WHAT THE DOCTOR KNOWS

KIDNEYS MUST BE RIGHT TO INSURE HEALTH

Few people realize to what extent their health depends upon the condition of the kidneys. The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot readily be brought back to health and strength.

When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's Disease, which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in one year, in the State of New York alone. Therefore, it is particularly necessary to pay more attention to the health of these important organs.

An ideal herbal compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. The mild and healing influence of this preparation, in most cases, is soon realized, according to sworn statements and verified testimony of those who have used the remedy.

When your kidneys require attention, get Swamp-Root at once from any pharmacy. It is sold by every druggist in bottles of two sizes—50c and \$1.00.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Dept. M. Binghamton, N. Y., for a sample bottle.

CONGRESS PREPARING TO BACK PRESIDENT TO LIMIT

(United Press Leased Wire.)
WASHINGTON, March 27.—The resolution to be introduced in congress on April 3, immediately after the president concludes his address to the joint session, will declare that the time has come when the United States must vindicate its honor and its rights.

It will declare that by the acts of Germany a state of war exists and that congress places at the disposition of the president the means of vigorously prosecuting the war and thereby hastening the restoration of peace.

While President Wilson is completing his indictment of Germany this week, the public foreign affairs committee is preparing the war resolution.

Bad Faith Charged
Anticipating the trend of the president's indictment, the committee, according to present plans, will draw the resolution along the following lines:

"That wanton violation of the rights of persons and property of our citizens, committed by Germany; her repeated acts of bad faith and utter disregard of solemn treaties have constituted ample cause for war on our part.

"That Germany's acts have been such as to justify the United States before the whole world in resorting to the remedies however extreme.

"That, with an anxious desire to avoid a rupture, we forebore for months to assert our rights by force and continued by amicable suggestions to seek redress for wrongs suffered, in the hope that Germany might yield to pacific counsel and demands of justice;

"That in this hope the U. S. was disappointed;

"That the time has come when this country must vindicate decisively her honor, right and interest.

Spy Bills Planned
"That solely by the acts of Germany a state of war exists between that government and the United States; and that the congress of the United States places at the disposition of the president the means of prosecuting the war vigorously and thereby hastening the restoration of peace."

The resolution will also authorize liberal provision for sustaining and increasing the army and navy.

Spy bills, a censorship bill and a measure authorizing the state department to employ men not under civil service in the District of Columbia for intelligence work are among the plans slated.

Congress is to meet Monday, but the first day will be devoted to organizing. The president expects one day sufficient for organization and will address the body the following day.

May Loan Bill
One plan under consideration is to ask congress for a bond issue of \$1,000,000,000 or more, the proceeds of which are to be used for purchasing French bonds.

The old Prussian treaty will be abrogated and taken for granted from the tenor of yesterday's note to Germany on the subject.

The war department has said publicly that it has no plan for "molesting" resident aliens if they observe the laws of the country.

Many of the Germans fleeing to Mexico are reported unofficially to be leaving—not to join a German army there, but to dodge internment.

Recruiting is stimulated under the thrill of impending events.

POLICE PLAN WAR SURVEY

An immediate wartime survey of all manufacturing plants, tunnels, bridges and other places in Tacoma which might become endangered should a declaration of war be made, was ordered by Police Chief Harry M. Smith Tuesday.

Two police officers will be detailed to inspect every mill, factory, tunnel and bridge in the city. Written reports of each place will be filed at police headquarters.

"We will have reports showing exits and entrances of every plant, so that in case of trouble the police will know just how to guard quickly every strategic point," said the police chief.

"I want the police department to be equipped to handle any war emergency instantly. We may never have occasion to use this information, but it will pay to be prepared."

CHANGED WILL, HEIRS SUFFER

What is said by Attorney Johnston to be one of the most unusual probate cases in his experience, is the settlement of the will of Mrs. Mary Marsh Eade. Some years after making her first will, Mrs. Eade made some changes in it without the formality of having two witnesses present.

When the will came up for probate, the changes were found. Now the 14 heirs have all agreed to recognize the changes in the will, even though it will cut some of them out of considerable money. The heirs are scattered all over the United States.

NO DAMAGES

The T. R. & P. Co. was not responsible for the accident and injuries sustained by Mrs. Zella Morse last November, was the jury's verdict in Judge Clifford's court Monday afternoon.

Survey Corps Ready to Work

The United States Engineering corps is seeking a site at American lake to establish headquarters to begin operations for actual survey of the 77,000 acres in the plat that the county has selected for the army post. Capt. Parks will have charge of the engineering corps.

POST SITE COULD BE USED AS CAMP

If President Wilson should issue a call for volunteers, 5,000 acres of the army post could be used as a mobilization camp. This much land is in the control of the state, or in the hands of patriotic persons who will turn it over to the state.

Ganz and Spaulding Tonight

As these two artists are visiting no other city in this section, a considerable delegation is expected over from Seattle to hear them.

U. S. ABLE TO LOAN BILLIONS TO ALLIES

HERE IS WHAT THE STUPENDOUS SUM OF FIVE BILLION DOLLARS WOULD BUY:

338 completely equipped super-dreadnaughts of the Pennsylvania class, which cost \$14,762,000 each.

7,143 fast destroyers and torpedo boats, which cost about \$700,000 each, and leave a trifle of two millions over, or

Run the war for England and France about 100 days.

(United Press Leased Wire.)
NEW YORK, March 27.—The United States, the treasure house of the world, is able to loan the allies the staggering sum of five billions of dollars without noticeably affecting the financial situation in this country.

An official of one of the largest American banking institutions today told the United Press this country is in a position to loan five times the amount of our national debt to the allies in case of war between the U. S. and Germany.

In the gold piled up in this country is the power, if loosed, to end the war, in the opinion of the banker.

Would Turn Balance.
"At this time the wealth of the United States is estimated at two hundred billion dollars," said the banker.

"Without hesitation I would say that we are able to loan the allies any amount necessary to bring about the end of the war. We could do it without making any impression upon the financial situation in this country and at the same time carry on our own war measures.

"Consider five billions is one-fourth of the entire war debt of England. With that in mind it can be readily seen that it would throw the balance in favor of the allies and bring peace."

"Peace Insurance."
"In banking circles a loan of that size, in view of the present state of affairs is looked upon as 'peace insurance.'

"Before many years it will save us five times that amount. With gold flowing into this country unceasingly for the past two years we have become the bankers of the world. It is fairly impossible to comprehend the power of the gold piled up in this country."

"In it lies the power to end the war quickly."

With talk of huge loans in the air the banking houses are already mobilizing their resources in preparation to unloose the power of money in case the need arises.
