Ice is likely to be a scarce commodity in Colville before the summer is over. The only commercial packing of ice last winter was done by the Stenger-Graham Drug Co., about 200 tons being put up. A large part of this is necessary for the ice cream department of the store, but while it lasts it is being divided with customers. It cost about 300% more to put up ice last winter than usual, but is being sold at a cent a pound, which is but one-quarter of a cent more than formerly. Several investigations have been made relative to the cost of an ice plant in Colville, but it has been found that it would not pay unless established in connection with a cold storage plant which would utilize a greater amount of ice annually than can be sold to the homes.

The speed limit for driving within the city is 12 miles an hour in the business district, 20 miles an hour in the residence district, and 30 miles an hour on highways, all of which is provided by state law, and the city ordinance covers the first two speed provisions. Driving on the wrong side of the street, or failure to properly turn corners, or excess speed, has a minimum penalty of \$5 and costs and a maximum of \$50 and costs in Judge Petty's city police court. He states that there are no \$1 violations in his court, as a \$1 violation is not worthy of attention, but that if a man knowingly and willfully violates the traffic ordinances, he is entitled to pay anything from \$5 and costs up to the maximum for his willingness to endanger the lives of others.

Mr. Mason, though past 87 years of age and never a resident of Colville, is as keen as the most optimistic local citizen in the future of Colville. In a letter to G. B. Ide he observes that Colville should secure and beautify its parks and conserve its water supply in prospect of future growth.

The Ford One-Ton Truck is one of the sure business utilities, and likewise just as big a necessity on the farm. Farming is surely a business proposition wherein success depends upon economical methods with up-to-date machinery. The Ford truck will prove a great economy on the farm. The marvel is "how the farmer has got along without it all these years." It is a servant that serves, always ready and always economical. Price \$550, without body, f. o. b. Detroit.
