but the Gertrude was considerably  
stove in.

County Clerk E. H. Nash has re-  
ceived a letter from Judge J. P. Houser  
in which he states that he will not  
likely be here to hold a term of court  
in December as advertised. Some of  
the attorneys had their cases  
already for trial and are much disap-  
pointed and put off.

The B. B. Gas Company, through its  
attorneys, Kerr & McCord, have asked  
the superior court to appoint a receiver  
for the Franco-American North Pacific  
Canning Company, of Fairhaven. The  
complaint alleges liabilities at \$50,000  
and assets \$17,000. Petition granted  
and Judge Hadley appointed E. M.  
Wilson, of Fairhaven, receiver.—New  
Whatcom News.

During a heavy storm that prevailed  
in Port Townsend harbor last Saturday  
night the steamer Wildwood, which  
made the run for the Thompson Friday  
and Saturday, sank while lying in her  
dock. A large hole was made in her  
hull by a drifting log. A man who  
was asleep on board was saved from  
drowning by the ship's cat, which  
awakened him by scratching his face  
just as the steamer was going down.

The first annual ball given by San  
Juan Rebekah Lodge No. 112, at Odd  
Fellows' hall last Thursday evening,  
Thanksgiving night, was a grand suc-  
cess, both financially and socially. The  
turkey supper served by the ladies was  
an elaborate spread and all who were  
fortunate enough to partake of it testify  
as to its quality. The music was good  
and was much appreciated that dan-  
cing kept up until 6 a. m. Friday.

A gentleman came into our office  
yesterday morning and suggested that  
it might be a good idea for us  
to warn our readers of an approaching  
rain storm. He went so far as to state  
that if the wind did not change he was  
very positive it would rain. As he  
has been working out of doors on the  
road, he has had a good opportunity of  
watching the clouds and conditions and  
evidently knows whereof he speaks.

The lighthouse tender Columbine  
passed Turn Point, going north, Mon-  
day afternoon and an officer mes-  
saged to Keeper Christianson, of the

light station, that the steamer would  
return Tuesday and call. Mr. Chris-  
tianson says that he has been notified  
that the Turn Point station will soon  
be supplied with a megaphone which  
will enable the keepers to speak to  
passing vessels a considerable distance  
off shore.

The steamer Discovery made her  
initial trip to this place and Roche  
Harbor on Monday last. It is the in-  
tention of her owners to call at these  
points three times a week, viz: Mon-  
days, Thursdays and Saturdays. How  
long she will remain on this run de-  
pends upon the patronage she receives.  
It is an up-hill job for any boat of her  
size to compete with the already fine  
service which our mail boats, the  
Thompson from Seattle to Whatcom  
and the Buckeye from Anacortes to  
Whatcom, are giving us.

Judge Hadley, of Whatcom, Tues-  
day appointed Harvey L. Dickinson, of  
Whatcom, receiver of the firm of Young  
& Williams, of Blaine. Application  
was made by Geo. E. Brand & Co. The  
complaint alleges that the firm's liab-  
ilities are about \$22,500 and the assets  
\$12,000. The firm was engaged in the  
fish business at Blaine and the small  
run and high price of fish are said to be  
the cause of the firm's financial em-  
barrassment. B. L. Williams, by his  
attorneys, Frye & Webster, filed an  
answer, admitting the truth of the  
allegations in the complaint.

#### THE GREAT STORM.

Over One Hundred Vessels of All Descrip-  
tions Go Ashore, and Over Seventy  
Lives Known to Have Been Lost Along  
the Atlantic Seaboard.

Boston, Nov. 23.—It is known defini-  
tely tonight that more than seventy  
lives have been lost in the wrecks of  
tugs, schooners and coal barges during  
the storm of Saturday night and Sun-  
day morning, and if the steamer Port-  
land has also gone down, as now seems  
possible, the list of casualties will rise  
to 140, with over 100 vessels of all de-  
scriptions ashore, two score of them  
total wrecks, and an unknown number  
probably beneath the waves of Massa-  
chusetts bay.

