Every household should have a jar of Resinol to heal skin troubles

Minor skin troubles—itching patches, bits of rash or redness—so easily develop into serious, stubborn affections, that every home-maker should have Resinol Ointment on hand to check them before they get the upper hand. We recommend Resinol for this with the utmost confidence because of its harmless ingredients and its success in healing eczema and similar serious skin diseases.

To discover whether coffee is pure, sprinkle a few grains on the surface of water. If pure they will float, but if adulterated they will sink.

CONTINUE HOSPITAL CANVASS

Progress in securing \$50,000 by popular subscription to complete the fund of \$100,000 to place the Tacoma General hospital on a firm financial basis is being made in Tacoma this week.

The campaign is being conducted quietly, and the merits of the hospital as a Tacoma institution are being outlined to Tacoma business men by the various committees at work.

H. A. Rhodes, who has given the hospital much attention, says that it is an institution that is deserving of support and a credit to the city.

"The Tacoma General hospital not only brings business to the city, but it is proving a desirable advertising medium," said Rhodes.

Patients are coming from all over the northwest. The physicians do not hesitate to recommend the hospital since it has an established reputation for the efficient handling of cases of all kinds and the results obtained for patients come from proper care and modern equipment.

A financial report covering the work of the week will be made next Monday. It is believed that the fund will be closed within 10 days.

ARRESTS IN HINDU PLOT

(United Press Leased Wire.) SAN FRANCISCO, July 11.—Arrest of Hindus and prominent men in all sections of the country on federal indictments charging conspiracy to foment a rebellion in India are expected today.

Preparation of warrants based on the true bills returned by the grand jury here Saturday is now complete.

Nine persons have been arrested here during the last 24 hours—six Hindus, Louis T. Hengstler, Solon C. Leonhauser and the latter's wife. Leonhauser, a man of 60, declares he is a brother of Maj. Leonhauser of the 25th U. S. Infantry. He and his wife were unable to obtain \$10,000 bonds and were released on their own recognizance until Monday.

Have you ever read the Pickwick Papers?

HERE'S RIOT RECIPE!

Any City That Wants to Emulate East St. Louis Need Only to Develop That Town's Vice, Bad Politics and Vile Living Conditions.

By CHESTER M. WRIGHT, EAST ST. LOUIS, Ill., July 11.—Any northern city that wants a race riot can have one by steering up these conditions I find to have existed in this mob-scarred city:

Bad industrial conditions. Worse living conditions. Crooked, dirty politics. Vice without limit.

Out of just such a vile mess was the spark struck here that has scandalized Illinois and startled the nation.

Industrial conditions were foul. The big plants that employed most of the negro labor were the Armour, Swift and Morris meat plants, Aluminum Ore Co., American Steel foundry, Commercial Acid Co., and the stockyards.

Most of these corporations are owned in Wall st. and LaSalle st. They are operated by local managers.

Managers of these plants enter vigorous denials as to having "induced" negroes to come.

But the negroes did come—and more of them came than there was work for.

Much of the burned area was a negro prostitution belt. It was called the "black valley." There also is a white "valley" here.

When the rioting began the inmates of the white valley poured over into the black valley.

These white prostitutes led the white mob—and were heralded in early dispatches as modern Joans of Arc. East St. Louis womanhood really took no part in the riots.

After talking with men and women from all walks of life, I have not found the least actual hatred of white for black—only the hatred always aroused when one set of men finds another set taking away their means of making a living.

The blame is not all with one side. There were "bad" negroes—and plenty of them.

Four negroes have been political powers here; all four disappeared immediately after the riot. The three who remain free are being sought.

State's Attorney Schaumleffel tells me he has evidence the negroes were organized to start the riot, and their political leaders, he believed, had done the organizing.

This is where rotten politics enters. The negro vote is the balance of power. White politicians have traded for this vote.

Black politicians concluded they could get whatever they wanted. There may have been German money paid to black leaders. There is much the look of it.

But there never could have been that blow-up without the foundation of rotten industrial conditions, vile living conditions, and corrupt politics.

Let any other city duplicate these conditions and that city will find itself looking into the red eyes of the abysmal brute.

The manufacturers want the police and fire departments cleaned out, and will demand the mayor resign. That will help, but it will not cure.

It is up to the powerful employers of this city to help lay an industrial foundation upon which to build a clean, healthy, well housed and well fed population that, black or white, will be able to lead the kind of lives that make cities clean and moral and honest.

HONEYMOON IN A TENT

More than a year after their wedding, Capt. and Mrs. E. C. Puffer are at last enjoying their honeymoon, in a tent at the American lake cantonment.

Capt. Puffer is commander of truck company No. 50, U. S. Q. M. C. When he was ordered to the Mexican border in May, Mrs. Puffer, who was then Miss Beatrice W. Reynolds of Cleveland, New York, Bar Harbor and Newport, gave up the elaborate wedding which was in preparation, and married him hastily just before he left.

