The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Good News

Many Colville Readers Have Heard It and Profited Thereby.

"Good news travels fast," and the thousands of bad back sufferers in this vicinity are glad to learn where relief may be found. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Thousands upon thousands of people are telling the good news of their experience with this tested remedy. Here is an example worth reading:

W. T. Robinson, 724 W. Garden St., Coeur d'Alene, Idaho, says: "For three or four years I suffered from disordered kidneys. My principal trouble was with my back. When I stooped or tried to lift it was several minutes before I could straighten. My head ached and I also had rheumatic pains in my shoulders. After using Doan's Kidney Pills a short time I noticed a change for the better. Since then, when I have had a slight symptom of kidney complaint, a few doses of Doan's Kidney Pills have relieved me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Robinson had. Foster-Milburn Co., Props., Buffalo, N. Y.

A. Vanderspeck of Spokane was a business visitor in town during the week.

Through the kindness of George H. Bevan, who is one of the old pioneers of Kettle Falls, your editor enjoyed a drive through the Blue town district on Monday of this week, and went over his property, viewed his greenhouses, and was more than pleased with what she saw. He has about 100,000 plants of choice varieties of tomatoes, cauliflower, cabbage, peppers and cucumbers, which are the finest we have seen anywhere this year. Mr. Bevan has five orchards besides his home place, and they are well pruned, cultivated, and taken care of, and one can be proud of them. He is also agent for Louis Blue, who has extensive holdings here, and is looking after his property, the tracts which are under his care are all in splendid condition. If more people took the same interest in their own property and put it in cultivation, and in fruit or alfalfa we would have better times, more to sell, and people would see less jack pines and more fruit. In other words Kettle Falls would be a producing district in itself, and would get others interested in property.

James Jacobs of Spokane, arrived in town here Thursday, having been called here on account of the serious illness of his mother, Mrs. Rachel Jacobs, and is a guest at the home of Mr. and Mrs. J. C. Wilson.

Doughnuts

That will remain moist.

Every housewife who bakes her own bread knows that if a little potato is added to the sponge, the bread will not dry out as quickly. In this recipe potato is utilized to make doughnuts that will remain moist and fresh for several days.

K C will be found to have distinct advantages over any other Baking Powder for doughnuts. K C is a double acting baking powder with which a large batch of doughnuts may be mixed and fried a few at a time. The last will be as light and nice as the first.

K C Potato Doughnuts

By Mrs. Nevada Briggs, of Baking School fame.

3/4 cups flour; 2 eggs; 1 cup sugar; 1 level teaspoonful K C Baking Powder; 1/2 teaspoonful salt; 1/2 teaspoonful mace; 1 cup cold mashed potato; 1/2 cup milk, or more if needed.

Sift three times, the flour, salt, spice and baking Powder. Beat eggs with rotary beater, then still using rotary beater, gradually add sugar, then work in the mashed potato with a spoon and alternately add milk and flour mixture. Make a soft dough, roll into a sheet, cut into rounds, pinch a hole in the center with the finger and fry in deep fat.

Fat for frying should not be hot enough to brown the doughnut until it has risen. When the doughnut is dropped into the fat it sinks to the bottom. As soon as it comes up it should be turned and turned a number of times while cooking. This recipe is excellent as they do not take the fat in frying and will stay moist for days.
