

DANGER IN DELAY
Kidney Diseases Are Too Dangerous for Colville People to Neglect

The great danger of kidney troubles is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, gravel and Bright's disease often follow in merciless succession. Don't neglect your kidneys. Help the kidneys with Doan's Kidney Pills, which are so strongly recommended right here in this locality.

W. L. Wolter, editor of "Beobachter," Ritzville, Wash., says: "My experience with Doan's Kidney Pills has been very satisfactory and I advise anybody who is in need of a good, reliable kidney medicine to take them. My back was so lame and stiff I could hardly straighten after stooping. Sharp pains would seize me in my kidneys, too. It took only two boxes of Doan's Kidney Pills to fix up my back as good as ever. That was about seven years ago and I have never had any trouble from my back or kidneys since."

The above is not an isolated case. Mr. Wolter is only one of many in this vicinity who have gratefully endorsed Doan's. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Wolter had. 60c all stores. D. Kostka of Colville, the genial garage man, closed a deal a few days ago with V. G. Grove whereby he became the owner of "The Fountain." Mr. Kostka and wife have taken up their residence in the living rooms in the rear part of the building. They are genial and friendly people and no doubt will do well in their new enterprise. As soon as the new frame building being erected by Mr. Gove near the new theater is finished "The Fountain" will be removed to it.—Molson Leader.

M. C. A. for use in the army camps. The high school has been asked to subscribe \$200 which is the minimum. The program will be given primarily by high school talent, and will be composed of instrumental and vocal numbers, readings, dances and impersonalities. An admission fee of 25 cents will be charged.

Part of the fund will be sent to the Colville boys at Camp Lewis, and part to Camp Mills.

Miss Ynez Rochford, second daughter of Attorney and Mrs. J. A. Rochford, and a freshman in high school, suffered a painful accident Thursday afternoon while driving with her sister Ruth. Near the home of Attorney F. Y. Wilson the car ran into the curb, throwing Miss Ynez into the wind shield. The nose was cut and split on the glass, and the cheek laid open. Dr. I. S. Clark worked several hours in an effort to repair the damage, at the Colville general hospital, where the patient is getting along as well as can be expected.

MAN TROUBLED FOR TWO YEARS.
No one should suffer backache, rheumatic pains, stiff joints, swollen, sore muscles, when relief can be easily had. James McCreary, Berrien Center, Mich., says he was troubled with kidney and bladder trouble for two years. He used several kinds of medicine without relief, but Foley Kidney Pills cured him. Sold everywhere.—Adv.

Military Marshals.

Like many other French words relating to war and hunting, "marchal," in its older form "mareschal," is of purely Teutonic derivation in both its parts, and the word has had a curious history. Some words rise in the world with the passage of the centuries and others fall. This is one that from the very humblest of beginnings has come to great estate.

The marshals do not owe their name to Mars, though they are his votaries. In the olden times they were about the humblest men in an army—horse servants, or grooms. Then they advanced to the dignity of being horseholders, and those highly respected artisans are still "mareschals" in France, though "ferants" has to be added to make their calling clear. And, while "marchal de France" is a magnificent title, there are also "mareschals des logis," who are in cavalry regiments only what "sergeants" are in infantry regiments.—Exchange.

Gun Salutes in India.
The viceroy of India, as representative of the king-emperor, is entitled to a salute of thirty-one guns. This number had its origin in a mistake. Formerly he was entitled to twenty-one guns. When the time came, years ago, for allotting the salutes to the various native rulers of India the three principal of these vassal sovereigns—namely, those of Hyderabad, Mysore and Baroda—were each accorded twenty-one guns. It was discovered a little late in the day that the superior rank of the viceroy had been overlooked in the matter, and the necessity was pointed out of his supremacy over the vassal rulers being emphasized in the eyes of the natives. So instead of reducing the number of twenty-one guns that had been accorded to the three rulers in question the viceroy was given ten more guns and is today the only person in the world who is entitled to that altogether exceptional number of guns.—London Spectator.

Save Food and Win the War.
Women in millions of American homes will read the message of the "Home Card" and will follow its suggestions. If enough millions do this, the problem of feeding the allies and ourselves is solved, and the war won. This is the belief of the United States Food Administration, who hope, during "Food Pledge Week," November 4th-11th, to organize the American Women into a volunteer food conservation army. The duties of these women, as stated by the Home Card, are wheat, to eat and serve less wheat, beef, pork, dairy products and sugar, and more of the other foods of which we have an abundance, and which cannot so readily be shipped to our allies.

Red Cross Efficiency.
There is misunderstanding in some localities as to how much of the Red Cross funds collected is actually used for relief work, and how much is used to pay the expense of collecting, etc. Some misinformed person made the statement that only half of the funds really reached the front.

The cost of collecting the recent vast war fund was less than one percent. When one donates \$10 to the Red Cross, he can be assured that at least \$9.90 of the amount will remain for the purchase of ambulance wagons, bandages, medicine and other relief materials.

Pacifists Grilled by Chicago Judge.
Judge M. Kavanagh of Chicago invited aliens in this country who are not willing to bear arms for America to return to the land of their birth. The judge, in a recent address, denounced pacifists and pronounced the kaiser's talk of peace hypocrisy.

