Signal the Conductor

Most persons signal the conductor plainly when they wish the car stopped. Of course, we realize that often the cars are rather crowded and it is difficult and sometimes impossible to catch his eye, but we wish merely to call attention to the fact that whenever possible, if you will signal the conductor plainly by a word or by a nod in plenty of time to bring the car to a stop, it will eliminate the unpleasantness of being carried beyond your street.

OFFERS TO PAY \$600

A letter from M. G. Henry, 310 National Realty building, to William Fletcher, offering to pay the \$600 Fletcher is said to have asked for the return of Helen Louise Fletcher, formerly Helen Louise Barr, to her mother, Mrs. Elizabeth Darst, was read by Mrs. T. J. Hamilton before the Monday Civic club Monday afternoon. The letter said in part:

"I have been greatly touched by the heroic and beautiful attempt of the mother to regain her child, and especially because she has redeemed herself. Were a life all that is required to help her secure her child I would gladly give up my life to help her regain her child. But there is an easier way, according to the papers—that is to say, on receipt of \$600 you will relinquish the child and permit the court to restore her to the mother.

"While I am not rich, yet if you will give up the child I will pay the \$600 gladly, but I cannot do so at once. I have been sick a long time and have lost all power of speech, yet I am slowly getting into business, and if you have faith enough in my honor I will pay you. I would call on you, but being a stranger you might not understand."

Mrs. Hamilton, who with Mrs. W. Fischer, is raising a fund of \$50 to cover expenses of an appeal to the supreme court, said the fund is increasing steadily.

MRS. HOWE DEAD AT 83

Mrs. Phebe Austin Howe, age 83, and for 30 years a resident of Tacoma, died at 3:50 Monday afternoon at the home of her daughter, Mrs. Harold B. Thompson, in Seattle.

Mrs. Howe's home in Tacoma was at 8603 South A street. She was visiting her daughter when she was stricken with apoplexy. Besides her husband, Jasper Howe, she leaves three daughters, Mrs. Louise Martin of Tacoma, Mr. Perry J. Lyons of Walla Walla, Mrs. Thompson of Seattle; three sons, A. B. Howe, William Howe and M. A. Howe, all of Tacoma; seven grandchildren and one great-grandchild.

The funeral will be held at 3 o'clock Wednesday, from Buckley-King's chapel. The body will be cremated and the ashes interred in the family lot in Tacoma cemetery.

Mrs. Howe was born at Moravia, N. Y., in 1844. She was married to Jasper Howe in 1865. They came to Portland, Ore., in 1877, and in 1878 went to Walla Walla, where Mrs. Howe established the Pioneer Bindery & Printing Co., which she removed to Tacoma in 1887. She was for many years the active head of the business, which is still established here.

W.'s to the city last November; co-operative marketing to reduce the high cost of living, and a wider adoption of the system of trade agreements between employers and employees as a means of maintaining industrial peace, were recommendations made by Ernest P. Marsh, president of the State Federation of Labor, at its 16th annual session, which opened here yesterday.

Other subjects touched by President Marsh were the opposition of organized labor to any form of compulsory arbitration and opposition to compulsory military training in the schools.

RAIDER VANISHES

(United Press Leased Wire.) BUENOS AIRES, Jan. 23.—The German raider has apparently disappeared just as mysteriously as she arrived in the South Atlantic. Her appearance, in some far-distant part of the world, heralded by another "drive" on allied shipping, was today predicted as the next word to be heard from her.

Rumor that the British cruiser Glasgow had sunk the raider was entirely discredited today.

Yesterday's Late News CHARGES BASEBALL "FRAMEUPS" (United Press Leased Wire.) SAN FRANCISCO, Jan. 22.—Startling charges of irregularity in baseball were hurled at Pacific Coast league magnates today by Edward R. Maier, millionaire brewer of Los Angeles and former owner of the Vernon club. Maier accused the magnates of conspiring to keep Vernon from winning the pennant; framing up games and switching players to strengthen the team selected to win the pennant. Maier's statement says in part: "Two of the glaring things allowed by the league were the Crandall and Davis deals. I have never heard of any other organization allowing one team, fighting for the pennant, to strengthen another club in the same circuit which happened to be friendly disposed. "It has been brought to my attention that in 1912 when Vernon was beaten by a fraction for the pennant, Los Angeles players declared Vernon would never win the pennant if they could help it. In the final game of the season, that upon which hinged the race itself, a certain Los Angeles pitcher was told that he could pitch the game only on condition that he would agree to lose. He indignantly refused to enter into any such agreement and he was not permitted to pitch. The result of the game is history." NO LUMBER SHIPS LEFT (United Press Leased Wire.) PORTLAND, Jan. 22.—Lumber exporters here received word from London today that there would be no more British ships available for the transportation of lumber until after the war. A number of British vessels are coming here for grain cargoes. REAL STORY-BOOK STUFF (United Press Leased Wire.) MARSHFIELD, Ore., Jan. 22.—A liquor smugglers' cache on South Bay was raided today by Sheriff Gage and two deputies. Fifty quarts were found concealed in the brush and confiscated. The sheriff believes smugglers lowered the whisky from a ship at sea and brought it ashore in a motorboat, in real old Treasure island style. FOR BETTER ROADS (United Press Leased Wire.) SALEM, Ore., Jan. 22.—Representative Laugaard in the Oregon lower house today introduced a bill creating a state highway department, in accordance with plans of the county judges and commissioners. It provides a highway commission of three members appointed by the governor, to have jurisdiction over road work.