There is scarcely a bay, harbor or  
inlet from the Potomac to New Lon-  
don that has not on its shores the bones  
of some staunch craft, while all along  
Massachusetts bay, and especially Bos-  
ton harbor, the beaches are piled high  
with the wreckage of schooners and  
coal barges. The record, although  
hourly lengthening, is still incomplete,  
for the ocean graveyard of Cape Cod is  
still to be heard from. The annoyance  
and inconvenience of the railroad and  
street car embargo, covering the whole  
of southern New England, sunk into  
insignificance before the story of de-  
struction by wind and wave, yet it will  
be many a day before the full impact  
of the disaster is known or even realized.

SHORES STREWN WITH WRECKAGE.

The islands of Boston harbor are  
without exception strewn with wrecks  
and wreckage; not less than twenty-  
nine vessels are ashore at Gloucester;  
over twenty in the supposed safe har-  
bor of Vineyard Haven parted their  
anchor chains yesterday and are high  
and dry on the beach. The upper har-  
bor of Boston, Plymouth, Salem,  
Portsmouth, Portland and other places  
where vessels are supposed to be com-  
paratively safe, were the scenes of nu-  
merous collisions between the ships and  
the wharves.

Every life-saving crew performed  
deeds of heroism in rescuing crews  
from stranded vessels, and tugboat cap-  
tains risked life and property in their  
endeavor to save life.

LIGHTHOUSE KEEPERS IN DISTRESS.

Among the tugs which started down  
the harbor as soon as daylight came  
was the police boat Guardian, which  
last night was caught in the thick  
weather off Deer Island, while endeavor-  
ing to ascertain the meaning of dis-  
tress signals flying from the lighthouse.  
She made for the tiny beacon which  
marks the inner harbor, but against this  
morning, and with a tossing sea  
and a strong incoming tide tried to  
answer signals. Finally it was learned  
the lighthouse had no fresh water, for  
the heavy sea had broken in the bulk-  
heads and spoiled the water stored  
there. The men in the lighthouse  
the two boats which usually  
hung from the davits had been splin-  
tered by the force of the waves,  
and the sea was washing over the  
lighthouse with such force, that there  
was little hope of reaching there.

What Shall We Do.

A serious and dangerous disease pre-  
val in this country, dangerous because  
so deceptive. It comes on so slowly yet  
surely that it is often firmly seated before  
we are aware of it.

The name of this disease which may be  
divided into three distinct stages is, First,  
Kidney trouble, indicated by pain in the  
back, rheumatism, lumbago, frequent de-  
sire to urinate, often with a burning  
sensation; the flow of urine being copious  
or scant with strong odor.

If allowed to advance, this reaches the  
second stage, or Bladder trouble, with  
heavy pain in the abdomen, loss of sleep,  
increasing desire to urinate, with scalding  
sensation in passing, small quantities  
being passed with difficulty, sometimes  
necessary to draw it with instruments.  
If uric acid or gravel has formed, it will  
prove dangerous if neglected.

The third stage is Bright's Disease.  
There is comfort in knowing that Dr.  
Kilmer, the great kidney and bladder  
specialist, has discovered a Remedy fa-  
mous for its marvelous cures of the most  
distressing cases and known as Dr. Kil-  
mer's Swamp-Root.

It is sold by all druggists.  
As a proof of the wonderful virtues of  
this great discovery, Swamp-Root, a  
sample bottle and book of valuable in-  
formation will be sent absolutely free by  
mail on application to Dr. Kilmer & Co.,  
Binghamton, N. Y. When writing kindly

before he makes an invention, and to  
obtain a patent for his invention, if he  
finds that a patent has been granted for  
an invention which he is desiring to make.

A person making a search and find that a  
patent has been granted for an invention  
which he is desiring to make, he is liable to  
infringe the patent, and he is liable to  
pay damages to the patentee. It is therefore
