A Chronicle of Events by our Local Correspondent  
Local Representative, Miss Ruth Pierce.

Please pardon these few items, as the Daisy correspondent is again going to school after an absence of about three months; and will have to study hard for awhile to make up for the lost time.

Well, at last it is snowing. Does it not seem fine after the horrid cold weather? Some say they wish it would snow to the depth of four feet. I wonder if they would like it to be that deep if they had to walk to school?

The "flu" patients are improving with the exception of Mrs. John Kennedy, Jr., who is dangerously ill at the home of her father, I. N. Laser.

Dave Coonce of Czar, Alberta, who has been visiting at the home of his sister, Mrs. C. P. Stafford near Gifford, visited at the homes of S. J. Kilgore, C. S. Summers, J. A. Burrows and W. A. Pierce last week before departing for Prairie, Idaho, where he will spend the remainder of the winter with a sister who resides at that place. Mr. Coonce's small sons Morris and Harvis will accompany him.

George Shull of Colville visited at the home of his sister Mrs. S. V. Richey Wednesday and Thursday.

Mr. and Mrs. Nelson Hunt of Pleasant Valley were at the W. A. Pierce home Thursday. Mr. Hunt, who is a veterinary attended one of the big grays belonging to Mr. Pierce.

W. A. Pierce and Fred Bohren are cutting ice from the Daisy creek near the Pierce farm. They report that there is a depth of twenty inches of clear ice.

Miss Ruth Maxwell returned Saturday from the Seattle-Pacific college, which she has been attending for the past few months. Miss Orevilla Maxwell returned nearly two weeks ago to her home.

Ralph Stewart, one of our boys, arrived from Camp Lewis Tuesday evening, and is at the home of his parents, Mr. and Mrs. W. A. Stewart at present. Ralph can tell many interesting things about camp life. The young people of this community are very glad to see Ralph again as he was a great favorite with young and old alike.

Mr. and Mrs. F. L. Green and baby Ida visited Sunday with Mr. and Mrs. George Koontz of Gifford.

J. N. Horton had the misfortune to lose one of his fine, big horses last week.

**Correspondence from Rice**  
Mrs. D. C. Allen, Representative

The flu epidemic is about over. Nearly everybody has had the disease, and with the exception of a few severe cases, all are now able to be up and around. It is believed the majority of school children will be able to resume school Monday.

The cooperation of neighbors, and their active assistance in caring for the sick and doing the necessary work, has caused considerable comment. It is quite probably that our fortunate condition of having no deaths is directly due to the help given. The writer has lived in no community where there is shown a greater desire to help any person sick, unfortunate or in distress.

Many are the favorable reports in the Pleasant Valley neighborhood. It is quite probable that were we to give the names of those deserving credit, some would be omitted, and so we give considerable praise to all who helped, and to those who were exposed directly by caring for the influenza patients, all praise is given. It means as much bravery as rescuing a comrade in No Man's land for a person to expose himself to so dreadful a disease as influenza, but it has been necessary in many cases, and it has been done.

Dr. Brigham of Kettle Falls has gone day and night, and has doctored so many he was unable to state the number, and has had much success.

Dr. Thornton, although not a practicing physician, having retired on account of his health, responded to many calls in this emergency, and he has handled very successfully some of the more severe cases. The severe pneumonia case of Ray Smith, the case of Mrs. Stack, and the unusual case of Mrs. L. G. Hobbs were handled by Dr. Thornton. He had sixteen cases in all he stated. He responded only when it was believed necessary to save a person's life, and when it was impossible to secure another physician, and he urged all to secure a regular practicing physician if possible to do so.

Ray Smith is much improved, and is recovering gradually. Ralph Clinton is able to sit up part of the time.

Mrs. L. G. Hobbs is suffering from pleurisy, following the influenza. Mrs. Gavin Jamison has recovered

from something, she was quite sick. Her illness was influenza, since it did not seem to be contagious.

Bert Rice is still suffering from influenza, his high fever causing much trouble. His case is quite serious. Everyone is anxious to do something for him, and he is suffering a little bit from the advice of friends as well as from the flu.

Mrs. Coulter and Mrs. Nelson of Daisy are caring for him. We gave Bert everything that was imagined would do him good. Howard Clinton offered to bring him some sheep dip, and now Bert is following the doctor's orders strictly.

John McGregor and wife are visiting their daughter in Spokane. Mrs. McGregor is suffering from tonsillitis. Emery Johnson and family were recent Spokane visitors.

Loren Holbrook's family are recovering from the influenza. Miss Elizabeth Stannard, who has been caring for her sister, Mrs. Holbrook, now has the influenza. The "flu" has no respect for anybody. We called up and they stated Miss Stannard was getting along nicely. We extend our sympathy and hope for her speedy recovery.

Wm. Brandes is on the sick list this week.

Mr. Harper and wife and daughter who have been visiting their daughter, Mrs. P. J. Golm, returned to their home in Couer d'Alene last Tuesday.

Ike Brady has a band of 850 sheep on the J. J. Charlton ranch in Daisy.

Mr. Taylor and wife are visiting with Mr. Nettleton. Both families are planning a visit to California soon.

If ye scribe made any mistakes in her correspondence while suffering with the flu she begs everybody's pardon. The truth is she expected to die, and took the last chance to get even with everybody. Everybody who had the genuine flu expected to die. That is one of the symptoms. If you didn't expect to die, yours was only imitation flu.

