A weekly summary of events of interest to Kettle Falls and the Upper Columbia River Valley, the garden spot of the great Northwest

NEWS ITEMS OF KETTLE FALLS

If you have any grain to sell by the car, call or write me, I pay the top market price all the time. P. H. Blom, Orient.—adv.

The next time you hear a man proposed as a candidate for a public office wherein your taxes are to be spent, ask yourself this question, "can he run a business of his own successfully, and will he have time after running his to run the public business?"

The man who has taken care of his orchard and has good apples this year is lucky, for apples are a good price and will bring considerable money to this valley unless there is a sudden drop in price. It has been demonstrated that there is more money in commercial apples at 70 cents a box than any other crop that can be raised in this valley, and it begins to look as if the fruitman would reap some benefit for his labor and expense this year. Fruit land is selling better than it has for some time through eastern Washington.

We sometimes wonder why it would not be a good idea for the city council to see about compelling the property owners on Broadway to repair their sidewalks. It is especially bad from Dr. Lee's office to Miss Wareing's store. It might avert a broken limb if taken care of in time.

Do not forget to get in your locals by 10 o'clock Thursday of each week at the Scimitar office in Kettle Falls; then we can get them published. We want all the local news we can get.

The Skidoo held its first meeting of the year at the home of Mrs. N. B. Wheeler. Five hundred was played for two hours, after which dainty refreshments were served. Mrs. J. M. Fish and Mrs. C. A. Heath won the prizes. This year's membership includes Messrs. J. M. Fish, C. R. Fish, N. B. Wheeler, George Bevan, J. M. Williams, Flora Kinzie, C. H. Livermore, C. A. Heath, Miss Llewellyn.

Mrs. Eugene Logan and daughter Jean arrived in town Thursday to spend ten days with her parents, Mr. and Mrs. W. A. Doyle at Elderstret.

Mr. and Mrs. E. K. Jacobs entertained last Friday evening at a dinner. Covers were laid for Messrs. and Mesdames W. A. Smith of Meyers Falls, N. B. Wheeler, E. J. Kelley.

Mrs. W. A. Doyle and daughter, Mrs. E. K. Jacobs, entertained the Ladies' Aid Society of the Presbyterian church at Cozy Corner Wednesday afternoon.

The first initiation of the C. C. S. S. was held Wednesday evening at the home of Mrs. E. K. Jacobs. The old members, Mrs. Peter Schroeder, Misses Lou Kilgore, Vera Smith, Faye Ledgewood, Vivian Johnson, Irene Marty, Lenora and Emma Koerner had the time of their lives making the new members perform the various stunts. The new members are: Estella Lilly, Jessie Lilly, Minnie Wiegelt, Helen Smith, Edith Branigan, Bessie Root, Marjorie Stocking and Hattie Maupin. You should have seen the coat.

A basket club was organized this week and they are holding their first regular meeting at Mrs. W. P. Wagley's today.

Colonel and Mrs. J. M. Fish entertained at an elaborate six-course dinner Tuesday evening. The decorations were autumn leaves. The invited guests were: Mr. and Mrs. N. B. Wheeler, Mr. and Mrs. J. M. Williams, Mr. and Mrs. J. C. Wilson and Mrs. Rachel Jacobs. The guests were delightfully entertained with high class selections on the Victrola.

Mrs. Frank E. Smith returned Thursday from an extended visit with her father, and daughter Miss Leila, at Norwood, Colorado.

Mr. and Mrs. E. K. Jacobs entertained at dinner Thursday evening in honor of her sister, Mrs. Eugene Logan. Covers were laid for Mr. and Mrs. W. A. Doyle, Dr. and Mrs. E. A. Blakely, Rev. Walker Mrs. Gillespie and Mrs. Eugene Logan of Spokane.

Mrs. J. J. Charlton and young son returned to their home in Pleasant Valley Wednesday.

Several of our good hunters are across the river after deer. We presume they will see many deer.

