F. SHOENMAKER, City Controller.

June 1-2, 1916.

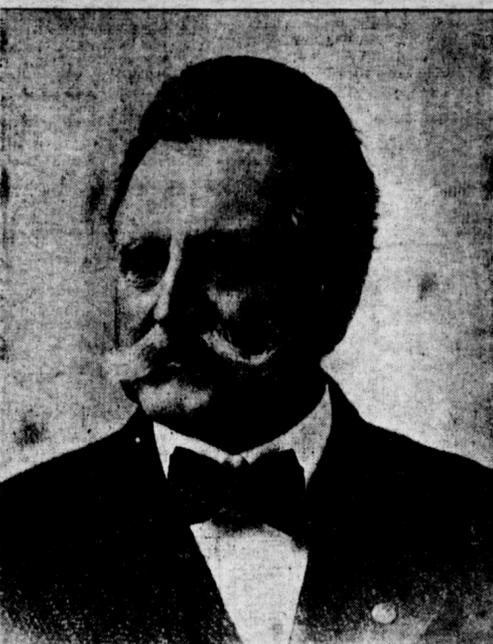

ORDINANCE NO. 6372, L. I. D. 4038.

An ordinance providing for the improvement of North "J" Street from North 5th to North 6th Street; creating Local Improvement District No. 4683; providing for a special fund for the payment of the cost of said improvement by special assessment upon property within said district benefited thereby; providing for the issuance of local improvement bonds; and declaring an emergency.

WHEREAS, an initial resolution adopted by the Council of the City of Tacoma, May 4, 1916, declaring the intention of said Council to make the improvement hereinafter described and fixing Monday, May 22, 1916, as the time for hearing objections to the making of said improvement, was duly published as provided by law; and

WHEREAS, prior to said 22nd day of May, 1916, the Commissioner

Fawcett a Candidate

A. V. Fawcett

(Continued From Page One.)

ing time like the soldier who has all the appearances of motion but never gets anywhere.

"In announcing my candidacy for congressional nomination through the republican primaries I want to make it plain that if sent to the national capital I shall endeavor to represent the real needs of the people of this district and will not be found hanging onto the coat-tails of the special interests or politicians nor marking time.

Too Much Posing.

"I believe there has been too much posing in congress, too much juggling, too much playing politics, too much artificiality and not enough of the spirit of real red-blooded Americanism and concern for the ordinary affairs of our business and social life and the needs of the common people.

Too Much Man Rule.

"I deny the right or expediency of permitting factions or bosses to smother the honest convictions of congressmen to prevent consideration of questions of great importance to the people as has been done recently in strangling prohibition and woman suffrage, and I want to say I will make a fight to a finish for complete national prohibition and for the enfranchisement of every woman in America on the same terms as men.

"We have had ages of man rule and at least half a century of legislation more or less influenced by the liquor interests, with the result that the consumption of intoxicants has jumped from 4.8 gallons in 1850 to over 23 gallons per capita in 1914, with corresponding increase in drunkenness, insanity, crime, physical and mental degeneracy, while vice has become organized on a commercial basis for the propagation of immorality and the spreading of disease and crime, and it is time for the people to ungar congress and let the sobriety, intelligence and patriotism of both men and women speak in the legislation of the country.

"I object to the American laborer and artisan, with progressive standards of living, being compelled to face the competition of our borders and I stand for legislation that will protect our workmen and their standards.

Wants Income Tax Paid.

"America needs a national policy on immigration with proper restriction, registration, education, taxation, examination and naturalization of all immigrants, eliminating discrimination, which is the chief complaint of the Orient, and at the same time decreasing undesirable immigration.

Mrs. Cowles Is Elected

NEW YORK, June 1.—Mrs. Josiah Cowles, of Los Angeles, was elected president of the General Federation of Women's Clubs, it was announced at the convention here today.

In the balloting yesterday she secured a safe majority over Mrs. Samuel B. Eneath of Tiffin, O.

Of the 2,446 delegates not more than 1,800 voted, it is declared, owing to the fact that many of the delegates from the west had left for their homes.

