"Beer Kills Quicker Than Any Other Liquor"

Initiative Measure No. 24 is advertised throughout Washington as a "temperance measure," which claim is absolutely false. The facts are: That Measure 24 allows a man to buy 72 quarts at one time without a permit, just as often as he wants to; "as his needs require" being the only proviso. How ridiculous!

Read What Beer Does

Dr. S. H. Burgen, a practitioner 35 years, 28 in Toledo, Ohio, says: "I think beer kills quicker than any other liquor. My attention was first called to its insidious effects when I began examining for life insurance. I passed as unusually good risks five Germans—young business men—who seemed in the best health and to have superb constitutions. In a few years I was amazed to see the whole five drop off, one after another, with what ought to have been mild and easily-curable diseases. On comparing my experience with that of other physicians, I found they were all having similar luck with confirmed beer drinkers, and my practice since has heaped confirmation on confirmation. "The first organ to be attacked is the kidneys; the liver soon sympathizes, and then comes, most frequently, dropsy or Bright's disease, both certain to end fatally."

Liquors Effect On Children

One of Tacoma's first physicians said yesterday: "My patients include a society couple—father and mother—who are extremely alcoholic. The father is a traveling man. The wife has persistently requested prescriptions for alcohol—even calling me late at night. I have refused—yet they get it. They have two children. The baby is yet too young to show the hereditary effects of alcoholism. The four-year-old daughter presents a tragic case of alcoholic imbecility. Her mind is almost a blank. She cannot be trained to care for herself—burns her hands, falls over, cannot talk coherently. Her parents are handsome—she is physically beautiful, with curly, golden hair. She would have made a stunning woman. She is an alcoholic imbecile. This is but one of many cases where the alcoholic sins of the parents are visited upon the children."

Shall Mother and the Kiddies continue to get Daddy's check? or do you want it spent for liquor? Washington is DRY, let's keep her DRY.

Vote Against Initiatives 18 and 24

(Among Initiative Measures on your ballot, No. 24 appears second and No. 18 last.)

High Cost of Living and the 5c Fare

The cost of practically all materials entering into the operation of the street railway has in the last 20 years increased from 20% to 200%.

Wages have increased enormously. The length of ride which we are required to give under our franchises has practically doubled.

The class of paving has been changed from the dirt and macadam or plank road to expensive brick or other hard-surface paving, which under our franchises we are required to pay for and maintain.

Bridges which were formerly constructed of wood are now replaced by high grade steel and concrete ones, and the city requires us to pay one-half the cost thereof.

Practically unregulated and unlicensed opposition has entered the field, taking the cream of our business without shouldering the responsibilities placed upon us.

Our source of revenue, the 5-cent fare, remains exactly the same, however.

The public do not desire that we raise our fares to meet present costly operating conditions, and we, in turn, do not wish to burden the public with an increased fare.

But, we must be given relief from the ever-increasing burdens in some way.

If we are not to increase the selling price of our product—transportation—we must be allowed to secure additional earnings through other channels or disaster will eventually overcome us.

We maintain that the majority of people will be less affected, the public would be better served, if instead of increasing our earnings through an advance in rates, a right freely granted to every producer—some of those manifestly unfair burdens—such as paying, paying for city bridges, gross earnings taxes and carrying of city employees free of cost, charges which help a comparatively few, were eliminated from our franchises.

"FACTS RELATING TO OPERATIONS"

Tacoma Railway & Power Co.

MUD RIVER FILLS LAKE

(United Press Leased Wire) REDDING, Cal., Nov. 1.—A steady stream of mud is flowing from the crater of Mount Lassen, California's volcano, down the northwestern slope into Manzanita lake, according to advices received here today from the vicinity. It is predicted that eventually the lake, which is a quarter of a mile long and an eighth of a mile wide, will be filled up.

BRITISH CAPTURE FORTIFIED TOWN

(United Press Leased Wire) PARIS, Nov. 1.—British troops stormed and captured the Macedonian town of Barakli-Azma, seven miles southwest of Daur-hissar in violent fighting east of the Struma river, taking 300 prisoners, it was officially announced today. The town had been strongly fortified by the Bulgars. On the Cerna front the Serbs repulsed German-Bulgarian counter-attacks.

