Tacoma: Showers tonight and Wednesday.
State: Showers in the west; fair in the east tonight; Wednesday, showers.

WM. III'S LATEST--KAISER AT POLISH BATTLE FRONT

The emperor at the council table of Hindenburg's army, examining the maps of the battle front. An officer is placing a cigaret in his lips.

Emperor William (left) sizing up a Russian prisoner. The Kaiser is wearing an aviator's jersey cap under his helmet. He is always much interested in the common soldiers of the enemy.

Kaiser tasting the common soldiers' soup. This pleases the soldiers immensely. The emperor goes healed—notice his big revolver holster.

WITCH IN N. Y.

BY K. W. PAYNE.
NEW YORK, April 6.—A witch!

In the twentieth century, in the metropolis of America, in New York, they have captured one!

More weird than the wildest fairy tale, more strange than the annals of Salem witchcraft, is the story of her career—the history of the mysterious woman who has just been exiled for life to a lonely hut on a dreary little island far up the East river!

This twentieth century witch does not weave black incantations and scatter awful curses over the community.

No! She scatters GERMS—typhoid germs!

Her Own Calderon.
The twentieth century witch—"Typhoid Mary" Mallon—is up-to-date with a vengeance! Legendary witches of old used to build red fires under ugly cauldrons and brew deadly potions.

But poor "Typhoid Mary" Mallon—all unwillingly however—uses far more scientific and more fateful magic. She requires no cauldron—she manufactures WITHIN HERSELF the evil potions which she spreads about the

How About It?

It is proposed to abolish the Tacoma mid-summer carnival in the Stadium this year and supplant it with two evening concerts by vocalists and grouped orchestras.

Do the people of Tacoma want their carnival abolished? Do the citizens want this musical festival to be the only big event of the whole year in the Stadium?

The Times will gladly print letters on this subject. What are your views? Write them to the editor of The Times.

It's something in which all of Tacoma and the Northwest is interested.

community. She is constantly producing millions of virulent typhoid fever germs!

Taken to Isolated Hut.
Five years ago she was isolated by the New York health authorities. She was released on a promise to remain constantly under surveillance, but she broke away, and caused several new epidemics in the space of 10 years!

Though perfectly well herself, "Typhoid Mary" had produced up to that time at least 26 serious cases of typhoid fever, several of which were fatal.

outbreaks of typhoid before she was again captured.

NOW the health department has decided to take drastic measures. "Typhoid Mary" has been secretly conveyed to a brick hut on North Brother island, a bleak piece of land way up the East river far above Hell Gate.

"It probably means exile for life," says Commissioner Goldwater, head of the health department.

In the fall of 1906 a mysterious outbreak of typhoid had occurred in the summer cottage rented by a New York banker on Long Island. Six persons in his family were taken with the disease.

After a dozen experts had failed to account for the epidemic they called Dr. George A. Soper, famous sanitary engineer, who had had charge of cleaning up Galveston after the flood, when, in his own words, "8,000 bodies lay festering in the sun."

Isolated Once Before.
It took four months of hard detective work before Dr. Soper discovered the source of the epidemic—which was "Typhoid Mary" Mallon!

STAGE CALLS

HAVANA, April 6.—Jess Willard, the new crowned champion prize fighter of the world, will leave Havana tomorrow to begin reaping his golden harvest.

He intimated today that the ring would not see him except in exhibitions for at least a year. He has been deluged with theatrical offers, and will probably play first a week's vaudeville engagement at Jacksonville, Fla., then go to New Orleans for a week, thence to New York for a long engagement.

Johnson planned to leave today for Martinique, where he expects to make his home.

Johnson Game.
Willard is absolutely unhurt, and showed today only a few scratches.

Johnson is sore both in mind and body. He gives evidence of being wracked by pain from his punning at Willard's hands.

However, he accepts defeat in a sportsmanlike manner.

"No other heavyweight," he declares, "could have stood off Willard for 26 rounds.

"I gave Jeffries credit for gamely taking his beating; now all I ask is that the same credit be given me."

The temperamental Cubans have gone into raptures over Willard. He was the center of an admiring throng all day.

Boys and Girls, Make Tacoma a Mass of Bloom

Tacoma a mass of bloom! That is the picture which every one of us would like to have the city present all the time. And especially this summer, when we expect an unusual number of tourists.

