ALL HOUSEHOLD EMERGENCIES

AN HOUR saved in summoning the plumber by telephone may save the price of several years of service.

It certainly saves a lot of discomfort and worry.

The Bell Telephone keeps the household in constant touch with all the resources of civilization and is instantly available in any emergency.

It also keeps the household in constant touch with the broader outside world by means of the Long Distance Service of the Bell System.

**The Pacific Telephone &
Telegraph Company**

Every Bell Telephone is the center of the system

Refrigerators, Hammocks Ice Cream Freezers

And many other articles for just such weather as we are having. We sell "KEEN KUTTER" tools and cutlery, known for their superior quality, and "the recollection of quality remains long after the price is forgotten."

THE LOCAL NEWS

J. J. Harper, manager and promoter of the Republic Mining Co., in company with Chief Engineer Dickles was in Colville on business this week. Mr. Harper in speaking of the Republic mills and mines, said: "I am confident that the output of the mines in the vicinity of Republic when treated by our new cyanide process will make this one of the best paying camps in this section of the country."

At the regular meeting of the city council of Marcus last Tuesday night LaPlant & Sansburn were awarded the contract of grading, graveling and the construction of cement side and crosswalks on five blocks on State street, the contract price for this improvement being \$3500.

J. J. Tison of Norris City, Ill., who has been sight-seeing on the Pacific coast for several weeks, is now visiting his nephew J. D. Millsbaugh.

C. Losie has been getting in his hay harvest this week, and the yield despite the wind and rain will be as heavy as last year, which was four tons from seven 30-foot lots. He is 71 years of age, but has cut and made his own hay this year.

Proprietor S. S. Beggs of the City Transfer Co. says that the business during the past three weeks has been rapidly gaining. The company received two pool cars of merchandise and two cars of Crow's Nest coal since the first of the month. The coal is from the Crow's Nest region in Alberta, and is a good grade.

The regular meeting of the Stevens County Federation of Commercial Clubs will be held at Springdale next Tuesday, and should be attended by every business man in the county.

Jackson & Bailey have received word from the supreme court that the case of Lena Lavicy Gustine vs. Lucinda A. Truax has been affirmed. This case affects title to property near Chewelah, and Jackson & Bailey won against Spokane lawyers in a hard contest in both the superior and supreme courts.

In the July issue of "Mother Earth," Emma Goldman's magazine published in New York City, the famous exponent of "anarchy" has an article describing her western lecture tour, with the following about Colville: "I shall always remember my visit to Colville, the simple hospitality of our Comrade Nellie Langdell, and the devotion of our fine Comrade Otto Weik, not to speak of the others, all so interested and helpful. Last but not least is the owner of the 'Debs House,' a socialist and great devotee of his Master Debs, who showed great

courage in extending his hospitality to me. I understand he was severely censured by some of his comrades. He certainly deserves credit." She states, regarding her debates with Socialists throughout the west, that "it is really cruelty to debate with some of the western Socialists. They are so hopelessly mediocre, they make the gods weep. The organizer of the Portland section deserves a medal for ignorance and arrogance."

A letter addressed to Mr. William Welch remains uncalled for at the Colville postoffice.

According to statements made by farmers and real estate men, the acreage of wheat and oats in the Colville valley is at least four times greater this season than any previous year. And it is evident that the large acreage as well as the big yield is due to a great extent to the dredging of the valley last year.

For good work and reasonable prices take your watch to J. F. Leighton, jeweler. Watches cleaned \$1, and guaranteed one year. Spring \$1, jewels \$1, hands and glass 25 cents each.

For Sale—International correspondence school scholarship; bargain; inquire at Examiner.

The next law day in the superior court will be Aug. 28. This will be the last law day before the end of the vacation period, and the next law day thereafter will be Sept. 9. On Saturday, Aug. 12, the county clerk will draw a jury to report for duty in the superior court on Sept. 11, which will be the beginning of the jury term. The criminal calendar will be first set to be tried out before the civil cases can be disposed of.

Thirty Years Together

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and it's the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Unequaled for la-grippe, asthma, hay-fever, croup and quinsy or sore lungs. Price 50c, \$1. Trial bottle free. Guaranteed by Frank B. Goetter.

