

# BENEFIT SMOKER TO ASSIST THE TIGERS PAUL STEELE'S IDEA

An idea: Paul Steele, busy, pleasant manager of the Tacoma School of Boxing, wants to help out the Tigers team.

Paul read about the financial difficulties of the Tigers, and came forth today with the suggestion that a benefit smoker be given in Tacoma during the Fourth of July holidays.

"It's just a suggestion," said Steele, "but if the fellows want the smoker, I will gladly volunteer all my services and time to it, and the School of Boxing will do all it can.

"I'd want the books open to the public, to show that every cent from the smoker went to the Tacoma club, and I'd want it understood that I was assisting

the smoker purely from a standpoint of good sportsmanship and with no idea of personal gain."

Steele put his proposition up to Manager Russ Hall of the Tigers, and Hall was enthusiastic. He is willing to donate Glide rink for the night of the smoker. Since the affair would be a benefit, there is no doubt that official sanction could be obtained.

All the Tacoma fans know Steele to be a clean, businesslike little fellow who is always ready to help out some one else.

If a good card was made up, with good boxers on it, there is no doubt that an enormous holiday crowd would turn out.

What do you think about the idea, fans?

"Father's day" is to be honored by the Tacoma ball club. Tomorrow will be "Father's day," and an unusual custom will be inaugurated at Athletic park.

In honor of the day, all children who buy a grandstand seat, can take their parents in free. The children's admission to grandstand is half price.

"We expect to have a great crowd Saturday," said Secretary Frank Redpath. "Father's day has been honored in other ball fields before, but it's the first time we have tried it here."

A heavy shower began at 2:30 yesterday and continued until 3:30, raining just enough to cause a postponement of the game.

There were 500 girls and boys in the grandstand, admitted free because of "Father's day," and great was their disappointment at the rain. "Kids' day" was set over until today, and this afternoon was a double free day, both children and women being allowed in the grandstand without charge.

# Coach Robinson's Last Lesson; Some 'Don'ts' for Swimmers

BY TOM ROBINSON.

Swimming is a pleasure. It is sometimes a necessity. Every child should learn to swim between 6 and 14 years of age. That is the best time.

Every person should be able to swim, not alone for the joy that is to be gained from it and the splendid exercise which it affords but in order to save one from drowning. Parents who neglect having their children taught to swim are almost criminally negligent.

There are some "don't" connected with the swimming game and it might be as well to state them now following my explanation of the simpler strokes.

Whether you are able to swim or not, there is always an element of danger in going into the water, and these precautions should be observed, by both the trained swimmer and the beginner.

Don't enter the water when you are too warm.

Don't dive into the water unless you know that it is free from obstruction and you are familiar with the depth.

Don't swim too soon after eating. It is well to wait an hour after a meal before going into the water.

Don't jump into the water feet first unless you have cooled your head before. This often occasions cramps and faintness, if the heart is weak.

Don't push another person under the water when far away from shore. He may not expect the ducking, get a mouthful of water, and strangle.

Don't take a person out in a boat or canoe unless he can swim.

Don't let your children go bathing in the lake unless they are accompanied by a good swimmer.

Don't let children under 12 years of age go bathing more than three times a week, and never let them stay in the water over an hour.

# WATER CLASSIC IS ON TODAY

NEW LONDON, Conn., June 25.—The sons of Eli and John Harvard renew their classic racing duel today on the Thames river. After weeks of preparation and months of training the crews of Yale and Harvard are ready for the heart-breaking, quelling water race.

Past performances of the two crews this season indicate that they rate among the best that ever represented the two institutions. Both are admittedly superior to the crews that rowed almost a dead heat last spring.

The Blue is favored slightly. This is due to the shape its crew was in at the finish of its victory over the Cornell eight a few weeks ago. Both Harvard and Yale defeated the Ithacans. Eli's athletes, when they shot by the finish line, were breathing easy and appeared as fresh as when they started. Harvard's crew was badly spent, however, and were forced to the limit to down Cornell.