REESE'S CAMP IS THING OF MEMORY

Officials at Washington, D. C., have refused to renew the concession in Paradise valley formerly held by John L. Reese as a tourist camp, claiming it was unsightly, unsatisfactory and unsanitary.

PIGMY ZEP WILL MAKE SEVENTY MILES AN HOUR

NEW YORK, June 1.—A "pigmy Zeppelin" has been born—a little fellow weighing only 5,300 pounds.

It is the progeny of American genius—the invention of T. Rutherford MacMeehan, president of the Aeronautical Society of America, and Walter Kamp, prominent American aeronautical designer.

The Zeppelin is one-tenth the size of the latest model of German Zeppelin and has been built at the order of the British government.

The flier has a speed of 70 miles an hour, 10 miles faster than the giant German Zeppelin.

To reduce weight and thereby raise speed was the purpose of the Americans who built the British airship.

Reduction of weight is accomplished by substituting mahogany, cut in thin layers, for aluminum, which composes the frame work. Rings of mahogany are used to keep the hull in spherical shape. Thirty-nine layers of the wood

has been glued together to make the rings. Wooden ropes, no thicker than a man's hand, are wound round the hull until the rings and ropes make a huge mesh of basket work.

There are, in reality, two hulls, the inner enclosing 13 gas bags, the outer supporting a waterproof and airtight envelope or skin.

Twenty-nine transverse girders encircle the inner hull, and a

PASS ARMOR PLATE BILL

WASHINGTON, D. C., June 1.—Twenty-three republicans and two progressives joined the democrats in the house yesterday in passing the naval appropriation amendment providing for a \$11,000,000 government armor plate plant. The house also passed provisions for \$3,500,000 instead of \$2,000,000 worth of aeroplanes, for 2,730 additional sailors, and for a bonus system to encourage speedy private construction of warships. Party lines were broken down on every vote. The final vote on the armor plate proposal was 165 to 91.

CALL KNIFE STORY HOAX

KANSAS CITY, June 1.—The report of the attempted assassination of Col. Roosevelt was branded by the police here today as a hoax, and "the work of certain news fakers" carefully rehearsed in advance. They declared the knife was introduced as stage property to give it color. Patrolmen on guard around Roosevelt, it is declared, were unaware of any unusual incident until the men who turned the knife over to them stooped over the running board of the colonel's auto and then handed a small pocketknife to one of the officers. The blade was closed.

CONFESSES HUGE FRAUD

SAN FRANCISCO, June 1.—How he and a score of fellow conspirators had collected \$1,000,000 by misrepresentation from men and women from all parts of the country was described by John W. Logan, star witness for the government in the trial here today of six men charged with misuse of the mails in connection with the California and Oregon land farads. The jury was held spellbound. Logan made a full confession and was given a pardon after serving 16 months in McNeils island penitentiary.

AGED CHIEF SATISFIED

OLYMPIA, June 1.—After hearing the complaint of Saluskin, aged chief of the Yakima Indians, Gov. Lister has entered into an agreement in which the Indians are granted temporary relief from the supreme court's decision prohibiting them from catching salmon below the Prosser dam on the Yakima river. Saluskin and his subchiefs ratified the agreement. They complained the law was preventing them from getting needed food on their ancient fishing grounds.

HEAR G. O. P. CONTESTS

CHICAGO, June 1.—Members of the republican national committee met in the Coliseum today to hear 40 contests involving the right of 62 delegates to sit in the convention. Daily sessions will be held, and the committee expects to finish its work by Saturday so that a temporary roll call of delegates may be prepared. Four years ago the seats of nearly half the delegates in the convention were in dispute.

BUSINESS IS HUMMING

A gain of \$2,298,191.62 in the bank clearings for May as compared with the same month a year ago was shown in the monthly statement of the Tacoma Clearing House association, issued today. The total clearings were \$9,558,028.20, as compared with \$7,259,846.58 for May, 1915. The report also showed a gain of \$3,182,386.70 over the first five months of 1915.
