Uganda.
Uganda is a British protectorate in East Africa, 109,119 square miles in area and with a population of 3,361,117 in 1918, including 570 Europeans. It is bounded on the north by the Sudan, on the east by British East Africa, south by the former German East Africa and west by the Congo Free State. The native capital is Mongo; the headquarters of the British administration is at Entebbe. The country contains great plains, forests, swamps, deserts, high mountains and large inland lakes. Cotton is being grown there in increasing quantities each year. About 600,000 of the natives belong to the intelligent and civilized Baganda, who were converted to Christianity in the last century. Education is in the hands of the missionaries.

Happiness From Within.
Happiness is from within, the thankful heart and the habit of taking pleasure in the little things of today. Cast the balance of every day to the credit side of happiness. Otherwise your life is insolvent. Often you see people flashing along the road in a seven-passenger, six-cylinder automobile, oblivious of the million-dollar scenery along the way, their minds dwelling on the 10-cent lunch awaiting them in the wayside inn miles beyond. How many people spend their days and live their lives on that principle; missing the fine things of the soul for the petty indulgence; passing by the big opportunities along the way for trivialities in prospect.—Humphrey J. Desmond.

Sells Gas by the Therm.
Under an act placed on the London statute book gas will in future be sold at so much a "therm" instead of so much a thousand feet. A therm is the name given to 100,000 British thermal units, one of the latter being the amount of heat absorbed in raising one pound of water one degree Fahrenheit. The first distributor of gas to announce its charges by the therm is the South Metropolitan Gas company, which from the date of reading meters for the Michaelmas quarter will charge 21 cents a therm. The gas is declared to contain 550 British thermal units in each cubic foot.

Her Gift.
A young woman was interested in charity work and in one family where she visited there was a little girl whose hair was the same shade as her own. Wishing to show her appreciation for the visitor's kindness, the child called at her house one day and gave her a package, saying it was a little present for her, then ran away. On opening it out fell the child's lovely braid—the only thing she had in abundance.