When his company returned from Mexico, Capt. Puffer was sent immediately to American lake, without having time to return east for his bride. After waiting for some time, Mrs. Puffer decided to wait no longer, and she arrived at the cantonment Monday. Maj. Stone and his staff, with the help of Mrs. Capt. Louis M. Lang and Mrs. Capt. Ball, decorated the field mess tent with foliage and provided a wedding cake.

PLOT TO BURN DOCKS?

(Special to The Times.) SEATTLE, July 11.—Evidently dropped from a patent life-buoy of some passing ship, a 10-pound can of calcium carbide, burning fiercely, menaced the piers of the Seattle Construction & Dry Dock Co. Tuesday afternoon before it was discovered and sunk by a shot from a soldier's revolver.

Guards at the plant said that the blazing carbide had ignited the oily piling before being discovered. Officials of the construction company, however, denied that any such damage had been caused.

A flood tide kept the can well in beneath the piers and moving toward three submarines moored along the wharf.

PIE AMONG LUXURIES

One piece of pie—10 cents! Tacoma restaurants have broken the news gently on their menus, breaking also the hearts of many Tacoma pie eaters and quick lunch grabbers.

Pie has gone up a nickel, even though flour has been sliding down, and the fruit season, with its abundance of pie-filler, is here. Restaurant proprietors are laying it to the increased wages given to cooks and waiters, which went into effect July 1. "The consumer will have to pay for it," they say.

TRADE KEEPS GROWING

A consistent increase in Tacoma import and export business is shown again in the report of Collector of Customs Drummiller for May, just issued.

The May business led that of April by \$2,000,000, the report shows. Imports at Tacoma were valued at \$6,860,382, while exports were \$6,840,869. Collections were \$98,904.98. Japan was the biggest buyer and seller.

PLANES WILL WIN WAR

(United Press Leased Wire.) DAYTON, O., July 10.—Sitting on his front porch today, Orville Wright said this is the last war and that aeroplanes will win this war.

"This is the last war because aeroplanes used in great numbers will make war futile. My brother and I were so convinced from the beginning," said the inventor of the aeroplane.

"BATTLEPHOBIA" LATEST

(United Press Leased Wire.) CHICAGO, July 10.—"Battlephobia," a malady entirely foreign to America, will soon be prevalent here, in the opinion of Dr. Gordon S. Mundie, associate neurologist at the Royal Victoria hospital of Montreal, Canada, who attended the opening of the annual convention of alienists and neurologists of America here today.

"It is a form of fear resulting from shell shock in the trenches that cannot be described," he continued. "It is the greatest problem of the war in Canada and it will confront America as well."

EMPEROR IS BANISHED

(United Press Leased Wire.) WASHINGTON, D. C., July 10.—After confirmation of the president, the republican government decided to banish from Peking the emperor, the imperial family and the monarchist princes. Hsuan, now in Peking, is seeking guarantees of personal safety.

removed to Buckley-King Co.'s. Mrs. Katherine Barman, 80, Tuesday at family home, 7201 So. E. Body removed to L. M. Gaffney's.

Mrs. Anna Wozney, wife of Thomas Wozney, Tuesday, at her home at Parkland. Body removed to C. O. Lynn's.

Chris Hammer, 28, Tuesday, at local hospital. Body removed to C. O. Lynn's.

Charles Hasselgrave, 47, Tuesday, at local hospital. Body removed to Buckley-King Co.'s.

Ralph Rice, 39, a member of the Tacoma Typographical union, died Tuesday night at St. Joseph's hospital, after an illness of only a few days. He leaves a wife, who is at present in Oakland, Cal.

A Winnipeg man was married the other day on a license to hunt and three small children. Body deer.

CLUB WILL AID PARKLAND SCHOOL

The Commercial club will cooperate with and do everything possible to help the reorganized theological college of the Norwegian Lutheran church at Parkland, it was decided Tuesday by the trustees. At least 200 students are expected at Parkland next fall.

COUNTY HAS SHARE OF HARBOR FUNDS

OLYMPIA, July 11.—Pierce county will receive \$267.19 as its share of harbor improvement funds to be distributed by the state for the past six months, according to the report of State Treasurer W. W. Sherman. Under the law, 75 per cent of funds collected by counties and port districts for rental of tide lands, harbor areas and waterways, must be returned to the counties for expenses incurred in harbor improvements.

Walk or Eat Less

GROCERY
HE WAS ONCE THE DELIVERY BOY

The prevailing style nowadays is the market basket. Remember the days when you called up the grocer and had him send your order home? Remember when the fresh, red headed delivery boy used to bring in your groceries at the back door and you swore at him or tipped him, according to how you felt?

No more of that. The delivery boy is going to war. If he hasn't gone already and you'll have to be your own expressman. That's another horror of war, but it saves you from wasting the grocer's valuable time and trouble. And, besides, walking to and from the store is good exercise. Walk or eat less is the slogan these days. If you don't care to walk you'll eat less, and if you don't want to eat less, walk.

The grocer's boy is doing his bit. Now you have to do yours. It's all because we have to fight a Kaiser and until he's gone you can't expect the delivery boy at your back door.
