

PRINCIPALS IN THE FAMOUS GEORGIA CASE

Leo M. Frank, center; in the upper left hand picture, Little Mary Phagan, for whose murder Frank was convicted; below, Sheriff C. Wheeler Mangum. In the upper right hand corner, Mrs. Leo M. Frank, whose long fight saved her husband from death, and below her, Gov. John M. Slaton of Georgia, who commuted Frank's sentence.

AUTOS GO CLEAR UP INTO PARK

Along sheer cliffs where the least accident or mistake would mean a fall of hundreds of feet, 29 parties of autoists made the first trip from Narada falls in the national park to the Camp of the Clouds, just at the edge of the snow on Mt. Tacoma.

With several switch-backs, the new road is practicable for all makes of motor vehicles. It winds completely around beautiful Paradise valley. The view of the mountain was ideal.

Among the visitors yesterday were Pierce County Commissioner J. W. Slayden and W. H. Reed, with three newspaper men. They found the roads to the park in excellent condition.

Inside the park, \$30,000 will be spent this summer improving present roads.

COMSTOCK LOSES 40-YEAR-OLD JOB

After more than 40 years in a place that he made for himself, Anthony Comstock, censor of art and literature, will, on June 30 cease to be a United States post-office inspector.

LOOKS DARK FOR RUSSIA

LONDON, June 21.—With the allies all but ready to abandon their attack on the Dardanelles, and the Austro-Germans steadily advancing in their Gallician campaign, the situation looks darker for Russia than at any time in the war.

Short of ammunition, they are falling in their defense of Lemberg, their last great stand in Galicia. If the Dardanelles could be opened or the allies break through the western line, the Russians would be relieved. But apparently neither of these events is likely to happen.

From Petrograd come dispatches that anti-German mobs in that city destroyed \$20,000,000 of property. Only a small proportion of it belonged to Austro-Germans. The mobs were excited by liquor, which they obtained in a wrecked wine store.

DON'T NEED SLEEP

SAN FRANCISCO, June 21.—Dr. Wilse Robinson, Kansas City, told the American Medical association that sleep is not necessary to health, and that several great men maintained full strength and energy with little of it.

He hadn't anything good to say about the so-called "night-life," however.

WILKESON MURDER CLUES ARE BARREN

With scarcely a clue to work on, Deputy Sheriff Hamilton of Wilkeson today went into every possible angle of the murder of John O. Rainey, miner, who was shot dead in his home Saturday night, with robbery supposedly the motive.

The bullet entered his head just above the left ear and bored straight through, so that it came out above his right ear. It was from a high-powered rifle. Rainey was shaving when killed.

His body, with lather still on his face, was found by Mrs. James, who keeps a boarding

house. She had called on him over a business matter. His pockets were turned inside out, \$20 was gone, and the contents of a trunk in his room were disturbed as if a search had been made for valuables.

In an examination of the premises today, officers found a hole in the canvas which serves as one side of his cabin. They believe the rifle was leveled through this.

Because a crowd gathered around the house after the accident, the footprints which the murderer might have left have been blotted out.

had burned with such rapidity as to cause the belief that they had been soaked with kerosene. Formerly she was prima donna in a "Merry Widow" company.

FAKE DOCTORS GIVEN KNOCKOUT BLOW BY ATTORNEY

Federal District Attorney Green who gave the fake mail order business in Houston, Tex., a knockout blow when he prosecuted six doctors and their three stenographers, charged with a scheme to defraud through the mails.

FORMER STAR OPERA SINGER IS MURDERED

JOLIET, June 21.—Mrs. Edmund M. Allen, young wife of the state penitentiary warden, was found murdered and burned in her bed.

A wound which had been dealt with some dull instrument was found on her temple, and all her night clothes and the bed clothes

DISCOVER GHASTLY MURDER

The body of Wilbur M. Cleveland, Kitsap county rancher, was found in the charred ruins of his home yesterday. He had been murdered. The murderer had stuffed the corpse into a little root cellar under the floor of the ranch house, piled wood about it, locked the doors and fired the place.

Death was apparently caused by a blow on the head, as Cleveland's skull is fractured.

