FORTY GAMBLERS ARRESTED

Chief Gurdame of Pendleton Makes Roundup of Tin horns.

RAIDS FOUR OF THE LEADING SALOONS

GREEN CLOTH ARTISTS PAY FINES OF \$25 EACH AND ARE NOTIFIED TO STOP.

A moral wave of gigantic proportions struck Pendleton Tuesday night when Chief of Police Gurdame and four policemen raided the Columbia, 10th Hour, Rainier and Exchange saloons and arrested 40 gamblers found in the resorts.

The alleged gamblers arrested were: R. Johnson, Clark Cunningham, C. B. Ross, John Page W. G. Fisher, E. Mason, J. Berbaum, A. R. Rothrock, H. E. Parkes, Tom and Hally (Japanese), four Chinese, W. Wells, O. D. White, J. E. Johns, C. Elishman, Bert Townsend, Ed Bard, M. G. Charser, S. B. Pate, — Morris, J. P. Miller, A. Proshy, H. Aldrich, — Warner, William Wambough, Steve Noble, A. B. Stephens, G. S. Miller, J. M. Parker, W. F. Dorothy, John Scogland, F. R. Moran, Lester Swaggart, W. O. Rust, — Wesley, — Noble.

Chief Gurdame and Mayor Fee announced a few days ago that gambling must stop in Pendleton and followed up the edict by raiding the four saloons where gambling is said to have been conducted for several weeks. The raid was planned with the greatest secrecy and the gamblers were surprised when the officers swooped down on the games and placed everybody in the rooms under arrest. The officers had two more places under their eye, but the gamblers were given a tip that a raid was being made and the games were closed down and the paraphernalia hustled out of sight before the officers arrived. Several of the gamblers appeared before the recorder yesterday afternoon and paid fines of \$25 each.

"DUMMY" NOTES FOR MILLIONS.

Chicago Financier and His Associates Face Certain Prosecution. CHICAGO, Ill., March 15.—Thirty or more prosecutions are now threatened in consequence of the failure of the banking institutions of John R. Walsh. It was revealed today that the operations of the former president of the Chicago National bank in the issuing of "dummy" notes were

on a more stupendous scale than has heretofore been suspected. Twenty-nine notes, calling for the payment of \$2,628,000, have been uncovered in the assets of the Chicago National bank. Drastic action against every man who has committed a criminal act in connection with the Walsh failure is announced as the policy of the government in Washington.

Chicago bankers have cast off restraint and today began caustic criticisms of the course of the controller of the currency, William B. Ridgeley, in connection with the Walsh affairs.

Several subpoenas were issued at the instance of Assistant District Attorney Childs today, in the John R. Walsh case, which comes before Commissioner Mark A. Foote a week from today. Strict secrecy was maintained as to who was cited as witnesses. Four arrests are probable.

It was announced today that the entire railroad holdings of Walsh had been disposed of within a few hours before the arrest of the former banker, and that the government delayed action, at the instance of the clearing house, until the transaction was completed. Those who are handling the case deny that conspiracy to loot the bank could properly be charged.

GRAFT IS FOUND.

County Treasurer's Office Is Raided by Graft Investigators with Results.

CINCINNATI, Ohio, March 15.—The Drake investigating committee went fishing for graft and had good luck from the start.

The first county official to come under the scrutiny of the legislative committee was County Treasurer Hynicka, one of Cox's lieutenants. He admitted that he had deposited large sums of county money in Cincinnati banks; that the county received no interest, but that the banks had made him personal gifts of cash aggregating \$20,000 in the last year and a half.

Treasurer Hynicka declared that he regarded the \$20,000 given him as a "donation" and that he kept it for himself.

Before the testimony of Treasurer Hynicka several bankers had testified to the payments of gratuities of various persons connected with the county treasurer's office, such payments being as an expression for the deposit of public funds.

The committee will investigate allegations of graft in city and county offices. It has voted to permit none of the officials who may be investigated to be represented by counsel, for the reason that "it would take too much time."

OPENING OF LAKE NAVIGATION

Practically Opened on All of the Great Inland Waterways in United States.

PITTSBURG, Pa., March 15.—On account of the unusually mild weather the lake navigation has been practically opened here today, fully three weeks ahead of the usual date of opening. Several steamers and sailing vessels at different lake ports are loading or are already loaded and prepared to start. Owing to the early opening of navigation a record-breaking season for shipments by way of the lake routes is expected. The vessel operators and lake carriers have greatly enlarged their fleets of lake boats for this year's service, while almost every dock on the lakes has been increased and improved. The Wabash, Bessemer & Lake Erie, Pennsylvania, Baltimore & Ohio, New York Central and other roads have spent many millions of dollars to improve their dock facilities.

Shipments of coal for the northwest and for vessel fuel from the lake ports is 1905 amounted to 15,458,545 tons. This was a slight decrease over the record of 1902, when 17,710,001 tons were forwarded from the ports, and an increase over 1904, when the shipments amounted to 14,946,760 tons. The soft coal shipments alone in 1905 were 9,489,057 tons, which was the largest tonnage for soft coal on record. The iron ore tonnage of the lakes in 1905 amounted to more than 30,000,000 tons. The figures for 1906, because of the early opening of lake navigation and of the hearty business tone, will be larger, it is expected, than in any former season.

REMOVE MECHANISM.

Larynx, Part of Pharynx and Base of Tongue Removed from Patient.

BALTIMORE, Mr., March 15.—One of the most remarkable operations ever performed on the throat has just been pronounced a success at the Maryland University of Medicine hospital. It was the work of Dr. Randolph Winslow, professor of surgery. After giving only a local anesthetic to a patient who was in poor physical condition, he removed a tumorous growth from the hyoid bone, extracted the larynx, part of the pharynx and the base of the tongue.