**NEWS FROM MILES**

The proposition of building a wagon road down the Spokane river valley from Spokane to the mouth of the Spokane river is meeting with favorable response, both from the Chamber of Commerce of Spokane and from our congressional delegation in Washington. By proper action of our congressmen through Indian appropriation bill, there is little doubt but action will be taken and funds provided to survey and construct this road from the mouth of Chamokane creek to Detillion bridge, across the former Spokane Indian reservation. This road across the former reserve would make the connecting link with the Spokane valley roads at Long Lake and Little Falls with the roads of the upper Columbia valley into the Fruitland-Hunters country, opening the great stock raising, mineral, fruit, vegetable, hay, small grain, and lumber producing country northwest of Spokane. It would establish a trunk line communication across the former Spokane reservation, and provide the former Colville Indian reservation with several entrances, viz at the junction of the Spokane and Columbia rivers near Miles, and at the crossings of the Columbia river at Gerome and Hunters.

The building of an electric operated railroad from Spokane connecting the numerous power plants of Nine-Mile, Long Lake, and Little Falls, and providing the preliminary steps for constructing the flumes, canals, and tunnels of the proposed Big Bend irrigation project is also under consideration, and is being brought to the attention of our government railroad construction department by the commercial bodies of Spokane. This electric road would also open the Spokane and Columbia river valleys, and the former Spokane and Colville reservations with the metropolis of the Inland Empire. The matter of further extension and construction of the Davenport-Meyers Falls state road was also brought before a meeting of the Lincoln county legislative delegation with the citizens of Lincoln county at Davenport last week. The preliminary steps asked is to complete the survey and permanent location of the road, with the purpose of allowing the counties of Lincoln and Stevens to secure right of way. Attention was called to the completion of a survey across the former Spokane Indian lands, that the federal government may act in granting right of way across Indian allotments and tribal forest lands. No doubt federal funds can be secured for building this road in its entirety, provided proper steps are taken and the survey and permanent location made. Our legislative men promise their aid in furthering all these projects for the opening of this country.

The buzz of the saw mills around Meyers Falls sounds as if they were making up for lost time.

Wednesday everyone thought we were going to have a Chinook, but Mother Nature changed her course Thursday, as she thought those in the hills needed more snow to complete their winter's work. How it did come down! The children and grown-ups, alike, enjoy the snow.

Our Sunday school gained ten members last Sunday. We will have a membership contest for three months. Troy Miller has the blue side, and Robert Thomas the red. The losing side has to give the other side a party. Everybody is welcome to come.

Gerking; solo by Gene Walston; reading by Glenford Walston; solo by C. H. Gerking; the program closed with a song by the grange. The ladies served a bountiful lunch, Frank Wheeler wearing a white embroidered apron, being master of the coffee pot. The bouquet, which was furnished by Hazel Phillips, was the elaborate pink-and-white pom pom which adorns that good sister's sky-piece. We didn't break the rule when we departed for home in the few hours of early morn. Brother Bert Curry was the installing officer and performed the duty beautifully. Mrs. I. Gerking, press agent.

A coasting party is planned for Thursday evening if weather conditions are favorable.

Rueben and Ole Traaen bought a carload of wood from a neighbor.

Ray Lindley was helping Mr. Grinnell cut wood Wednesday.

A thaw at this time would mean a loss to many farmers who are hauling wood and ties to Addy this week.

The Red Cross auxiliary met at the home of Mrs. A. M. Sleasing last Thursday where they discussed plans for the sale to be held in the Summit Valley school house, Saturday, January 18 at 8 p. m. Everybody is urged to attend, as we all know that the Red Cross has still its good work to continue.

The school is doing its bit by entertaining the evenings with entertainments. No admission fee.

If you have anything that is saleable in any line bring it to the sale at the school house to be auctioned for the Red Cross. They need it.

**FARM LOAN HAS ANNUAL MEETING**

The Stevens county National Farm Loan Association held its annual meeting of stockholders at the I. O. O. F. hall last Tuesday afternoon with a good attendance and a fine spirit of good fellowship prevailing.

Chris McDonell, who as president of the association since its organization nearly two years ago, was continued in office with Wm. E. MacBoyle as vice president, and John B. Slater as secretary-treasurer. The directors elected were: Chris McDonell, Thomas Graham, Ambrose May, John F. Vine, John C. Fredendall, P. H. Stewart and Wm. E. MacBoyle. At noon a generous spread was served, covers being laid for twenty in the dining room of the hall. An interesting program was carried out.

According to the report of the secretary the loans of the Colville association which have been closed since its organization in June, 1917, covering a period of about eighteen months, approximates \$140,000. The loans made by all the associations of the county, including those made by the Colville association, since the Federal Farm Land bank opened for business less than two years ago, will total \$510,000. It is estimated that over \$200,000 in loan applications, additional to the above, are pending.

One of the propositions which met with favor was from M. K. McTigue of Aladdin, who favored a federal farm loan picnic to be participated in by all members of all the associations in the county at some appropriate time during the summer. Mr. McDonell assured the association that if such an event could be arranged for that President D. G. O'Shea of the Federal Farm Land bank of Spokane could be induced to be one of the principal speakers.

Among those present at the meeting were: Chris McDonell, W. E. MacBoyle, Mr. and Mrs. D. A. Kennedy, Mr. and Mrs. Ambrose May, Charles J. Chopot, W. T. Kirkham, M. K. McTigue, John C. Fredendall, B. R. Moran, Mr. and Mrs. F. Zurbrugg, P. H. Stewart, A. C. Connelly, Thomas Graham and John F. Vine.