RHODES CAN'T GET THAT EXTRA PAY

Because he accepted a salary of \$150 per month for nearly two years, without protest, E. W. Rhodes, former commercial agent of the light department, has no claim for extra pay from the city. This was City Attorney Harmon's opinion Wednesday. Rhodes asked for \$1,400 extra salary when he was recently discharged, saying that his salary had been fixed at \$200 when he was hired, but that he only received \$150.

POLITICAL MEETINGS

DEMOCRATIC Wednesday. 8:00—Roy, Speakers, Geo. P. Fishburne and A. R. Titlow. Arletta, Speakers, J. G. Horne and Leon D. Bailey. Thursday. 12 noon—Lunch at Peerless Grill. Speakers, county and legislative candidates.

REPUBLICAN Wednesday.

BREAKS A COLD IN A FEW HOURS

First dose of 'Pape's Cold Compound' relieves all grippe misery.

Don't stay stuffed up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

Death for Bootlegger

(Newspaper Enterprise Association) GUAYMAS, Mex., Nov. 1.—The west coast of Mexico, a territory 1,000 miles long and 200 miles wide, extending from Guaymas on the north to Salina Cruz on the south, went prohibition March, 1915, by decree of Carranza. There are seven states, comprising a population of 3,000,000. Bootleggers are a scarce article in this section. Violation of the law is punishable by death. Military closed every saloon immediately when the decree went into effect.

A certain saloonkeeper persisted in selling on the quiet. Curasco, a famous Mexican general, in command of the district at the time, called for a drink. The saloonkeeper felt safe. He faced a firing squad that afternoon.

Conditions changed rapidly for the better. The peon, no longer able to get drink, turned his mind to work. Little farms greened in the valley, starving cattle were fattened and sold. A ruined country is once more beginning to yield its inexhaustible riches under sane and thrifty management.

Work for Wilson Day

Under authority vested in it by the national committee, the Washington Woodrow Wilson Non-Partisan Campaign committee has proclaimed Saturday, Nov. 4, as "Work for Wilson day" in this state.

"Let each loyal supporter win at least one other vote for 'Wilson and Humanity,'" says the committee in its announcement. The day will be celebrated in Seattle by a parade and meeting at the Metropolitan theater. The state committee consists of Edgar C. Snyder, chairman; George E. Ryan, secretary; Richard Winsor, R. L. Proctor, William H. Gorham, Wilbur A. Toner and Evan S. Stallcup.

Scots Have a Fling

Scots of the Caledonian and St. Andrew's societies and Clan Gordon of the Order of Scottish Clans celebrated Hallowe'en at Masonic temple Tuesday night. John Arthur, the speaker of the evening, told of the folk-lore of Hallowe'en in Scotland.

Songs, dances and readings were given by Robert Haddow, Miss Enola McIntyre, Fred Munro, Miss Rhea Jones, George L. Harrison, Miss Lois V. Darros, Miss Thelma Thomson and Miss Annie Conley. A. S. Drummond presided.

New Shipyard Here?

A \$500,000 corporation, owned largely by Tacoma citizens, to be known as the Pacific Coast Shipbuilding & Drydock Co., and located on the tidelands near the St. Paul & Tacoma Lumber Co., is the plan announced Tuesday by J. P. Hyde, president of the Hyde Ship Brake Co. Articles of incorporation, Hyde says, will be filed at Olympia within a few days, and contracts for three wooden vessels are already under consideration.

E. G. Mills Can't Run

OLYMPIA, Nov. 1.—Edgar G. Mills' petition for a writ of mandamus to require the secretary of state to certify his name to the county auditors as a nominee for judge of the supreme court has been denied by the supreme court.

In his petition Mills claimed that none of the candidates received a majority of the votes cast, and that the secretary of state arbitrarily and unlawfully allowed the names of Judges Morris, Parker and Fullerton to go on the ballot unopposed.