Only about four other such cases are on record in the history of surgery, and but one has met with complete success. The patient, who is a man of about forty years of age, is in an improved condition and on a fair way to recovery.

As all the mechanism of the throat was removed, the man is speechless.

Several months ago the patient underwent a slight operation in a Philadelphia hospital, but at that time the malady was not attributed to cancerous growth. Before Dr. Winslow operated the man's breathing had become almost impossible. It was discovered that he was suffering with aphasia. Emergency tracheotomy was found necessary, and a tube was inserted in his windpipe in order to prolong life, for at that time there was little hope of his recovery. To add to the delicacy of the operation the growth was in proximity to the anterior jugular vein.

Marries Stenographer.

BOSTON, March 15.—One of the leading manufacturers in this state was a principal in a romance which caused considerable surprise this week. Samuel Raynor Whiting, of Holyoke, and secretary of the Whiting Paper company, married his stenographer, Miss Gertrude Lillian Greeley, a handsome blond of 25. Miss Greeley was born in Chicopee Falls, but has lived nearly all her life in Holyoke. She is said to be one of the most rapid stenographers in the world, and was sent to the World's fair at Buffalo to give demonstrations of the fact. Her father is foreman of a cotton mill in Utica, N. Y. After the fair she returned to Holyoke and soon found employment with the Whiting company. Samuel R. Whiting is the eldest son of former Congressman William Whiting, who established the great Whiting plant which made him a millionaire many times over. His son is now practically the head of the concern. He is 39 years of age and this is his second marriage. His first wife was Mrs. Robert Seymour, a prominent society woman, whose death occurred a few years ago.

Effect of Boycott.

BOSTON, March 15.—Some of the mills of New England are already beginning to feel the effect of the Chinese boycott on American goods. While the manufacturers are unwilling to admit that they are all concerned over the Chinese trade, and declare that the worst effects of the boycott will be felt in the south, where cheaper classes of goods are made, reports from a number of centers indicate that the Chinese are already having their revenge. In Chicopee, for instance, where some of the mills made special lines of fabrics for the China trade, no orders have been received for months. Fall River has also been affected, and in Maine the mill owners of Waterville and Biddeford are watching conditions in the east with more than ordinary interest. It has been difficult, however, to determine just what the effect of the boycott has really been for the reason that most of the Chinese trade is done through New York, the houses there ordering goods from the New England mills without giving any information as to where the goods may go ultimately.

BEAL WILL GET ANOTHER JOB

Scheduled for Stewardship of Steilacoom Insane Asylum—Mrs. Herman Is to Go.

According to a report that comes from Tacoma, C. N. Beal, brother-in-law of Governor Mead, is to be appointed steward at the Steilacoom asylum for the insane. S. C. Woodruff, who has held the place for some time, has resigned, owing to a disagreement with Dr. Van Zandt, the superintendent. When Woodruff resigned the governor announced that he would abolish the office of steward at the asylum, but the board of control objected, and now Beal is to have the place. Beal is at present quartermaster at the soldiers' home. The governor had promised the old soldiers to remove Beal from his present position, as he had only been sent there for a short time, just as he had been to other state institutions, to be the "eyes of the governor."

MET WITH SEVERE WEATHER

J. J. Kauffman Returned This Morning From a Business Trip to Kearney, Nebraska.

J. J. Kauffman, of the Walla Walla Meat & Cold Storage company, returned last evening from a business trip to Kearney, Nebraska.

On account of the big snowstorms encountered Mr. Kauffman reports having a trip that he will remember for some time. At one point, Green River, Wyoming, his train was blocked for 24 hours. At Rolands, Wyoming, another fierce blizzard was caught up with. At this place the fury of the storm was such as to blow the roofs off of box cars.

Mr. Kauffman was in Nebraska purchasing hogs. He bought back with him several carloads of fine porkers.

KILLED WOMAN AND HIMSELF.

Double Crime of Louis Nossier in New York.

NEW YORK, N. Y., March 15.—Miss Estelle Young, aged 25, was today shot and killed by Louis Nossier, aged 25, who immediately committed suicide in his apartments in the presence of his wife this morning. The police are not satisfied with the explanations of Mrs. Nossier.

Two Other Americans Killed.

WASHINGTON, D. C., March 15.—Wood cables that Harry B. Rodebrough of the hospital corps was also killed at Jolo and that Roderick McDonald, of the hospital corps, was killed in an action in Cebu March 8. This is the first mention of the Cebu fight.

ONLY EIGHTEEN MEN LOST.

Some of the Crew of the British King Had Deserted.

NEW YORK, N. Y., March 15.—The steamer Mannheim arrived this morning with 11 survivors of the British King, including the third mate, who thinks that 18 may be all that were lost, some having deserted before the ship sailed.

Sherrick Found Guilty.

INDIANAPOLIS, Ind., March 15.—Former State Auditor Sherrick was today found guilty of misuse of state funds. Sherrick was given an indefinite sentence of from two to twenty-one years. He will appeal.

Ban on Town Topics. WASHINGTON, D. C., March 15.—Representative Bourk Cockran, New York, wants to know why the government permits Town Topics to use the mails. He introduced in the house yesterday a resolution requesting the postmaster general to state whether the occupation of the paper "in extorting money by blackmail" was in any way facilitated or assisted by the government through the operations of the postoffice department. "My only purpose in introducing this resolution," Mr. Cockran said, "is to find out whether or not the paper whose infamous character has been judicially determined can and does enjoy the facilities of the mails, while many another paper is thrown out on the order of the postmaster general where there is grave doubt of the propriety or soundness of the order."