The third time in three years a deed of violence has been done in the lonely forest community nine miles south of Port Orchard. The Cleveland case is the second in which a ranch house has been burned. Terrified residents of the district have some ground for their fears that a mysterious slayer is preying upon the scattered home.

June Cleveland, the 21-year-old daughter of the rancher, led Sheriff Shattuck of Kitsap county, and a party of searchers to the bones of her father yesterday. Sheriff Shattuck, traveling through the community, came upon the Cleveland house, a heap of charred sticks and ash last week. The place had apparently been destroyed ten days before.

ANGELES QUITTING?

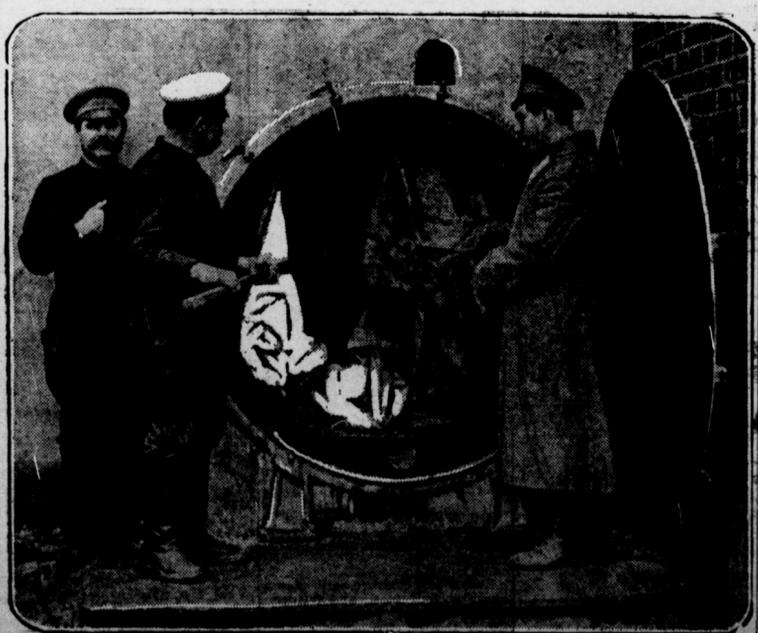

WASHINGTON, D. C., June 21.—While the Carranza sprayers of Mexicans here claim that the trip to the United States of General Felipe Angeles, Villa's chief aid, is a practical desertion by him of a lost cause, the Villistas say it is simply to visit his family and to seek aid from a number of exiled Mexicans.

These men, say the Villistas, are actively engaged in backing a movement, with Villa its head, to obtain the active "moral support" which President Wilson has promised to the man likeliest to be able to restore order in the southern republic.

This Did Not Happen in EUROPE But Right Here in TACOMA

P. H. Hebb, Pres. Kar-Ru Chemical Co. Dear Mr. Hebb: I write these few lines to express my gratitude and thankfulness for the great relief your wonderful medicine has accomplished in my case. I informed you at the start of treatment that I was a terrible sufferer from rheumatism for 19 years, five or six years of that time bed-ridden. I have consulted doctors and leading specialists and tried every method suggested to me, including electric treatments, plaster casts on limbs, baste, electric baths and blankets and medicine by the pound. I have been to all the leading springs in Cal., Wash. and B. C. with the same results, improvement for a time, then back to bed. My trouble has cost me thousands of dollars. After the first box of Kar-Ru I had immense relief, and at the expiration of the fifth box can truthfully say that I am not only cured of rheumatism, but of indigestion, piles, bladder trouble and several other ills incidental to rheumatism. I write this simply out of gratitude to you and Kar-Ru and you may use it any way you see fit. There are at least one thousand people in Tacoma who knew of my condition, as I have been a resident of this city since '86, some of whom I meet every day and they never fail to stop me and remark on my improvement. Wishing you every success, I remain, sincerely and gratefully yours, JAMES TILTON, Victoria Hotel, Tacoma, Wash. For Sale by All Druggists

GERMANS MAKE PRISONERS DISINFECT THEIR CLOTHES

Guarding against plague, Germans making prisoners disinfect their clothing in ovens built especially for that purpose.
