow fewer every day. Already two more wells have been financed and the future for Oil grows brighter. The work of putting the casing in Old Crescent is being rushed, and by the middle of next week it may be possible to tell the production of the well.

The Crescent Drillers Oil company, remember, is not the Crescent, but the men who made the Crescent go are making the Crescent Drillers go. They have secured very fine leases. Have arranged for building the rig. As soon as the rig is completed the machinery will be installed and their well will be started at once.

It may be entertaining to listen to, and read the lies of the knockers and their sheet, but remember you have to buy stock to be in. Those who bought Crescent at the bottom price are the best boosters now. They are buying Crescent Drillers and have a much better chance to win with the Drillers than they had with the Crescent for now we KNOW that there is OIL.

Don't put a dollar in any oil stock unless you do so on the basis of risking a little to gain much. The Crescent found oil a quarter of a mile from our well site and we have much confidence as we start this work. We look for those who buy our stock to make large profits, for we are developers in the true sense of the word and will spend the money trusted to our care for development only.

Those knocking the Olympia-Tenino field are either doing so through ignorance or cussedness, which is probably being paid for by some of the wealthy old oil distributing companies, which would count it poor business to let a group of citizens bring in an oil field of their own and thus grab a very rich, profitable market.

Just think for a moment what it would mean from a business basis to bring in a big oil field touching tidewater on Puget Sound. All the Tacoma papers have recognized its vast worth, so have the evening publications of Seattle. The other paper is published in the dark small hours of the morning and gets its instructions from the head offices of the most notorious oil company on earth and is doing just what should be expected of it.

We don't have as much money as the Standard Oil Co. and do not own newspapers, prosecuting attorneys nor many of the other conveniences to carry on a campaign for or against the public good.

But Mr. Speculator, the Crescent Drillers Oil Co. does have over 2,000 acres for very probable oil land. We have resolved to do everything possible to prove that land. Those who buy our stock will be given an absolutely square deal, and their money will be used for actual drilling by men who know now. No salaries will be paid nor will money be wasted.

Now don't let a paid hireling of the common enemy of the public blind your eyes to your true interest. Don't buy this stock as a sure thing, but do buy it as a fair, square investment where you risk a little to gain much.