And unlike many of our rosy dreams, it is a picture which will be comparatively easy to realize even yet. All that is needed to make it an actual fact is a little concerted effort. In fact, a little concerted effort on the part of Tacoma's school children alone will do it.

Here is the idea, proposed by M. G. Mitchell, secretary of the Mitchell Nursery Co.:

"There are some 15,000 school children in Tacoma, and if every child would plant out a few packages of such easily grown annual flowers as bachelor buttons, Shirley and California poppies, snapdragons, petunias, satin flowers, sweet alyssum, marigolds, larkspurs, salpiglossis, zinnias; etc., Tacoma would present a mass of bloom this summer which would have an appreciable effect on the general appearance of the city.

"There are probably not many children in Tacoma who cannot afford to buy a few packages of seed for spring planting, but in order that every child may have the pleasure of doing his or her share towards the beautifying of Tacoma, we are handing you herewith 500 packages of the above named seeds for distribution in such manner as you deem best."

We think the idea splendid, and we wish to thank Mr. Mitchell very much for the seeds.

We have handed them over to the very good looking young woman at The Times want ad counter, and she will pass them out, as long as the supply lasts, to the children who apply.

So, boys and girls of Tacoma, the making of the city a mass of bloom is up to you. Those of you who can afford it should buy some flower seeds at once, plant them, cultivate the seedlings and water the young plants. Make Tacoma a flower garden.

Those of you who cannot afford to spend the money, come right down to The Times office, get your seeds and do likewise.

Also, the Rotary club is distributing climbing and creeping vines free of charge from the Smith Floral Co.'s shop, 1116 Broadway.

Think what a picture your work will help create!

MAYOR DID IT!

Mayor Fawcett, it leaked out today, was the direct cause of the resignation Saturday afternoon of Miss Susie Benjamin, matron at the central police station.

An investigation by the mayor into reports that Miss Benjamin was conducting herself in an alleged unseemly manner had just begun when the matron resigned.

Miss Benjamin would have been discharged summarily by Commissioner Mills Saturday afternoon, it was also learned today, had she not anticipated the commissioner's action and sent him her resignation when he requested an interview.

Complaints have been made to Commissioner Mills and Chief Loomis repeatedly about the matron, it was reported today.

"Mills came to me and begged me not to start an inquiry, saying that he would discharge the woman at once," said the mayor.

Mayor Fawcett said today that he was starting an investigation into the conduct of a matron at the Jefferson junction comfort station, and that the woman's resignation would probably be asked.

Mrs. Ada S. Todd, 920 9th street, took up her duties as matron today, succeeding Miss Benjamin.

Comes Back at Deacon

"The church is only for the rich. No matter what a man's ability, his earnestness in the Christian faith, or the manner of his private life, only his money-bags are weighed."

In this emphatic fashion, C. C. Page today came back at Deacon Toser of the First Baptist church, who said that Page and his friends, who are endeavoring to overturn the action of the board of deacons in dismissing Dr. Sutton, were a "lot of ciphers who were better outside the church than in it," and added that they had never contributed to the church, "financially or otherwise."

Says He Gave Tenth.
"I have done better in proportion to my means than has Toser," declared Page today. "I have given a tenth of my income, according to the words of the prophet Malachi. If Deacon Toser and his kind had done that, there would be no poor in Tacoma. Yet I expect to leave Thursday's meeting with can to my tail—and plenty of turpentine."

When Deacon Cavender was told of this today, he opined that Page was a trifle "light."

Cavender was in favor of dismissing Dr. Sutton, and was the deacon who painted Sutton's name from the church bulletin.

Cavender thought the outcome of the affair would be that Page

(Continued on Page Seven.)

'T WAS SOME GANG

INDIANAPOLIS, April 6.—Mayor Don Roberts of Terre Haute and 26 other defendants, tried on charges of perpetrating gross election frauds in Vigo county, were found guilty today by the jury.

Federal Judge Anderson will sentence the 27 convicted and 69 others who pleaded guilty April 12.

The testimony in the case ran the entire gamut of crooked, dirty politics.

Election officials were openly bribed. Plug-uglies were imported to browbeat honest voters. The count was juggled. The books were forged and falsified, and all manner of other graft and corruption ran rampant.

The conviction of Roberts and his associates culminates a long fight against gang politics in Terre Haute. The men were charged with conspiracy to corrupt the election last November, and the fact candidates for senator and congress were voted for made possible the return of federal indictments.