Crowds Going to Circus

A great many Stevens county people are going to Spokane next Monday to the Ringling Bros' circus. It will be the only opportunity this year and the railroads are preparing to handle thousands of visitors from the surrounding territory.

Ringling Brothers have made many important improvements since they last appeared in this part of the country. At Madison Square Garden, New York, where the season began, the performances were attended nightly by the biggest crowds that ever saw a circus in Manhattan, and the newspapers were not backward about saying that the Ringling Brothers were presenting, in every respect, the best entertainment of the kind ever given there. The performances in Spokane will be identical with those given in the Garden, not the slightest change having been made in the long program.

The circus offered this year is one of wonderful novelty. Instead of the usual single thriller presented by other circuses, the Ringling Brothers are heading their bill with no less than seven of the greatest and most sensational acts that have ever been presented anywhere on earth.

The parade will be given in the forenoon. It will far surpass the brilliant pageants which the Ringling Brothers have given in past years, having been entirely

4% vs. ?

When tempted to put the results of your savings, which represent days, weeks or even years of labor, into a questionable enterprise, remember—

It is better to get 4% regularly, with the principal always yours, than to get perhaps 7% this year and probably no principal for the rest of the time.

4% and SAFE is the safe course to follow.

First National Bank

Colville, Washington

The Oldest National Bank in Stevens County

rebuilt in the foreign workshops of the show at Liverpool, England.

The northbound evening train No. 258 of Aug. 14 will be held at Spokane until 5:30 p. m. to allow anyone wishing to attend Ringling Bros. show to return same day.

The Al G. Barnes Circus Coming

"The first unusual feature noticed about Al G. Barnes Trained Animal Circus which gave an exhibition in Los Angeles this afternoon and another one scheduled for this evening, is the fact that it is not over-advertised—that its management delivers more than it promises to deliver.

"The great feature of this show is that in the main tent the entire performance is given by animals—many of them wild animals of the jungle at that. Lions ride horses, leopards perform wonderful stunts, monkeys do things they were never supposed to do and the elephants do everything but talk. The seals perform most remarkable feats and seem to enjoy it—one even riding a horse round and round the ring.

"The jungle beasts do not perform in the open ring as might be supposed, but their work is done behind the bars of a circular cage some 30 or 40 feet in diameter that comprises "the middle ring." They are rushed from and to their cages through a steel barred runway or chute which guarantees perfect safety to the audience.

"There are two open rings in which the domestic animals perform. High school horses, pretty shetland ponies, dogs, monkeys and baboons do some most wonderful things and the audience is invariably pleased. It is really a marvel to note the high degree of education which these trained animals have attained, for they do many things that are little short of human; and when one thinks of the human effort that has been necessary to impart human understanding to them one must, of course, be astonished.

"The typical clown was on deck and there were many of them. Monster lions, Bengal tigers, Persian leopards, camels, and elephants made up the rest of the animal kingdom that was in evidence.

"There were two military bands which rendered choice selections before and during the performance. The parade given at ten o'clock was certainly a pleasing

surprise to the crowd who witnessed it. The surprise was that a company that carries its aggregation in 19 railway cars would put up a parade that would be fitting for an organization with a railroad equipment of double that number. The Barnes street parade was a Jim Dandy, and the entire performance was one of the best ever here."—Los Angeles Times.

At Colville Aug. 25.

Attack Like Tigers

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum, and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Cal., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c at Frank B. Goetter's.

By unanimous vote it was decided by the Northeastern Washington Veterans' association, in session at Chewelah this week, to erect a three-story building in the city park to consist of a meeting hall, an auditorium and a dancing pavilion to cost \$5000. Over \$1000 was contributed to the fund. A resolution was also passed to dredge Chewelah creek flowing through the park so that boating, bathing and other aquatic sports may be enjoyed in the future. Dr. C. T. Riggs has been elected temporary commander and A. F. Perkins of Colville, adjutant.

Springdale and surrounding school districts have voted in favor of a union high school, and arrangements are being made to put in the full course, including manual training and domestic science. The school districts interested are Springdale, Walkers Prairie, Forest Center and Camas valley.

Accused of Stealing

E. E. Chamberlain, of Clinton, Me., boldly accuses Bucklen's Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs cuts, corns, bruises, sprains and injuries of their terror," he says, "as a healing remedy its equal don't exist." Only 25c at Frank B. Goetter's.
