In our store, you can hear the phonograph that substituted for Anna Case—and astonished all New York in the audacious "Dark-Scene" Test. and then the LIGHTS went OUT. Read below what the New York newspapers said of the test. Remember—the marvelous instrument used in New York City was an exact duplicate of the original Official Laboratory Model, which cost Mr. Edison three million dollars in research work. We, too, have an exact duplicate of the famous three million dollar original. We guarantee that it is capable of sustaining all the astonishing tests made on March 10th, at Carnegie Hall, New York City. Come in and hear this guaranteed Official Laboratory Model. Experience its marvelous realism for yourself. We give Mr. Edison's unique Realism Test. The NEW EDISON "The Phonograph with a Soul". "When the lights were lowered, it was impossible to tell when it was Anna Case, and when it was only her voice that was singing."—New York Evening Sun. The "dark scene" test was positively sensational in its proof of the realism of the New Edison. Anna Case, the world-famed soprano, stood beside a dignified Chippendale cabinet. She started to sing. Her voice enthralled the audience with its colorful brilliance. Suddenly the lights went out. Densest black swallowed stage, phonograph and singer. But Miss Case's voice went smoothly on. It rose to the very heights of its superb artistry. Then, the lights flashed on! The audience gasped with astonishment. Case was gone! Her voice had been coming from the New Edison. Under cover of the darkness, Miss Case had stolen from the platform, leaving the New Edison to continue her song alone. The audience never knew she had gone, till the lights went up. The exact duplicate of this instrument is here in our store,—waiting to prove its perfect realism to you. When you come in, ask about our Budget Plan. It makes the dollar go farther—the New Edison come easier. RICHARD DRUG CO., Chewelah F. M. BAKER, Local Representative, Colville
