Find Freak Bird

(Continued From Page One.)

hands, with which it is able to grasp branches on which it makes its home.

The nests are invariably built over the water, on the forks or crossing of two branches. The young birds live on the soft leaflets of these thorn trees.

Not only do they resemble mammals by creeping about on all fours, using the wing tips as feet, but the head and neck distinctly resemble some strange ex-

linct reptile.

The most astonishing thing about this remarkable bird, however, is that it dives and swims under water like a reptile. Describing his attempt to capture a Zoological society, Dr. Beebe says: "The young Hoatzin stood erect for an instant, then both wings were stretched straight back, not folded, bird-wise, but dangling loosely and reaching well beyond the body. For a considerable fraction of time he leaned forward.

"Then without apparent leap or jump he dived straight downward, as beautifully as a seal. There

PROTEST OUTSIDE CONTRACT

Protests against awarding contracts for construction work at American lake to outside firms without giving Tacoma contractors a chance to compete, have been sent to Senators Jones and Poindeexter by the Pierce county commissioners, Chester Thorne and Stephen Appleby.

According to word received in Tacoma the first contract for building the two army division cantonments has gone to the Barrett company of New York, which is to construct all the new army roads and highways at the army post site.

It is reported also that the contracts for buildings has been awarded to Grant Smith & Co., with general offices in St. Paul. This report has not been confirmed.

At a meeting in the Commercial club Thursday, Tacoma contractors decided to pool their interests, supporting Cornell brothers and J. E. Bonnell for building contracts.

"In view of our having donated a site costing \$2,000,000 we feel that our people should at least be given an equal opportunity to do the work and furnish materials," reads the telegram of protest.

We have contractors here who are capable and able to handle any sized contracts.

TEUTON LOSSES 300,000

(United Press Leased Wire.)

ROME, June 1.—Italy's great offensive has already cost the Austrians 300,000 killed, wounded and missing, according to conservative estimates today.

The Italians are now consolidating, reinforcing their lines with new troops and reorganizing positions, but continue to inflict frightful losses on the enemy by repelling numerous counter attacks.

General Cadorna called a halt in his advance today to permit bringing up of new supplies and preparations for further attacks.

It was stated that the Italians now hope to take Trieste with the smallest amount of destruction possible to that historic city. The guns of allied warships in the gulf will not be directed on the city if it is possible to avoid it.

Trieste's occupation is now considered a question of weeks.

TAKE THIRD LINE TRENCHES. By William Phillip Simms. (United Press Leased Wire.)

WITH THE BRITISH ARMIES IN THE FIELD, June 1.—British forces reached a third line German trench in a night raid near Loos early this morning.

West of Cherish another raiding party stormed and occupied two enemy posts. At the moment this is dispatched they were tenaciously holding this position, despite enemy counter attacks.

GERMANS REPULSED. (United Press Leased Wire.)

PARIS, June 1.—Violent German counter attacks by artillery and infantry were repulsed in two sectors of the French front, today's official statement declared.

RUSSIA'S SOLDIERS WANDERING ABOUT

BY WILLIAM G. SHEPHERD (United Press Staff Correspondent.)

PETROGRAD, June 1.—Many of Russia's soldiers are so busy acquiring an education that they haven't time to fight. They are crowding the children out of the schools. In many sections they have started schools of their own.

Minister of War Kerensky has had tremendous success in installing the fight spirit in the troops actually at the front, but there are thousands of fighters who still roam about freely over Russia or else have laid down the rifle for the school book.

Here in Petrograd a Jaeger regiment opened a "soldiers' university," where fighters are taught mathematics and history. At Polecon the soldiers have usurped the desks of children in the schools.

Soldiers Wander Around.

At Samara the munitions workers have felt the same yearning for knowledge and have opened schools alongside their factories. "Darkest Russia" is no more—and the people as a whole, now seeing the light, want knowledge to guide them in the dazzling glare of their new found freedom.

