

Jitney Bus Upsets; Four Persons Hurt; Many Lives In Peril

The big red motor bus on the Edison boulevard route to South Tacoma skidded and turned completely over at 7 o'clock this morning, seriously injuring four persons.

Twenty passengers narrowly escaped death when they were thrown from the machine. All of them were cut and bruised.

The accident occurred at a sharp curve at the entrance to Tacoma cemetery, while C. H. Hoag was driving the machine down the hill at 4th and Union.

The car skidded on the slippery pavement and turned completely over.

List of injured.

The seriously injured were:

E. H. Rank, 2528 Yakima; ribs broken.

Bert Lewis, 621 South 19th st.; shoulder dislocated, internal injuries.

Joe Waiach, Wilson hotel, 1711 Jefferson, face and head cut by glass.

O. J. Simonsen, 817 South 13th, cut about the legs and body.

A. Simonsen, his brother, was sitting on the seat with him, but was uninjured.

Filled With Passengers.

The big bus, owned by E. A. Tattersall, 5214 South O. st., was full of passengers at the time.

The owner had been ill for several days and had turned the machine over to Hoag to drive. The accident happened during the first trip out from the city this morning.

That some of the passengers were not killed is believed to be due to the fact that they were thrown clear of the machine when it upset.

If any of them had been pinned under the heavy car it probably would have meant instant death.

We Are Leaders in OUR Lines

We say LEADERS because we have provided Residence Parlors, centrally located, where harmony and home-like surroundings tend to relieve the heart and mind at the time when most needed. The only institution of the kind in Tacoma where ABSOLUTE PRIVACY is maintained.

Our LINES of Ladies' Dresses and Robes, Gilemmer's Suits and Robes, Silversware, Caskets and Embalming Fluids are of the BEST MANUFACTURED to the LEAST EXPENSIVE. We are installing every refinement and convenience KNOWN to MODERN science.

Embalming is a PROFESSION in itself. Usually Undertakers are EMBALMERS. Many Undertakers are not EMBALMERS. In large cities persons practice EMBALMING who know nothing about the Undertaking business.

JUSTICE TO THE MOUNTAIN CLUB TO MEET TUESDAY

(Continued From Page One.) that your methods appeal to me. I am with you for Justice to the Mountain.

W. H. PRINGLE, Scandinavian-American Bank—"I believe in your club idea, but I think it is a matter that should be taken up by the commercial bodies also. It is a mistake to believe this matter cannot be adjusted between the two cities. Seattle realizes, as we do, that the abominable hyphen is a handicap and there is not the prejudice over there that many suppose."

BERNICE E. NEWELL, The Tribune—"If Tacoma will rally now, the cause for which you have striven for so valiently is won."

EVANGELINE PADEN, 511 South L—"I am pleased to find The Times has taken this up, for it is not only very determined, but also very influential."

A WORKERS' VIEW

To the taxpayers and working-men of this city:

It is time that we should have a change at the city hall. The commissioner of public works has built up a machine that he depends on to keep him in office. This machine was built up at the expense of the property owners of Tacoma and not for their benefit.

The Indian addition improvements water mains, street grading and sidewalks, all put through three years ago, at the same time, were nothing less than a scandal. They were forced upon the people against their wishes by a few tricksters at a time when people were in no shape to pay for them, and Owen Woods knew that to be a fact.

Still he used a man out of the engineer's department for one whole month running from house to house with a petition trying to get the people to sign for improving the district.

The part that should have been improved, close to the car line, was left out of the district because it belonged to a big corporation. I had practically built up this end of town, when along came this man Woods with his 20 per cent, penalty and 15 per cent interest and broke me. I am not the only one. Lots of other people had to walk out and leave their homes, not even able to pay the first installments.

Still, this man has grown fat on my loss, and now has the nerve to depend on his machine to elect him. I believe the people have his number this time, and will give him a chance to go back to work.

If we are ever going to build up a city here we must have a man in this office who will look out for the welfare of the man in the outlying district. Take the poor man's home from him and you couldn't do anything better to kill the city.

ED DONAHUE, 3226 Bay Street.

FAVORS SWISS SYSTEM

Gig Harbor, April 5, 1916. Editor The Times:

We talk much of preparedness for war and peace, why not formulate a practical working plan that will serve both purposes? Why not an army of trained citizens similar to that of Switzerland who has never been bothered since adopting it?

Instead of taking the rank and file from productive work, why not organize rifle companies in each community composed of all the able-bodied; provide ranges and hold company practice regularly; rifles and an allowance of ammunition to be provided free; additional ammunition furnished at cost; each person to be held
