Extract taken from Rev. George H. Hull's sermon at the Congregational church last Sunday morning: "The world this morning sees God dimly through the mists and vapors, and seem to us but sad funeral papers when the world's ancient landmarks are strewn with precious lives on a thousand battlefields; yet God's divine laws of love, and compassion, calls to the forgetful erring nations to come back and learn anew the beautiful lessons of kindness, self-denial and brotherhood taught the humble fisherman on Lake Genesaret. God of our Fathers, O Prince of Peace, Eternal Star of all the ages, may thy kingdom extend over all the nations in this dreadful hour, when the hearts of men grow faint, and when the Faith, and Hope of Thy Great Church, of whom thou art 'The Corner Stone,' trembles in the balance. May the nations crown thee, in thy matchless beauty, thy Lord and only King. May the glory of thy Kingdom and the splendor of thy conquest enlist the selfish, forgetful world, and save thy church from reproach. 'Lest we forget! Lest we forget!'"

THE AUTOMOBILIST EXULTS WITH THE GOOD JUDGE

YES, a small chew of "Right-Cut" satisfies. It's the Real Tobacco Chew.

The right blend of rich, sappy tobacco—seasoned and sweetened just enough.

That's why it gives you the tobacco comfort and solace that you like so well.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit 100 much. The taste of pure, rich tobacco does not need to be covered up with molasses and horic. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.
