## SCHOOL NOTES

### MT. TACOMA, STADIUM, PT. DEFIANCE,---WHAT WERE YOUR WONDERS?

Tacoma's Seven Wonders will be announced tomorrow with the winners of the prizes. The contest closed yesterday at noon and the judges are busy today going over the mass of letters which came in at the last minute.  
 It is fairly certain that Mr. Tacoma, the Stadium and Pt. Defiance park will run in the order named. The smelter, 11th St. Bridge and several others are running close for the remaining honors.  
 The above "hunch" will allow the contestants a little speculation between now and the time the winners are announced. Unless your selections follow the order of the three first named wonders, it is probable that you have been automatically eliminated. What did you choose next?

## FAVORS SAFETY LEAGUE

Superintendent Geiger yesterday sanctioned a plan suggested by T. B. Henry, T. R. & P. official, for a "Safety Scout" league in the public schools.  
 Each pupil who successfully passes examination on safety rules will be presented with a gold button, donated by the electric company. A pennant will be given to the room which has three button winners and an American flag will be presented to the school leading in the number of scouts.

## Injured On Playground

**NORTH YAKIMA, Dec. 7.**  
 Suit was brought here yesterday in the superior court by Mrs. Susie B. Bruenn, for her 8-year-old son, Horatio, against the school district for injuries sustained by the boy while playing on school ground apparatus.

## Board to Demand Rules Be Obeyed

As a climax to discussion that threatens to disrupt the civil service board, Secretary Ellsworth of the board will appear before the city council tomorrow morning and demand that the board's orders be complied with.  
 He will cite the ruling of Judge Stiles, who recently declared that the water and light department did wrong by hiring an outsider for the position of water inspector, and demand that the inspector's salary be held up indefinitely.  
 The civil service board decided at its meeting yesterday to continue in operation for a short time, at least, and to take up an active fight for fair play.

## IT'S RATHER UNUSUAL

—for a retired politician to tell the United States government what to do, but J. J. Russell of Memphis, formerly of the Iowa house of representatives, can tell the slides in the Panama canal. Russell owned a farm on the Mississippi. It slid toward the river as each wet spring. He dug surface trenches across his tract, drained the water off quickly and stopped the sliding. He says the Panama canal sliding can be stopped in the same manner.

**Acid Stomachs Are Dangerous**  
 Common Sense Advice by a New York Physician.  
 "Acid" stomachs are dangerous because too much acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the case of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments acting only upon the stomach walls, or as an artificial digestant, are useless in such cases, for they leave the source of the trouble, the excess acid in the stomach, as dangerous as ever. The acid must be neutralized, and the excessive formation prevented, and there is nothing better for this purpose than a teaspoonful of plain bisubated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation. Foods which ordinarily distress may be digested perfectly if the meal is followed with a little bisubated magnesia, which can be obtained from any druggist and should always be kept handy.
