Featuring everything that will add to the comfort and enrichment of the home with many valuable savings.
"Dress Up, It Won't Rain," is the national slogan of returning prosperity and public confidence. It can be applied to every relation of life, mental, physical, domestic and commercial, but like charity should begin at home.

Mental irresponsibilities will be the keynote of his address, it is stated.

TEETH

Volumes have been written about the effect of bad teeth on the health, but only a word pointing out the natural progression—poor teeth, offensive breath and indigestion—malnutrition, early old age, and many years cut from life itself. Remember, one bad tooth decays another.

It is a crime against yourself to have poor or unsightly teeth in this day of Painless Methods, Permanent Work and Moderate Cost.
We are always willing to make an examination of your teeth and gums free. If they are in good condition we tell you so and it will cost you nothing. If they require attention we tell you honestly just what is required and tell you exactly what it will cost. Then you can use your own judgment as to whether or not you will have your work done.

\$5 PLATES \$15
We make plates from \$5 up, so you can get what you can afford. We recommend the Electro-Wholesome Plates, \$5 to \$15; also the Imported French Maroon Rubber Plates, \$5 to \$10.

These plates are the best, not only in material, but in workmanship. If you wish we will be glad to show you a sample of each and advise you, for which we make no charge.
We do all kinds of dental work and do it just a little better and for a little less than any other office hereabouts.
We guarantee all our work 10 years, giving you a written guarantee that is binding and is backed up by our 14 years of continuous practice in the same location. We are here to stay. It is well to remember that the Electro Dental Parlors never promise anything that they can't make good.
