

RIELLY IS COMING

CALIFORNIA BOXER LEFT SAN FRANCISCO FOR THIS CITY LAST NIGHT.

Is Reported to Be in Excellent Condition for His Go With Wardinsky.

A telegram yesterday from "Jack" Rieley, the California boxer, who is matched to meet Joe Wardinsky at the Walla Walla Athletic club New Year's eve stated that he would leave San Francisco last night for Walla Walla. Rieley may be accompanied to this city by R. B. Smith, a welter weight who is in Ogden at present.

Rieley is reported to be in fine condition. He was scheduled for a 20-round go at Oakland the 14th, but at the last moment the match was declared off. A few days work will put him in excellent shape for his bout

with Wardinsky who is putting in from five to seven hours a day getting ready for the contest.

Rieley is credited with being one of the cleverest boxers on the coast and club members are looking forward to a rattling good exhibition. The match will be pulled off under the auspices of the club which holds a state charter for holding boxing matches and athletic events.

STRUCK IT RICH.

Former Walla Walla Said to Have Good Paying Prospects.

According to reports received by relatives in this city, Spencer A. Pelkey, a former resident of Walla Walla has made a rich strike in the Sumpter mining district. Pelkey and two others are interested in three claims in Bear gulch about three miles from Sumpter. A recent assay from the Yankee Girl, one of the mines owned by the three gentlemen, showed the remarkable value of over \$1500 to the ton. The assessment work consists of a shaft on the hanging wall, and it was here that the high values were encountered. So little work has been done that it is impossible to determine the extent of the rich ore that was struck in the shaft. The dyke itself carries a width of about nineteen feet.

WALLA WALLA ART CLUB ENTER PROTEST AGAINST LOCATION OF FIRE STATION.

Are of the Opinion the Ground Should Be Used for Park Purpose—Will Appeal to Council.

The Walla Walla Art Club is offering objections to the erection of a sub-fire station at the corner of Alder and Park streets. At a recent meeting of the club the subject was discussed and a committee was appointed to confer with the council about the matter. The council will be asked to hold a special meeting next Tuesday evening in order that the club's committee can be heard.

In speaking of the matter this morning one of the prominent lady members of the club said:

"The duty of guarding a growing town from disfigurement by unsightly or badly located buildings and the loss of spots of open ground which would be of great advantage to the appearance of the city, if kept for the benefit of the public is one too often overlooked. When too late almost every town deplores the lack of beauty which a little timely thought might have prevented."

"That Walla Walla has the natural advantages which if husbanded will make it noted for its beauty, and attractiveness as a place of residence, one has but to look around them. Our mountain streams of clear water with its strong bed and beautiful banks is a thing of rare beauty. A choicer spot than the approach to the bridge on Park street, a meeting of so many streets with the views of up down the stream it would be difficult to find."

"It is now proposed to place a wooden fire house on the bank at the bend of the stream looking down Alder street and shutting off the view at the junction of these streets which is one of the most beautiful in town. The spot is too cramped for a building of such a kind and it would be most unfortunate to have any building placed upon this bit of land which should be parked and kept open as a choice bit of natural scenery in the heart of our city."

"The location and all matters connected with the erection of this building are to be decided upon at a meeting of the city council called especially for that purpose next Tuesday evening."

"Now is the time to protect the beauty of our town."