Thompson Out of Race

"The primary campaign and its results show substantial growth in progressive tendencies in both parties, though I do not feel that either of them is yet fully regenerate and sincere, and it will take the developments of the next four years to demonstrate which of the parties, if either, is truly progressive," is the statement of Walter J. Thompson of Tacoma, in announcing his withdrawal as candidate for U. S. senator on the progressive ticket.

Weir, Pioneer, Dead

Allen Weir of Olympia, Washington's first secretary of state and a noted pioneer of the northwest, died at Port Townsend Tuesday night.

He had enjoyed good health until a year ago and was active in civic and political activities in Olympia. He suffered a stroke of paralysis, from which he partially recovered, but his death was hastened by an injury in an automobile accident Aug. 17, in which State Senator Troy was killed.

Car Shops for Wilson

Employees of the Northern Pacific car shops at South Tacoma are overwhelmingly for Wilson, if a straw vote taken Tuesday noon is a true indication.

In the blacksmith department, with 72 men expressing themselves, the result stood: Wilson 37, Hughes 17, Benson 14 and Hanly 4.

LONGSHOREMEN'S STRIKE IS VIRTUALLY AT AN END

The longshoremen's strike in Tacoma has come to a peaceful end.

Although officials of the union refuse to admit that the strike has been declared off, other members declare that strike conditions no longer exist and that the union's strength is a doubtful factor.

Waterfront employers this week opened a longshoremen's hall at 1014 A street. Union and non-union workmen are alike invited by the employers to report at the hall and wait until there is a call for them to work cargo on ships in the harbor.

Although the union men still maintain their headquarters at 8th and Pacific avenue, the employers absolutely refuse to call there for workmen.

Union men predominate at the "open shop" hall, although they are not recognized as such by the employers, and there are several hundred union men at work on the docks this week, side by side with non-union men.

'Nut Sundae' Gets Laughs

Headlining a bill of exceptional merit at the Pantages theater this week, "A Nut Sundae" with a cast of 14, mostly girls, wins a big share of the laughs. Sherman, Van and Hyman, the three cabaret boys, are a riot of laughs at every performance with their comedy and their singing is a sure-fire hit. Ethel Clifford and Harry Mack are among the strong favorites of the bill in singing and comedy.

Valentine Vox, with a pleasing ventriloquial act; Three Mori Brothers in an exceptionally fine comedy athletic offering; Elsie White, character comedienne, are among the other successful features.

An added attraction is the showing of 1,000 feet of film taken during the Elks' recent convention at Hoquiam. "The Crimson Stain" picture is also a part of the bill.

PANTAGES BRANSKY'S "NUT SUNDAE" Elsie White—Valentine Vox VAN, SHERMAN & HYMAN "THE CRIMSON STAIN"—No. 9 AND THREE OTHER ACTS

THE TELEPHONE PAY STATION

The complicated business of the telephone company must necessarily be conducted under fixed practices. Its rules are established in the interest of good telephone service. The company desires that the public be advised as to the reason for any of its rules as well as to the rule itself.

One of its rules is that pay stations shall be provided for the use of the general public, the company asking compensation for the service given therefrom.

Every telephone represents investment and expense to the company in continuous costs of operation. All costs must be paid by patrons. The company sells a commodity, namely, telephone service, for which it must be compensated the same as in any other business. This compensation is made to the company through rates established on a basis of the quantity and character of telephone service rendered to patrons. Telephone service costs money. The free use of a telephone places this expense upon subscribers generally.

In Tacoma the average number of calls per day per telephone is seven. At certain telephones available to the public, this calling rate has been as high as three hundred daily. The injustice of this situation is apparent. It is unjust to the company in compelling it to give a service not contemplated in the rate charged, an injustice which reacts upon the subscriber in making him pay for a commodity of value furnished to another.

The pay stations installed by the company are for the convenience of the public. In their use service is paid for by those who receive it and not by others.

IN THE KAR-RU MAIL

HAVING tried various means to get relief from rheumatism it was only when I took Kar-Ru that I received any benefit and one box effected a cure. Rev. J. Bowron, Stillacoom.
