NEWS IN COLVILLE

Earle Gates and sister Miss Bertha Gates, accompanied by Miss Dorothy Dexter, motored to Spokane Tuesday.

Miss Edith Folsom of Portland is visiting at the home of Mr. and Mrs. M. A. Rodman.

Fred Douglas of near Meyers Falls was in town Thursday transacting business. He reports that he is doing his spring plowing and that his neighbor B. Basham, who lives up on the crest of the mountain, is also plowing. He says that it is remarkable to see this, with so late a spring. The farmers over the Colville valley are all busy and there are not many farmers who are not doing their plowing and making a good headway with all spring work.

E. S. Crandall, barber at the Central barber shop, motored to Kettle Falls Sunday on a fishing trip. He reports catching a ling measuring 27 inches in length.

Mrs. Sadie Lewis left Tuesday for Conception, Mo.

Mrs. E. C. Conner is ill at her home on west Fifth avenue.

Joe Scobain of Northport was a business visitor in Colville Thursday and Friday.

The ice and slush on Black lake and the Pend Oreille lakes are so deep that there will be no fishing there tomorrow. There is yet at least 18 inches of snow on the trail to Black lake.

Mrs. Glen Crewse and Mrs. E. R. LaVigne entertained at dinner Monday evening in honor of Miss Lauretta Craft, who is attending school at Cheney. The table was decorated with yellow daffodils. Those present were Miss Mary Mantz, Miss Lauretta Craft, Miss Twila Craft, Mr. and Mrs. J. H. Craft, Mr. and Mrs. F. R. Oberhansly, Mr. and Mrs. LaVigne and Mr. and Mrs. Crewse.

Rev. and Mrs. Fred A. Thomas were visitors at Dayton this week.

Miss Agnes Schrader and Ray H. Smith of Rice were united in marriage at the M. E. parsonage Monday afternoon by the Rev. Elton F. Spicer. The couple will make their home on a ranch near Rice.

Word has been received of the death of Francis E. Rew at Forest Grove, Oregon, April 8. He was born March 31, 1844, in Wisconsin, and at the opening of the Civil war he enlisted in Co. E of the 9th Minnesota infantry and served 3 1/2 years. At the age of 22 he was married and one child of that union survives. Some years ago he married Mrs. Anna Curtis, who now lives at Carnation, Ore. Mr. Rew was a deeply religious man and did gospel work for many years. He was a highly respected member of the Adventist church. Funeral services were conducted at Forest Grove by Rev. Allen Moon of that place and H. G. Thurston of Salem, at the Adventist church. Burial was at Yakima. Mr. Rew had many warm friends in Colville, where he and his wife lived for some time.

Miss Alvina Storm is again on duty at the Leader after an illness of several weeks.

The date for the Colville Chautauqua has been fixed for June 22 to 26, inclusive. The Chautauqua this year is on a non-guarantee basis thus eliminating a feature that has called for some criticism in the past. The local promoters pay a fixed sum to the Chautauqua management and retain all proceeds from ticket sales and single admissions. They will also fix the price at which tickets are sold and by devoting any proceeds above actual expenses to the promoting of the Chautauqua in the future, or any other educational or charitable purpose, the war tax will be eliminated. This makes it possible to reduce the price of tickets about ten per cent. Owing to a decrease in the cost of operation it is possible to give a superior program this year.

Mrs. Guy Jameson, intertype operator on the Examiner, has been confined to her home this week with flu.

Claude C. Casey of Chewelah was a business visitor in Colville Wednesday.

Willett Bros. have been demonstrating a new Wehr tractor road grader on the streets this week. The city has virtually closed a deal for this grader and the Fordson tractor that goes with it. The grader weighs 465 pounds and is attached underneath the body of the tractor. It is a neat equipment for grading roads and far surpasses the old method by teams for light grading.

Thos. Loucks and sister Evelyn were Spokane visitors this week.

Mrs. Thomas Aspend visited her daughter Mrs. Lloyd Dodson at Chewelah this week.

W. E. Ketchum and family have moved from Third and Wynne to the residence east of the brick school, vacated by F. P. LaSota, who moved to Northport.

Dr. W. A. Olds was a business visitor in Spokane Monday and Tuesday. The little child of Mr. and Mrs. A. J. Howard has been quite sick this week with tonsillitis.

Mrs. W. R. Phillips will be moved from the Mt. Carmel hospital this week to her home. She is improving slowly.

Miss Doris Forney of Addy has been visiting Miss Oliva Olds this week.

Mrs. F. J. Jetter of Chewelah was a Colville visitor Friday.

Dr. W. A. Olds was called to Kettle Falls Thursday owing to the serious illness of Mrs. W. G. Welch of that place.

Mrs. Roland Dupuis was hostess to a party given by the H. G. L. club at the home of Chas. Wingham, Friday evening, April 21, in honor of the husbands of members of the club. The evening was spent at cards and refreshments were served. Prizes went to Mrs. Roland Dupuis, E. C. Conner, Mrs. W. Jesse Pinkston and H. D. Williams.

The amount of school funds received from the county and state for the April apportionment this week and apportioned to the 118 districts by the school superintendent was \$90,350, the largest sum ever apportioned in Stevens county. The state funds are apportioned according to the daily attendance; the county funds are apportioned differently, two-thirds being apportioned according to the daily attendance, and one-third according to the number of teachers employed.

On Friday of last week Messrs. Hugh Waddell, Wm. Waddell and Matt Scherette drove to Mill creek in Mr. Scherette's car on a fishing trip. They reported a catch of 106 nice trout, averaging about 8 inches in length. Some were less than this measurement while a few of them measured as much as 12 inches. They are firm in the belief that this is the biggest catch of the season.