Mr. and Mrs. N. B. Wheeler entertained Friday evening at dinner. Covers were laid for Mr. and Mrs. W. A. Doyle, Dr. and Mrs. E. A. Blakely, Rev. Walker Mrs. Gillespie and Mrs. Eugene Logan of Spokane.

William Eason of Tacoma is visiting at the home of his son, Mr. Eason, of this place.

Attorney O. W. Noble spent Tuesday in Colville looking after legal interests.

Capt. and Mrs. M. R. Flint were visitors in the city Wednesday.

Attorney O. W. Noble was removed to the Colville sanitarium Thursday

Get Rid of Those Poisons in Your System.

You will find Dr. King's New Life Pills a most satisfactory laxative in releasing the poisons from your system. Accumulated waste and poisons cause manifold ailments unless released. Dizziness, spots before the eyes, blackness and a miserable feeling generally are indications that you need Dr. King's New Life Pills. Take a dose tonight and you will experience grateful relief by morning. 25c.—Adv.

The new steel bridge across the Colville river just out of the town of Kettle Falls, is nearing completion. All the steel has been set and the crew is now engaged in riveting the same. This is a fine improvement, the bridge being a very heavy and substantial one, and capable of sustaining any amount of traffic that may develop in the valley. The contractors are energetic, pleasant men and they have furnished work for a number of our local mechanics. This sort of an improvement should encourage the people of the valley to get in and work for a state road clear from Meyers Falls to Davenport, as planned.

The Broadway bridge was closed Friday of this week to traffic and will remain closed for about ten days. Heavy hauling can be done on the cemetery road, while light hauling can be done at the fork of the road.

Mrs. E. I. Shackleton and daughters, Misses Agnes and Lillian, autoped up from Spokane last Saturday for a visit at the home of Mrs. Jane Hofstetter. The Shackletons were residents of Kettle Falls ten years ago.

Old Tin. The expensiveness of pure tin accounts for the care with which it is handled. It is astonishing how little tin can be made to cover thousands of cans. Yet tin would be still more expensive than it is had not the following process been invented for its recovery at very low cost: Great heaps of empty cans (preferably washed and dried by mechanical means) are piled up in an airtight room. Warm chlorine gas is forced into the room, where it reaches every nook and corner of the cans. The warm gas has a tendency to unite with tin and form tin chloride, a highly volatile liquid. The mixture of gases, consisting of air, free chlorine and the vapor of tin chloride, is passed through a condenser, where the tin chloride is separated from the other gases, and by a simple chemical process the absolutely pure tin is precipitated.—New York World.

A Hint For Photographers. Carbonate of soda is an accelerator for the reducing agent. With most developers, when they are dissolved alone in water, the image will ultimately appear, but it will come very slowly. Add a strong solution of carbonate of soda to the reducing agent and water and the image will fairly leap at you. The reduction of the bromide of silver has been tremendously hastened, and it is also more thorough and complete, the negative having much greater density. This is the safe mission of a carbonate of soda in the developer. It is to speed things up and complete the action.—Outing.

Why Lead is So Heavy. Although lead is the softest metal in general use, it is very dense—that is, its particles are very compactly united, and there is no room for air to circulate in between these particles. Most apparently solid substances are penetrated by more or less air, and this, of course, affects the weight in proportion to the bulk. A piece of wood is lighter than a piece of lead of exactly equal bulk because the little particles which make up the piece of wood are not very close together, and it contains a lot of air.—Boston Herald.

Looking Far Ahead. The vivid imagination of childhood is as a fairy charm for magnifying possibilities. A small boy, being directed to empty his bulging pockets, brought forth among other strange treasures a circular piece of rubber. Asked its nature and purpose, he made answer: "Well, that's a real good washer. I'm going to start an automobile shop with it some day."—Pittsburgh Press.

No Idle Gossip. "There's one thing I can say," said Mrs. Waggles, "and that is that I never indulge in idle gossip." "No," replied Miss Cayenne. "You must be given credit for industry in whatever you undertake."—Washington Star.

Hard Water. The Papa—What's the baby crying about? "The Mamma—Oh, he's being washed! "Oh, is the water as hard as that?"—Yonkers Statesman.