"Let the Irishman who is for Ireland first go back to Ireland," the judge said. "Bread and fuel are going to be scarce here and unless he is for this country first he has no right to eat our bread or warm himself with our fuel."

"No one desires peace but a few milk-veined Americans and British pacifists. This babbling of free speech should be stopped. It means treason and death. The man who opposes the government now is fighting the flag as though he had a gun in his hands. The German emperor doesn't want peace. All he wants is a truce. He holds one-third of Europe. If he can find time to reclaim his regiments, raise more forces, manufacture more cannon and powder and get a breathing spell, that is all he desires."

Potato Bread Recipe.
Five lbs. flour—2 oz. compressed yeast.
Lukewarm water for soft dough, let stand over night.

The day before making bread, boil 5 lbs. potatoes—when cooked put water and potatoes through sieve. In the morning add the above to soft yeast, then about 5 lbs. flour, use more water if necessary. Small handful salt. Put this stiff dough to raise, when ready make into loaves. Sugar and lard may be added if desired.

One farmer was recently fined \$100 for not having properly taken care of his farm from a producing standpoint.

Paris newspapers are commenting extensively on President Wilson's final assurance: "To the last man, to the last dollar, the whole force of the United States is at your service."

Hunting horse chestnuts is a new sport war has developed for the children in England. It is hoped that 200,000 tons of the nuts will be gathered, to use in the manufacture of munitions.

"Just Livin' Along."

Frank L. Stanton of the Atlanta Constitution is one of the best known newspaper men in America. Likewise he is one of America's sweetest poets. One of his dainty lyrics is entitled "Just Livin' Along." It is a song of optimism. It embodies a philosophy which might be adopted with profit by all men and women.

Let us be thankful that we're just livin' along.
Life, joyous, jubilant, vital and thrilling, is all about us. Birds, beasts, plants and flowers live and love and pass to the great change.

Indeed, is there anything other or greater than life in its myriad manifestations? It doesn't much matter how we designate the forms and aspects of being. Let us be thankful that we're just livin' along. We shall continue to live. All our worries and frettings will not affect that fact, though they may hurry us to other conditions, hurry us more swiftly to a new plane of existence.

But let us join in the song of the optimist and be happy forever that we are just livin' along.—Dayton Herald.

Good Journalism.
There are many stories of the journalistic genius of the blind Joseph Pulitzer. One cropped up the other day. "There was a big championship golf tournament to be played," a golfer said. "This was years ago, before Mr. Pulitzer went blind. Golf at that time was in its infancy in this country."
"Well, Mr. Pulitzer sent for his dozen best reporters and special writers and, lining them up before him, said: "Those who understand golf stand on the left; those who are ignorant of it, on the right."
"The stars separated themselves accordingly. All understood golf but three—three very excellent writers."
"You three chaps will cover the tournament," said Mr. Pulitzer, with his nervous smile. "I want all our readers to enjoy our story of this event, and, since most of them are ignorant of golf, what interests you three will be sure to interest them."—Washington Star.

School Strikes in Japan.
School strikes seem peculiar to Japan, and invariably one is under way. Such a strike is a calamity dreaded by head master and undermaster alike. A head master who has had a strike in his school is under suspicion, even though he may be quite innocent of any unjust conduct, and eventually he must seek a new field for his activities, so unpleasant do the students make his continued stay. When students combine against one of the undermasters he has nothing to do but tender his resignation. If the strike is temporarily calmed down it is tacitly understood that the master in question is on the lookout for a new place. Sometimes strikes take place for the retention of the teacher rather than for his dismissal. In this latter case it is always the head master who suffers the most, as the move is directed against him for not retaining some favorite.

Heavy Money.
How to keep your money safe from thieves is a problem that was solved by the inhabitants of Uap, in the Caroline Islands, when they devised a currency too heavy for burglars to carry away. The money used by the natives is in the form of huge wheels of stone, weighing as much as 500 pounds and roughly shaped in the form of a grindstone. A large hole in the center is a feature of the Uap money. Even the clam shell pennies are perforated. The stones are used for large purchases only. If an islander becomes wealthy enough to purchase a pig he must part with a 500 pound circular stone, but if he is required to deliver it for any distance the pork is well earned.—American Boy.

Breaking on the Wheel.
In medieval days "breaking on the wheel," a most barbarous mode of inflicting capital punishment was often used in France and Germany. It consisted of stretching the victim upon a wheel or upon a wooden frame in the shape of St. Andrew's cross and then breaking his limbs by blows from iron bars. The sufferer was then left to die slowly from fear, thirst and exhaustion.

Sad Proof.
"Yes," said the young wife proudly, "father always gives something expensive when he makes presents."
"So I discovered when he gave you away," rejoined the young husband. And, with a large, open faced sigh, he continued to audit the monthly bills of his better half.—Stray Stories.

In an Emergency.
Tripplets—What did your chauffeur do when your wife fainted? Abbella—He didn't do anything till some one in the crowd hollered, "Give her air!" Then he got his pump.—Town Topics.

Keen Sense of Smell.
The aborigines of Peru can in the darkest night and in the thickest woods distinguish respectively a white man, a negro and one of their own race by the sense of smell.

Men and Women.
Men ought to be mighty good to women, for nature gave them the big end of the log to lift and mighty little strength to do it with.—Lincoln.

Well Trained.
"Your daughter did well to land that young millionaire."
