CITY OF COLVILLE. Commercial center of the Colville valley, county seat of Stevens county. Population 2500. Altitude 1635. Average yearly temperature 46.5. Average yearly precipitation, 17 inches. No extremes in temperature or rainfall. School registration 560. High school registration 140. Three school buildings, total value \$75,000, \$323,000 spent in municipal and building improvements in 1910-11. Paved business streets, cement sidewalks and crosswalks, 140 pound pressure water system, \$22,000 sewer system, electric light system, \$22,000 opera house, \$16,000 flouring mill, affording cash market for all grains in the county, \$9,000 postoffice building, free postal delivery being instituted, \$25,000 saw mill plant with dry kiln. The city of Colville is growing. Its Chamber of Commerce is an active body of business men who welcome all who wish to make a home in a growing business center. Those who desire a suburban or country home, with the advantage of good schools, have a varied choice of employment—fruit growing, dairying, poultry raising, truck farming, diversified farming, or lumbering. Dairying experts claim the Colville valley is the most ideal place in the northwest for profitable dairying. F. A. Huntley, state commissioner of horticulture, declares that the Colville valley is a most ideal section for pear raising. This statement is supported by J. C. Eakie, district horticultural inspector. The Colville valley is particularly adapted to the raising of all commercial varieties of pears.—H. W. Sterrett deputy state horticultural inspector. I consider the Colville section an excellent hog country. I attribute this mainly to our pure water from springs and clear streams, clover and alfalfa, with few sudden changes of temperature. Well-bred hogs of any of the leading breeds, when properly cared for make rapid growth and bring from one to two cents more than the Spokane market. With the market that products command here, a farmer can make a very comfortable living.—Henry W. Foster. Land suitable for farms and orchards may be bought at reasonable prices. For any information, write the Colville Chamber of Commerce.

Malthoid Roofing

We want builders to see us about roofing. We want to demonstrate why it is to your advantage to roof your building with Malthoid Roofing—and we will do this to your complete satisfaction. We will show you beyond any question that Malthoid is the very highest type of roofing perfection and made so well that it will last as long as the building it covers. We will show you that Malthoid is a better roofing than shingles—is more satisfactory than iron—is cheaper than tin—in fact, we can prove that there is no other roofing known to the building trade that is as good—as durable—as long lasting—as water proof—as fire resisting and as cheap as Malthoid Roofing. It has got every other brand of ready roofing marking time while it is progressing—there is more of it sold on the Pacific Coast than all other brands combined and it speaks well for the intelligence of builders that this is so. The makers of Malthoid Roofing—The Paraffine Paint Co. of San Francisco and Chicago Heights, know their business for they have been at it for twenty-eight years and they not only make this roofing to sell but they make it to last and to please the people who buy it. They would rather have the good will of the builder than his money—and they get both by the way they make Malthoid Roofing. If you have roof troubles of any kind or of any description—no matter what kind of a roof you have on your building, see us at once and we will help you out of your difficulty.