Food Difficulties.

Extraordinary efforts are being made all over the country to back up Minister Kerensky's appeals to make the soldiers fight. Notwithstanding this, all trains are crowded with uniformed men.

visiting their families or just wandering around.

To stop the practice of soldiers wandering around Russia foot-loose Premier Lyoff today issued an order to all government commissioners throughout the provinces to "take speedy and energetic steps to return deserters to the front."

Yesterday I witnessed the departure from Petrograd of the weekly Vladivostok Express. Scores of soldiers clung to the doors, and even the roofs of the cars, so desperate were they to reach their homes. I was told the sight was by no means unusual.

These are the men on whom the government is now exerting every possible persuasion to make them see that the new liberty they enjoy must be fought for and won on the battlefield.

Food difficulties still give trouble. Official estimates today put the total of Russia's wheat stocks at about 200,000,000 pounds—a goodly supply. But there are tremendous problems in the transportation of this grain.

Demand for a six-hour day appeared likely today to paralyze industry in 120 of Russia's largest factories—mostly munitions plants. The workmen decided either to strike or carry out literally the regulation under which they were employed—the regulations being so complex that very little work would be possible.

Boys' Smart Clothes

WELL MADE, LOW PRICED

"WELL MADE" means more in boys' clothing perhaps than in many other things, for it is on the making that the satisfaction wears largely depends. Seams must not be skimpy; buttons must be secure. These are a few of the facts to make discerning mothers choose clothes for their boys here. And the fact that dollar for dollar you get better—than ordinary materials which insure wearing quality—the making is just one more attractive feature. Here are some fine offerings:

Boys' Suits \$5.00 to \$15.00

Made of excellent summer woollens in the latest handsome mixtures. Both Norfolk and belted styles are included. Sizes from 6 to 18 years.

Washable Suits \$1.00 to \$3.50

For the boy of 3 to 8 years and unusually fine line of fabrics, styles and colors. Including middie, sailor suits and Norfolk.

BOYS' SPORT SHIRTS

Come in plain white with colored collars of tub silk, priced \$1.00

Complete line of Boys' Sport Shirts in fancy stripes of the best colorings, priced 65c

Complete line of Boys' Sport Blouses in all colors, priced 59c and \$1.15

Summer Hats 50c to \$2.00

Straw and light materials in Caps and Hats in a big variety. —Broadway Floor.

BARK DIRIGO, WELL KNOWN HERE, SUNK

(United Press Leased Wire.)

LONDON, June 1.—The sinking of the American bark Dirigo yesterday by a German submarine and drowning of the mate, was announced by the admiralty today.

The Dirigo was fired upon without warning by the German U-boat, the attacking vessel using her deck guns. The bark hove to and was boarded by the Germans. They ransacked the Dirigo thoroughly and finally sunk her with bombs.

John Ray, first mate of the Dirigo, was drowned.

The admiralty also reported attacks (presumably followed by sinkings) of the two American sailing vessels Frances M. and Atlantic. The Frances M. was fired on by shells from a German submarine May 18. The crew was reported safe at Cadiz.

The Barbara was attacked by submarine gun fire at 7 a. m., May 24. The crew was landed at Gibraltar.

The Dirigo was a steel four masted bark owned and built by A. Sewall and Company of Bath, Maine.

The Dirigo is one of the extensive fleet of wooden sailing vessels that for many years visited the Sound. She is a well-known

TACOMA RECEIVES MOST OF WHEAT

OLYMPIA, June 1.—Reports of wheat shipments of the state in May show that Tacoma has received 1,139 carloads to Seattle's 552 cars. Last year Spokane had most of the wheat at this time, due to heavy rail shipments.

AUSTRIAN PEACE DEMONSTRATION

COPENHAGEN, June 1.—A big peace demonstration occurred on the streets of Vienna coincident with the opening of the reichsrat, according to information reaching here today. It was declared the demonstration was without disorder of any kind.
