## GRAIN INSPECTOR ON STATE CROPS

Says the Yield in Eastern Washington is Very Uneven This Year.

Tacoma.—New wheat is arriving here at the rate of fifteen cars daily. The grains are plump and sound and show no effect of drought or disease. Contract prices continue to go up in the east side cereal districts, according to news received at the state grain inspector's office. At last reports club wheat is being contracted for at 62 cents and 63 cents a bushel, and blue stem from 65 to 70 cents.

Deputy State Grain Inspector King has received the following interesting letter from State Grain Inspector Arasmith, who is now at Colfax:

"I spent several days last week driving through the grain districts in different parts of Whitman county. From ten to twenty miles west and southwest of Colfax I saw wheat and barley thrashed of an excellent quality. The best yield I heard of is a field of 170 acres of club wheat eight-een miles southwest of Colfax, which averaged forty bushels to the acre. This is a very fine piece of grain and is supposed to be the best in that locality. There are other fields in the same vicinity which are yielding as high as thirty bushels to the acre, and in the same vicinity some are reported as low as fifteen bushels to the acre, the quality of the land and the climatic conditions being the same. I attribute the great disparity in yield to the different methods of farming. When traveling through the country I have seen fields of wheat, which I should estimate at thirty bushels or more per acre, whilst in an adjoining field would be seen a crop which would not yield to exceed fifteen bushels to the acre. All of this is due to the methods employed by the different farmers.

"In the vicinity of Pullman many crops of wheat have been cut for hay on land which ordinarily produces from thirty to forty bushels of grain to the acre. I am told this is due to seeding of summer-fallow land this spring instead of last fall, the cold, backward spring and summer retarding the growth of the wheat, while the wild oats never fail to begin and continue a vigorous growth from the time the soil is stirred in the spring until they obtain maturity. This state of affairs has this year produced many fields of wild oats that should have been fine and profitable fields of wheat instead.

"Harvest work will be in progress in the eastern part of this county this week, which will enable me to procure samples and learn more about the ultimate yield of the crop in this section.

"If the heavier soils do as well in proportion as the lighter soils, our former estimate of 75 per cent of last year's crop as the probable volume of this season's yield will be too low. With favorable weather conditions for harvesting I am inclined to believe this year's crop will reach 80 or 85 per cent, of last season's yield. If the estimate is correct this year's crop with the great range of prices will place more cash in the hands of the farmer than did the crop of last year."

## HITCH AT WEDDING OF SENATOR HEYBURN

Marriage License Had Been Obtained in Wrong County and Ceremony Was Delayed.

Weschester, Pa.—The romantic marriage of United States Senator Heyburn, of Idaho, to Miss Mabel Geraldine Yeatman, divorcee of Dr. Joseph P. Pyle, of Wilmington, Del., had a striking culmination. When the Idaho senator sought to claim his bride at the Yeatman homestead, "Agaunneva," in Kennett township, he was informed that the license obtained in Philadelphia several days ago was not good, the law providing that the license must be taken out in the county where the ceremony is to be performed. It was a rude awakening, and for a time there was consternation among the principals to the proposed marriage and the guests, for fear a postponement of the ceremony would be necessary.

Senator Heyburn displayed some western hustling ability, and, after much telegraphing, hurried driving and a rour's delay, a new license was secured.

It was as simple a Quaker wedding as the strictest Pennsylvania Friend ever heard of, and yet from that scene of rural simplicity, amid the trellises of flowers that overhung each door and window of the Yeatman home, the bridal couple merged to board their own luxurious palace-car, with all its finery and retinue, bound on their trip to the Great Lakes, thence by steamer and trains to the Pacific coast, there to take the richest of steamship suites for a trip to Alaska.

## FINES ARE HIGHER BUT RENTS LOWER

Mayor Boyd's New System of Regulating Tenderloin District in Spokane.

Spokane.—One of the most sweeping police regulations of the year has been issued by Chief Woydt to be carried into effect by Captain Coverly of the local force. The communication regulates the fines of the inmates of the whitechapel district and also covers the rents to be charged by the owners or agents of the blocks according to the police dictates. Several restrictions of importance are placed upon the landladies of the various "parlor houses."

