LOCAL AND WORLD'S WHEAT MARKETS ON TOBOGGAN SLIDE TODAY.

Chicago December Wheat Dropped Off a Full Cent and a Half—Local Quotations Were Weak.

A general low tone prevailed in both the local and foreign wheat markets today, local dealers quoting club at 64 to 65 and bluestem at 69 to 70 cents, wheat on board cars. A lack of export business and the general low tone of the world's market is the cause for the local situation. Chicago December wheat sagged a full cent and a half on heavy selling, opening at 82 and closing at 80½. May wheat dropped off a quarter of a cent and Liverpool closed an eighth of a penny lower than yesterday's close.

SOLD HIS EAR, WANTS ANOTHER If His Deal With a Hungarian Miner of Wisconsin Goes Through He Will Clear \$4000.

IRONWOOD, Mich., Dec. 9.—A decided slump in the ear market was re-

corded today, when a Hungarian miner of this place received a bid of \$1900 sent him by the Pittsburg man who recently sold his own ear, and who is now anxious to secure another in its place. The Pittsburger permitted his ear to be severed and grafted upon the head of a wealthy western mining man, who paid him \$5000 for the organ. The operation was successful, and now that it is over, the man from Smoketown proposes to replace his lost ear at an expense of only \$1000, thus making \$4000 through his deal.

The letter sent here made a straightforward offer which will be accepted, the Hungarian having taken medical advice and having been informed that the operation proposed is not dangerous. He received the letter through having answered the original advertisement, offering \$5000 for an ear, his tender at that time not being accepted.

KISSED HER—MUST GO TO JAIL NEW YORK, Dec. 9.—Deputy Sheriff Louis T. Cook of Woodmere, L. I., has been found guilty by a jury there of having kissed Miss Mary Sullivan, a pretty school teacher, against her will.

He was sentenced to three months' imprisonment but took an appeal. The trial which lasted two days and was held behind closed doors, aroused great interest in the neighborhood. The alleged offense was committed while Miss Sullivan was riding with the deputy sheriff in his carriage, her bicycle having broken down on the road.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Cartarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Cartarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CLAIMS BILLION OF PROPERTY.

The meeting will be the culmination of the first phase of the crusade. For two years Henry Pennington Toler, who recently sold his seat in the stock exchange to devote himself to this enterprise, has been hunting down the heirs of the twenty-two original members of the Harlem corporation, to whom the British king gave a charter, conveying the upper part of Manhattan and all corporate rights. The number of heirs is found to exceed 49,000, of whom 17,000 have been fully traced. The genealogical books just issued, by the crusaders are the largest in the world. To complete them and to carry on the extraordinary search over half the world, Mr. Toler is said to have spent \$150,000. Other Efforts Failed. Many individual efforts to claim the "undivided lands" of Harlem have been made and failed. The leader of the present movement claims that the only way to succeed is to revive the town and make demand as a corporation. Immediately after Monday's meeting, at which town officers will be chosen, just as if the last meeting had been held but a year ago, a test suit will be begun against the present holders of some piece of the land claimed. The whole movement has a Christian Science inspiration, and is said to have the direct approval of Mrs. Mary Baker Eddy. Mr. Toler is the initiator of the movement, but every step he has taken is in accordance with the plan known to Mrs. Eddy. Moreover, all of Mr. Toler's assistants are Christian Scientists. It was said today by a Christian Scientist who wished not to be quoted that the movement was toward a "New Jerusalem."