Mrs. Anna Cattle left for Spokane on Saturday after spending a few days visiting friends in the city.

The infant son of Mr. and Mrs. J. H. Collins of Spokane was buried here Thursday, Father Boll having charge of the funeral services.

St. Ann's guild of St. John's Episcopal church entertained for Mrs. Patrick Keron on Thursday. Mrs. Keron leaves soon for Siamoose, B. C., where she will make her home.

Mrs. Anna Elschner, wife of Herman Elschner, two miles southwest of Palmer Siding, died of pneumonia April 27. She was born in Germany, Jan. 11, 1862. The funeral was under the direction of the McCord undertaking parlors. Services were held at the Congregational church by Rev. J. M. Huggins. She was buried in Highland cemetery. She leaves a husband, Herman Elschner, and a daughter, Hilda Hultai.

LURE THAT TEMPTED MANY

Adventurers as well as Dreamers Sought Vainly for the Fabled Fountain of Youth.

In that far-off, never-to-be-discovered country in that region which has shifted and changed just as men's minds alter and expand, in that mystic Bimini was thought to be the spring which, if tasted by mortals, would assure them immortal youth. On that island bubbled a fountain whose waters healed all manner of sickness.

The lure of the Fountain of Youth seized upon not only the dreamer, but caught the fancy of the bold adventurer, Ponce de Leon, and the redoubtable De Soto sought to taste of its life-giving fluid, and it is perhaps the mystery and wonder, coupled with desire, that brought about the discovery, not of the fountain, but of that part of our country known as Florida.

It was on the 27th day of March, 1513, that Ponce de Leon sighted land which he thought was an island. On April 8, which was Easter Sunday, he took possession of the country in the name of the king of Spain and called it Pascua Florida in honor of the day. He explored the country and was obliged to battle with the Indians, and after many adventures, which included another voyage in 1521 to found a colony, this intrepid navigator succumbed to a wound inflicted by a savage, and died while his vessel was making for the island of Porto Rico.

DANGER IN ELECTRIC CURRENT

Neither Fixtures Nor Appliances Should Ever Be Touched by Anything That Is Wet.

No electric appliances should ever be placed where a person in a bathtub can reach them. Such is the assertion of Dr. A. Zimmern in the Presse Medicale (Paris) in commenting on the death of a colleague. Electrocutation has taken place with a current of only 110 volts under such circumstances.

The reason is that the water on the hands and body provides exceptionally favorable conditions for conduction of the current. It is not safe to touch even an electric light, heater or bell when in the bath. Doctor Zimmern cites recent cases as follows:

A woman killed by holding an electric light in one wet hand while turning a water faucet with the other; a woman killed by wiping with a wet cloth the current distributing apparatus for an electric heater; a man receiving a severe shock by taking hold of a chandelier while holding an electric light suspended by a wire.

It is very dangerous to change an electric bulb when the hands are wet or the floor is wet; a slight defect in the insulation may cause a severe shock or even death.

Rat Virus Has Failed To Exterminate Squirrels

A good many inquiries have been addressed to the county agent's office relative to the so-called rat virus for the extermination of the ground squirrel. The following quotation is taken from a letter received from John Finley, biological assistant of the bureau of biological survey:

"Your letter of March 9 has been referred to me for answer, and in reply will say that my personal experience with the use of rat virus has proved very unsatisfactory. Experiments that we conducted with this material last year, showed this material to be practically worthless. The only way we could get results was to inoculate the rodent with a hypodermic needle. It may be that some virus will be perfected in the future that will be effective. But until then my advice would be to stay with the formulas that we have tried and know to be good."

Fabrics That Keep Pace With Winter Activities

SOMETHING new, something different—for the dance, the bridge party, the reception. Our Piece-Goods Department offers you a most tempting array of fabrics—all the new ideas and shades in crêpes, in satins, in brocades.

To make the fabrics even more enticing, the prices at which we offer them are most happily moderate. And augmenting this economy comes another new economy—an economy exclusive with the Deltor—that wonderful picture-guide to money-saving and Parisian charm—accompanying each Butterick Pattern and especially planned for the pattern it accompanies.

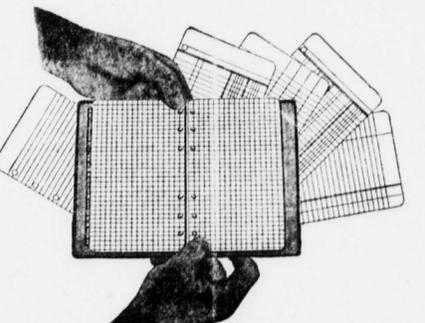

The first thing the Deltor does, is to give you an individual layout chart (yes, individual, not just a general chart, but one for your exact size and for every width of suitable material). Because of this chart your pattern envelope specifies 1/4 to 1 1/2 yard less material—a saving of 50c to \$10!

Then, stitch, by stitch, as your needle flies in and out, basting, then stitching, just as the DELTOR's picture-and-word illustrations show, something more than a correctly draped frock grows beneath your fingers. All unconsciously, you have sewed Paris' own distinction into your gown!

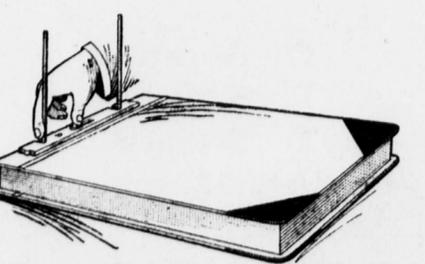

And finally, the DELTOR will tell you the French modiste's own answer to every perplexing question of finishing or adornment—all those important little things that make the difference between "just a dress" and a "creation from Paris."

New Fabrics! New Fashions! New Values! Come to this store and enjoy all this wonderful good news!