The communication as issued by Chief Woydt is as follows: James Coverly, Chief of Police.

Dear Sir—Pursuant to an order issued by the police commissioner on August 1, 1903, relative to an order issued by Mayor Boyd for the regulation of rents for buildings used for parlor houses and cribs in the "burnt district," as well as regulating the fine which shall be paid by landladies in parlor houses and occupants of cribs in said district, you will notify all persons interested as landlord or agent, that from and after August 1, 1903, the maximum rent per month for parlor houses and cribs shall be as follows:

- The Franklin \$200 (now \$300) per month.
- The Windsor \$160 (now \$175) per month.
- The Harlem \$130 (now \$175) per month.
- The Castle \$170 (now \$200) per month.
- No 521 Jap. alley, \$12 per week.
- No. 59 Klondike alley, \$11 per week.
- All other cribs \$10 per week (now \$14 per week.)

You will also notify the landladies of parlor houses that from and after this date they must pay a fine of \$15 per month and the further sum of \$10 per month for each inmate thereof. The landlady will be held responsible for the full amount.

You must also notify the landlady that she must not exact more than \$5 from each girl inmate per month and any effort to collect more from them in any manner or form will be punished upon complaint being made to this office.

All occupants of cribs will hereafter be required to pay \$15 per month. E. M. WOYDT, Chief of Police.

Wasn't That Mean? "Speech," remarked the female philosopher, "is often quicker than thought."

"Yes," rejoined the masculine animal. "I'm reminded of that fact every time I hear a woman talk."

Ethel—Yes! The poor chap has lost his money but not his friends. Edith—Ah! That is what you might call a double misfortune.

## NO EXTRADITION FOR WATELET

Governor McBride Sends Ohio Sheriff Back East Empty Handed.

Olympia, Wash.—Governor McBride has refused to honor requisition papers from the governor of Ohio for the return to that state of Paul Watelet, who is under custody at Spokane on a charge of obtaining money under false pretenses.

Sheriff Frank McKinney of Canton, Ohio, and his deputy, J. H. Alexander, appeared Monday and made application for the proper papers and an imposing array of legal talent from the city of Spokane appeared before the governor and argued the case, the defendant being represented by two attorneys of Spokane.

There has been a big legal fight over the matter and Sheriff McKinney started east much disappointed. The charge of obtaining money under false pretenses in this case grew out of a mining deal in which it was alleged that Watelet made a false report on diamond drill work done by himself on the Cowlitz mining claims in Stevens county. Upon this report he said to have sold to J. Carnahan of Canton, Ohio, the complaining witness, stock amounting to \$4,000, for which cash was paid.

Under orders from the Canton officials some days ago Watelet was arrested. Farnk Post and Fred Dudley, legal representatives of Spokane, appeared in his behalf before the governor.

Miles Poindexter and S. H. Domer, both Spokane attorneys, appeared for the state. Sheriff McKinney and his deputy were present at the hearing. Dr. J. S. Kloeber of Green River hot springs, and Ben Norman of Spokane appeared as witnesses for the defendant. When the arguments were concluded Governor McBride declined to grant the requisition, stating that he was convinced that the complaining witness was not acting in good faith.

## DID NURSE KILL HIM.

Death of Pioneer a Mystery.—Suspicion Falls on a Woman.

Eugene, Or.—Anthony White Laughlin, an old pioneer of 88 years and a former resident of Lane county, died last Saturday at Butte, Mont., where he has resided for the past few years. He came to Oregon among the first settlers and fought the Indians in the famous Rogue River Indian uprising a quarter of a century ago. For his services he had just received \$212 from the state of Oregon as his part of the \$100,000 appropriation for Indian War veterans.

The circumstances of his death are somewhat suspicious. He had deeded all his property, consisting of two houses in Butte and considerable personal property amounting to about \$10,000, to his nurse, Miss Lillian Hare, having no relatives. He was in good health and died suddenly Saturday morning. Miss Hare ordered the funeral to be held at 4 o'clock on the same afternoon, with no announcement of the funeral to his many friends in Butte. Since then the young woman has not been at home to friends and detectives have been working on the case.

Deafness Cannot Be Cured by local application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
