

MEMORIAL DAY

Tuesday, May 30

In tribute to its war heroes, the nation sets aside the 30th of May of each year for the purpose of paying homage to their memory.

The Great World War added many names to our already long list of soldier and sailor dead and celebrated a deeper significance to our solemn observance of the day.

In honor of the fallen heroes this bank will be closed Tuesday, May 30.

GREAT SAYINGS AND WHAT THEY MEAN

"Be not the first by whom the new are tried, nor yet the last to lay the old aside."—Pope.
In other words, don't be the last one to discard the old wood range to the realm of antiques. When the iron age came into being the steel range made its appearance and cooking over the open fire amid the smoke and cinders became a memory. Many were slow to adopt the range, but its superiority over the open fire could not help but win their confidence and they at once saw what they had missed. Now comes the electric range, as far superior over the wood and coal range as the coal range was over the open fire. Superior because it is more sanitary, economical, and efficient. We sell on terms.
