If you have read the story or seen the play this rendition will be a revelation to you. If you have not, the pictures will tell the story with the fullest comprehension of plot and action.

These films are the most remarkable that have ever been offered to the American Public.

Each One of the Five Acts is Full of Intense Interest.

PRINTERS TRY TO RUN BUSINESS

EMPLOYEES OF WASHINGTON PRINTING COMPANY ASSAULT MANAGER WHEN ORDERED OUT.

The unsatisfactory conditions that for some time have existed in the

plant of the Washington Printing company, being chiefly caused by several of the employees constantly antagonizing the management and preventing the business of the company being conducted as the management desires, culminated last night when the manager, Mr. Holland, ejected from the office several members of the local typographical union and three employees.

Would Coerce Foreman.
The immediate cause of the controversy was, that the executive committee of the union were endeavoring to

coerce the foreman into reinstating a member who had been discharged the preceding day.

Sunday evening, Mr. A. S. Dukenfield, the foreman, discharged H. F. Himenz, an operator, for not furnishing the required amount of type. Immediately afterward a chapel meeting was called by the other employees and the foreman was fined \$10 and ordered to reinstate Mr. Himenz. This Mr. Dukenfield refused to do, believing that the chapel had no such authority and that action must be taken by the entire union body after a hearing at which he would have a right to defend his action.

Evidently the executive committee took the matter into their own hands and were in the office to serve Mr. Dukenfield with their decision. Mr. Dukenfield was in the composing room 20 minutes prior to working time during which the committee made no effort to talk to him although they were in the room with him a considerable time before the gong sounded. One of the shop rules in force in the composing room of the Washington Printing company, and one that is enforced in every large shop in the country, is that when a shift begins work, the composing room is to be cleared of everyone not actually employed.

Baldwin Ejected.

Shortly after the gong sounded Mr. Holland walked into the room and seeing Mr. Himenz there called him and told him that he had no further business there and to get out, which he did. At this, J. M. Baldwin rushed at Mr. Holland and demanded to know what he had said to Himenz. Holland answered that it was not necessary to repeat it to him. At this, Baldwin made some retort and Mr. Holland, knowing him not to be working, ordered him to leave the room and followed him toward the door. When the door was reached, it is said, Baldwin turned and applied the vilest of epithets to Mr. Holland who then faced Baldwin about and kicked him out of the door.

Meadows Uses Metal Base.

Just then J. E. Meadows, who had left his machine, slipped up behind Holland and struck him a terrific blow over the head with a metal base, weighing several pounds. The blow cut the scalp to the bone, necessitating several stitches being taken by a physician. After being struck Mr. Holland

turned and caught Meadows and severely shook him. Mr. Holland then seeing that a concerted assault on him by Baldwin, who had returned to the shop, and his colleagues, was imminent, he rushed to the adjoining room and secured a pinch bar with which to defend himself. The printers evidently mistook this for a sign of retreat on the part of Holland and again rushed at him. Seeing he had secured a weapon of defense they desisted and immediately left the composing room.

Later in the evening Baldwin swore out a warrant for the arrest of Mr. Holland on a charge of assault and battery. The trial will take place before Judge Huffman tomorrow afternoon.

Himenz, who was discharged, finished his apprenticeship some months ago. The management of the printing company asserts that his output on the linotype has never been up to the standard but owing to their own interpretation of union rules, his friends in the typographical union have held him in his position. The foreman who discharged him is a member of the typographical union and stands high with the better element of the printers. Meadows just finished his apprenticeship on the Bulletin several weeks ago, but it is alleged he failed to make good with that paper and was discharged.

CITY NEWS IN BRIEF

In the superior court yesterday afternoon the law requiring buggy peddlers to have a license was declared invalid by Judge Brents. It was under this law that John Doe and Richard Roe were arrested recently.

Prof. A. C. Jackson and Miss Gena Branscombe left this afternoon for Pomeroy, where they give a concert in piano and voice tonight. The musicians will return tomorrow.

The Brotherhood of the First Presbyterian church will meet in the rector's room in the church tonight to lay plans for active and aggressive work. President James W. Cooper will announce the committees for the year and all members of the brotherhood are asked to be present.

A dance is to be given Friday night by citizens of Walla Walla, Milton and Esters of America, in the Odd Fellows' hall, Fifth and Main street.

Efforts are being made to arrange a baseball game between the Bears and Eks for the benefit of the park fund. The management of Meadows' park has offered the use of the grounds at that place and if possible the game will be pulled off in the near future.

Improved mail service is being asked by citizens of Walla Walla, Milton and Freewater among those places. With the interurban hourly service it would easily be possible to have mail three times a day and with but little addition to the present cost. A petition signed by practically every person interested will be presented to the assistant postmaster general in the near future and it is thought it will have the desired results.

LOUISIANA HAS AN ELECTION DAY

DEMOCRATS HAVE EASY SAILING AND WILL ELECT SANDERS GOVERNOR.

BATON ROUGE, La., April 21.—A general election for state officers is in progress in Louisiana today. There is no opposition worthy of the name to the democratic state ticket, headed by Jared Y. Sanders for governor, who will succeed Governor Blanchard on May 18.

Chief interest attaches to the vote on constitutional amendments. These include three amendments designed for the regulation of railroads and corporations, and are as follows:

Authorizing the legislature to institute legislation for the benefit of the railroad commission. Under the existing article of the constitution the legislature is powerless to act except upon the recommendation of the commission.

Subjecting transportation lines to fine for disobeying an order of the railroad commission, requiring them to enter the courts to suspend it; penalizing them at the rate of from \$10 to \$50 from date of the operation of the order if the judgment is against them, and

giving the commission jurisdiction over the service of the telegraph and telephone companies.

Prohibiting federal, foreign and non-resident companies from doing business in Louisiana when they sue in federal courts or transfer suits from the state to the federal courts.

Methodist Laymen Meet.

CHATTANOOGA, Tenn., April 21.—Hon. James Bryce, ambassador from Great Britain to the United States, will be the principal speaker at the opening session tonight of the Laymen's Missionary conference of the Southern Methodist church. Hundreds of delegates are in the city and it is estimated that the total attendance during the three days of the conference will reach nearly 2000. From an unpretentious organization at its inception, a little more than a year ago

the conference has become a highly influential body.

Fine Outlook for Fruit Is Reported From Idaho.

LEWISTON, Idaho, April 21.—The fruit growers throughout the valley are enthusiastic over the immense fruit crop is now assured. All danger of frost is past. Already apprehension is being felt that a sufficient amount of box material cannot be secured. The fruit on the apricot and almond trees is mostly set, and peaches, cherries and pears are in full bloom. The apples are also beginning to blossom and make a fine showing. The large cherry orchards are in their most beautiful stage. It is estimated that over 700 carloads of fruit will be shipped out of the Lewiston-Clarkston valley during the coming season.

FOUNDRY and MACHINE SHOP

Our facilities for repairing agricultural and other machinery are unequalled in the Northwest. Our charges are reasonable and work guaranteed satisfactory. We design and build to order machinery of any kind. Castings finished or unfinished to order on short notice.

Baking Powder, being indispensable in the preparation of our daily food, must be free from noxious ingredients

Complete purity and wholesomeness are the unquestioned characteristics of

DR. PRICE'S CREAM BAKING POWDER

Its active principle, cream of tartar, a pure, health-giving fruit acid, is derived solely from grapes

Poisonous ingredients are found in the low-priced baking powders. Their active principle is a mineral acid derived from sulphuric acid, oil of vitriol

Study the label and buy only baking powder made from cream of tartar
