The San Juan County bank has received all the necessary blanks for subscriptions to the war bonds, and a number of subscriptions have already been offered. It is reported, however, that sums ready in excess of the total amount called for have already been tendered to the government, but subscriptions will be received until July 14.

Reports indicate that there has recently been considerable activity in the wool business in this county, and that the flurry is not yet over. Good wool sells readily for 16 cents a pound here, while it can be purchased at 8 to 10 cents on Vancouver Island, thus leaving a profit to "importers" of 6 to 8 cents a pound, if they can only succeed in getting the wool to market. It is an extremely difficult matter with such a coast line as we have adjacent to British Columbia and indented with numerous snug little bays most conveniently situated for "ports of entry" for such business.

SAN JUAN COUNTY.

A Most Interesting Article in the P.-I. by Hon. John S. McMillin.

The "Greater Washington" edition of the Post-Intelligencer, published Tuesday, contains a most admirable article, over a column in length, on San Juan county by Hon. John S. McMillin. We would be glad to publish it entire, but neither time nor space will permit in this issue. Following is the introduction:

"Like emerald gems in a sleeping sea, lie the sixty or more islands comprising the San Juan archipelago and the political subdivision of the county of that name. It derives its name from the principal island in the group, although but for one of the many accidents of history, through which our extreme northwestern frontier has challenged the attention of the world, it might still bear the more appropriate title of 'Bellevue,' which was given to it by the French.

"Discovered and named by the Spaniards, colonized by the French; coveted by the British; hastily occupied and bravely defended by Pickett; the subject of a most spirited international controversy, which was overshadowed at the time by the civil war; held in joint occupancy for twelve long years by the two great Anglo-Saxon nations (pending the arbitration of Emperor William, without taxes, without duties, without law except the will of a military commander. What a paradise for a certain modern school of political economists! During all this time the two contending forces, vainly possessing the land, nightly considered the momentous questions of state under a flag of universal truce which covered an almost continuous scene of banquet, ball and joy. All this, and much more of which space forbids even a mention, points to these small islands on our northwestern border as not only peculiar in geographical position, but marvelously rich and unique in historical suggestion. At this large and the smallest in the San Juan county has probably contributed more to the pages of permanent history than any other in Washington.

"Another paragraph of especial interest at this time is the following: 'Sheep raising has been very profitable in the past and is again improving, after a few years of a blighted wool market. This county holds the great record for wool producing, one that has never been approached by any other locality. In the early days of primitive quietude and pioneer simplicity and honesty, the sheep of certain islands have frequently yielded an annual average clipping of wool reaching the astonishing figure of 250 pounds a head, and have been known to break the beam at 800 pounds. Since the advent of swift revenue launches in these waters, however, this particular breed of sheep has become extinct. Nevertheless the wool yield is still large and the quality of the mutton touches the heart (and palate) of every epicure to an exact nicety.'

A Sloop Seized.
Customs authorities, acting in conjunction with the provincial police, have seized a small sloop, which, loaded with 1,800 pounds of wool and some harness, was about to sail from Telegraph bay to the United States. The sloop is owned by George and Alfred Lawson, of San Juan, who were arrested at the time of the seizure, but have since been set free. The sloop had come over from San Juan, but had not entered at the customs nor had it cleared the cargo of wool. Consequently the officers were liable for heavy penalties. They pleaded ignorance of the customs regulations, and Collector of Customs Milne has allowed their plea to go back to Ottawa. In the meantime the vessel is held in the sum of \$185, and by depositing that amount the owners can have their boat. With such a long coast line close to the American side it is difficult to prevent a certain amount of smuggling by small vessels, though the officers of the customs department keep a very alert patrol. Consequently the regulations must have to be strictly enforced whenever a vessel is found infringing them. This is the second time this sloop has made a trip from the American side without clearing.—Semi-Weekly (B. C.) Colonist, June 13.

EAST SOUND LOCAL NOTES.

The hardest rain known for years at this season of the year fell Saturday.

Mr. Chas. Woods made a flying trip from Seattle for a few days' visit with his family here.

Miss Isabel Gregg came up from Deer Harbor to spend Saturday and Sunday at home.

Mr. M. H. Donohue, after spending several months in Seattle, returned to the island last week.

The Misses Gregg entertained their young lady friends at a "5 o'clock tea" Saturday afternoon.

Mrs. Chas. Stowers spent several days last week visiting Grandma Harrison at Bay View farm.

Word has been received from Eugene Smith that he has located a quartz mine, ten miles from Fort Wrangle.

Mr. Sutherland, of the East Sound House, has been papering and painting the hotel and making various other improvements.

The public school closes Friday, June 24, after a two months' session. Miss Bradley has given excellent satisfaction as teacher.

A number of our ranchers are busy haying and fears are entertained that some hay will be lost if the wet weather continues much longer.

Mr. Cross, who left here several weeks ago for Alaska, writes that he has secured a year's work at Circle City at \$4.50 "and found" per day.

Mr. E. L. Van Gohsen returned last week from a trip to Walla Walla and other cities. Mr. V. went as a delegate to the grand lodge of I. O. O. F. EAST SOUND.
