J. PIERP GETS IN BAD

NEW YORK, May 31.—Delegates to the convention of the General Federation of Women's Clubs began balloting for officers today. Mrs. Josiah Evans Cowkes of Los Angeles and Mrs. Samuel B. Sneath of Tiffin, O., were the only candidate for the presidency. Only 25 of the 20,000 women delegates will be received today as guests visiting the famous library in the home of J. P. Morgan. No one knows exactly who those 25 women will be, and thereby hangs a tale.

Miss Anna Maxwell Jones, chairman of the art committee of the General Federation thought it would be nice for the 20,000 delegates to the biennial meeting to visit J. Pierpont Morgan's famous library while they are here.

It developed that there was a misunderstanding somewhere, and instead of extending the privilege to as many clubwomen as desire to visit the library Mr. Morgan limits the number to 25. He sent out 25 engraved invitations for today, and left to Miss Jones the task of choosing the lucky 25.

Miss Jones declines.

DEFINES SPIRIT OF U. S.

WASHINGTON, D. C., May 31.—Defining the spirit of America, and warning citizens of foreign birth not to set themselves against the purposes of the nation, President Wilson yesterday delivered a memorial address at Arlington national cemetery before an audience made up largely of Civil war veterans. They applauded him vigorously.

The president called upon young men to perform voluntary military service and defended his recent suggestion for an alliance of nations to preserve peace. Speaking of America as the champion of the rights of mankind, he said, "We are not only ready to co-operate, but we are ready to fight against any aggression, whether from within or without."

WOULD LIMIT TRUST LAW

CHICAGO, Ill., May 31.—Declaring the Sherman anti-trust law should be modified to permit business interests to co-operate and promote, not restrain, trade, President Charles R. Van Hise of the University of Wisconsin was applauded long and loud at the opening session of the National Lumber Manufacturers' convention here today.

The address was declared particularly appropriate at this time, when business men in all lines of American trade are trying to have the new federal trade relations committee given authority to pass on co-operative contracts between business concerns.

They want the line drawn between advantageous co-operation and blighting monopoly.

SKINS GET A LEMON RUB

WARNEMUNDE, Germany, May 31.—It's the "lemon rub" nowadays for men and women travelers who want to skin out of Germany with their skins. The lemon massage is the latest measure the Germans have adopted for suspected spies. It is intended to bring out or else erase maps and military information which may have been chalked out on the patient's skin. And a German officer says that while the actual soxing has been done by men, the information obtained has in most cases been carried out of the country by women. It's a hard job for women to get permission to leave the empire.

SINN FEINER SENTENCED

DUBLIN, May 31.—Found guilty last week of complicity in the Irish revolt, Professor John MacNeill, president of the Sinn Fein volunteers, has been sentenced to life imprisonment and the sentence has been confirmed. Nearly 2,000 persons are prisoners in English detention camps as the result of the uprisings. Sixty-seven persons, it is said, have been sentenced to death by court martial, and of these 15 have been executed.

ASKS FORTS FOR ALASKA

WASHINGTON, Pa., May 31.—The need of amply fortifying Alaska and the Panama canal was urged by former President Taft, speaking at Washington and Jefferson college yesterday. "The best neutralization of a canal is enough guns to defend it effectively," he said. He took issue with the peace advocacy of W. J. Bryan, criticized the administration's foreign policy and advocated a navy which would be equal to that of Germany.

TACOMA BUILDING GAINS

A marked increase in permits over last year shows today that Tacoma is in the midst of a building revival this spring. Up to today 134 building permits had been taken out this month, with a total of more than \$90,000, as compared with \$56,000 for May of last year. For the first four months of 1916 building permits amount to \$450,187, compared with \$336,688 during a similar period last year.

Morgan Versus John D.

NEW YORK, May 30.—A new world war has broken out! It is raging in Wall st., and it ends 20 years comparative truce! The two RICHEST MEN IN AMERICA are the opposing generals, and the stake is \$800,000,000 in foreign trade.

There's a David and Goliath story apparent on the surface—for the little firm of Gaston, Williams & Wigmore, capitalized originally at \$1000, are after the scalp of the \$500,000,000 American International Corporation.

But behind Gaston, Williams & Wigmore are all the millions of the Morgan crowd, recruited by the Guaranty Trust Co., just

Where Money War Rages

THE WORLD WAR IN WALL STREET.—Intrenched in the Morgan office—the smallest modern building in the district—are, left to right, J. A. Wigmore, George Gaston and Charles A. Sablin and above them in the Equitable skyscraper are Frank Vanderlip, top, and Charles A. Stone, below, handling the affairs of the Rockefeller interests in a battle for \$800,000,000 worth of foreign trade.

as the Rockefeller millions back the International corporation through the National City bank.

Charles H. Sablin, president of the Guaranty Trust, has resigned from the board of directors of the International.

With Sablin, it is reported, John D. Ryan and Albert H. Wiggin, directors of the Guaranty Trust will resign. Sablin is chairman of the board of Gaston, Williams & Wigmore, the trading firm, subsidiary to the Guaranty Trust Co., whose phenomenal break into the shipping business and the Oriental and Russian fields of commercial exploitation has suddenly made it the menacing rival of the American International corporation.

Thus there is again a definite Morgan-Rockefeller breach in Wall st., which has been for years a sort of armed camp with the forts, field works and communicating trenches of these huge rival powers almost interlocking.

When the American International corporation, with Frank Vanderlip and Rockefeller's National City bank behind it, went into the open market recently and bought the largest single holding of stock in the International Merchant Marine, the first skirmish of the present war for world trade supremacy had been fought.

The International Merchant Marine was the elder J. P. Morgan's pet, but had languished under his son.

Now the Rockefeller interests, with their holdings in this, their recently acquired ownership of the Pa-

cific Mail fleet, and their sudden investment in some 75,000 shares of the United Fruit company, are said to extend an influence over more shipping than any single concern in the world!

The Morgan interests woke up and it became evident that International Merchant Marine is not to pass uncontested into the hands of the Rockefeller.

Meanwhile there has been a rush of trading in the stock of the Atlantic, gulf and West Indies steamship lines.

Are Gaston, Williams & Wigmore trying to build up their merchant navy to equal that controlled by the Rockefeller?

The firm of Gaston, Williams & Wigmore, organized since the outbreak of the European war, has startled Wall st. by its phenomenal growth.

It already has branches in Archangel, Vladivostok and Petrograd, which constitute the chosen ground of the Rockefeller International corporation. It is soon to open other branches in Shanghai and Tokio.

Gaston, Williams & Wigmore, capitalized originally at \$1000, are actually waging an offensive war against the American International corporation, with an authorized capital of \$50,000,000.

KNIFE HITS T. R. AUTO.

KANSAS CITY, May 30.—During the parade here a small pocket-knife struck Roosevelt's car. Whether it was accidental or an attempt to injure the colonel is unknown.

The knife struck the arm of Roosevelt's secretary, McGrath, as it hung from the colonel's car. The blade was open, but did not penetrate the coat. The secretary was angry over sensational reports regarding what he termed a "trivial incident."