Too Much of One. He—You do not seem to be so anxious for a flat now. She—How can I be? Didn't I marry you?—Baltimore American.

If fun is good, truth is still better and love best of all.—Thackeray.

A SMALL WORD.

It Has Only Two Letters, Yet It Is Not Easy to Define. To define one word in the English language one modern dictionary takes eighteen columns of small type. And this solitary word upon which the dictionary bestows such a wealth of elucidation is one that hardly anybody except a dictionary maker can define at all. The ordinary educated English speaking person's knowledge of it could be expressed in about half a single line.

This feigned word is "of." If you were asked to define it—unless you are a dictionary maker or of an allied trade—probably you would have to reply: "Of? Why, of just means of." You might add defensively, "I always comprehend perfectly what it means when I see or hear it and can use it correctly in speech, so what do I want to define it for anyway?" But if you were a child your actual mastery of "of" would stand you in no stead whatever. You would be set to digging out and memorizing the things the dictionary had to say about it, or the driest and least informing of them, as, for instance, that in some cases it is such a kind of preposition and in other cases some other kind and that prepositions have such and such properties when they don't have some other, every bit of which you would absolutely and mercifully forget at the first possible moment.—Exchange.

Hardly Worth Mentioning. As a New Orleans hotel keeper tells the tale a ninety-year-old negro man who was homeless, penniless, infirm and crippled crawled into a hayloft in a strange neighborhood to spend his last hours. The darky who owned the hay saw a suspicious figure slinking into his stable and came with his shotgun to make the intruder a prisoner. Cautiously entering the stable, he detected a rustling in the hay and, aiming his gun in the direction whence the sound came, yelled out: "I got you! Doggone you, I got you!" The expiring wanderer raised his head and as he gazed down the gun barrels replied wilyly: "An' a great git you got!"—Saturday Evening Post.

Britain's Greatest Precipice. The wild fowls of St. Kilda find nesting places that enable them to bid defiance to the sportsman and to the most daring of bird catchers. There is, for example, the precipice called Conagher, the same being far and away the greatest precipice in the British Isles, the deepest perpendicular precipice. It rises from the sea level to a clear height of 1,220 feet. Consider that a man might jump from the top of Conagher into the sea without getting a scratch by the way.—London Graphic.

SHERMAN CREEK.

The school and community fair held at Sherman grange hall, October 16, was well attended and was a success both as to the number of exhibits and in quality. There were no prizes given the adults except three sacks of flour, given in a bread making contest with Martin's Best flour, and for a few sacks of oatmeal. The Meyers Falls branch of the Spokane Fruit Growers' Company furnished the prizes. In the bread making contest Mrs. S. J. Ensminger won the first prize of two sacks of Martin's Best flour and Mrs. H. C. Michael the second prize of one sack Martin's Best flour. The oatmeal was won as follows, one sack each class: Best can fruit, Mrs. Cora Michael; best can vegetables, Mrs. Bertha Roper; best cake, Mrs. Bert Crofoot; best plain sewing, Mrs. S. J. Ensminger; best piece crocheting, Mrs. Turnley; best piece knitting, Mrs. Staley; best piece embroidery, Mrs. Fisher; best piece drawwork, Mrs. Lena Ensminger. Only a few of the winners in the adult class will be mentioned: Mrs. Tony Hoag won blue and Mrs. Geo. Pitman red on butter; Ed Roper won blue on some fine field corn, and J. V. Reed got a blue on some dandy sweet-corn; Mr. Presley was given a blue ribbon on some fine popcorn.

M. W. Roper, H. C. Michael and Ed Roper were winners in different varieties of apples. J. V. Reed, Mr. Presley and Bert E. Crofoot exhibited Sudan grass. An interesting exhibit was a jar of potato flour made by Mrs. Victor Kallstrom. Bert E. Crofoot exhibited a quart jar of flax seed, also a sheaf of the same.

H. H. Layson had a mammoth pumpkin on exhibition with J. V. Reed second, and Ed Roper had a monster squash with Reed second. H. H. Layson took first prize on potatoes. Mrs. J. V. Reed had a plate of lovely strawberries on exhibition that were picked that morning and Mary Ensminger had some beautiful raspberries that were fresh from the bushes.

Prof. Geo. E. Craig of the rural department, Cheney state normal, was present and gave an able talk on the problems confronting the American people, following the close of the present war. Master Kegley of the Washington State grange followed with one of his masterful addresses. P. P. Walters also addressed the people. Everybody left with the feeling that the day had been well spent and with the intention of doing all possible to make our fair next fall bigger and better in every way.

Coughs That Are Stopped! Careful people see that they are stopped. Dr. King's New Discovery is a remedy of tried merit. It has held its own on the market for 46 years. Youth and old age testify to its soothing and healing qualities. Pneumonia and lung troubles are often caused by delay of treatment. Dr. King's New Discovery stops those hacking coughs and relieves a gripple tendency. Money back if it fails. 50c and \$1.—Adv.

COVADA. Mr. Messenger is recovering from a sick attack which kept him hoarse most of last week.

William Pea has returned from the San Francisco exposition.

R. D. Lorah of Chewelah is in camp getting his mining work done on his properties here.

Mrs. Kennedy will visit her mother at Kettle Falls, while Mr. Kennedy attends teachers' institute at Republic. Mr. and Mrs. Parmeter were over to Daisy the first of the week.

Mrs. J. R. Thompson and children of Addy have joined Mr. Thompson at the Silver Leaf mine and will remain during the winter.

A number of mining men from Spokane visited the Advance mine this week.

Prospective buyers have been in camp looking over Mr. Howe's property, the Silver Crown, a daughter of Mr. Keith of Spokane is at the Silver Leaf this week.

ONE SPOONFUL GIVES ASTONISHING RESULTS. Colville residents are astonished at the QUICK results from the simple mixture of buckthorn bark, glycerine, etc., known as Adler-I-ka. This remedy acts on BOTH upper and lower bowel and is so THOROUGH a bowel cleanser that it is used successfully in appendicitis. ONE SPOONFUL of Adler-I-ka relieves almost ANY CASE of constipation, sour or gassy stomach. ONE MINUTE after you take it, the gasses rumble and pass out. C. H. Carroll, druggist.—Adv.

DAISY. A fair sized crowd attended the annual district school industrial and agricultural fair held here Monday, October 18. A small but excellent display of fruits, grains, grasses, vegetables, all grown by school children; also, a display of needlework, drawings, cake and bread making, were on exhibition. A program was rendered in the afternoon as follows: Mrs. O. H. Rosenkrantz of Daisy, song; Miss Mabel Phillips of Daisy, recitation; Miss Helen Topping of Rice, song; Irving D. Sill of Colville, speech; Miss Elizabeth Stannard of Colville, reading; Rev. S. H. Eddings of Daisy, speech; Miss Audrey McCune of Edendale, reading; C. R. Grimes of Daisy, talk; Master Albert Rice of Rice, recitation. Seven schools were represented with a total of 168 scholars in attendance at the fair as follows: Stranger Creek, Martin Cory, teacher; Arzina, Miss Kirsten Larsen, teacher; Rice, Miss Helen Topp-

Born to Mr. and Mrs. Albert Frase, Wednesday, October 13, a daughter, W. T. Ferguson of Kettle Falls, fruit inspector for this district, was here Saturday.

A family reunion and a golden wedding celebration were held at the home of Mr. and Mrs. Jos. N. Horton, east of Daisy, Saturday, October 16, in honor of Mr. and Mrs. John S. Bradley, who were married 50 years ago in Virginia. Most of Father Bradley's children and near relatives were in attendance. Mrs. Bradley was especially pleased on account of having her sisters, the Misses Chrysler, of Virginia, with her, whom she had not seen since her wedding 50 years ago. We extend congratulations to this aged couple and wish them many more years of happy wedded life.

\$100 Reward \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.
