Curtis Shows Nerve

The Immigration Men of El Paso, Texas, surprised a band of Chinese being smuggled into the U. S. near that place and Curtis single-handed stands fire of the unknown.

El Paso, Tex., July 25.—Teodoro Viegoso lies at the hospital ward in the police station with a serious pistol wound in his right side just below the shoulder blade, which it is believed to have received in a duel in the dark last night in which two Mexicans and Immigration Officer Van Curtis exchanged five shots.

Viegoso was found in a small Mexican adobe house near the immigration bridge on Santa Fe street at 10:30 o'clock last night, wounded and in a serious condition, just two hours after the immigration inspector had engaged in a duel in the dark with two Mexicans who were caught in the act of smuggling a bunch of Chinamen across the river.

At about 8 o'clock last night, Immigration Officer Curtis, who was guarding the river, ran upon upon two Mexicans in the Santa Fe yards piloting a half a dozen Celestials across the river. Altho alone the officer took the party by surprise, threw down on them and placed them under arrest. After firing his gun to signal other river guards to his assistance, the officer started with the bunch to the immigration detention station, a short distance away. He had five of the Chinamen and two Mexicans marching in front of him, and was holding onto one of the Chinamen, when one of the Mexicans wheeled, pulled a gun and opened fire on the officer. As quickly as possible the officer returned the fire and the Mexicans and Chinamen immediately broke and ran. All made their escape except the Chinaman whom the officer had held of, and whom he never released during the duel.

Five shots were fired in all, the Mexican firing three and the officer two. All of the Mexicans' shots went wild. Mr. Van Curtis is well known in Lynden, having only left here a little over two months ago, when he swapped places with inspector Yeungy, formerly of El Paso, later of Lynden, and now located at the Seattle office. When Mr. Yeungy was called to Seattle, our present inspector was moved over from Deming and the Deming office left vacant. Mr. Curtis served in this district for some nine or ten months and during that time made many friends, who will be proud to hear of this daring feat.

BIG CIRCUS AT BELLINGHAM. BARNUM AND BAILEY SHOW TO EXHIBIT THERE AUG. 18.

It is a pleasure to announce the fact that on Aug. 18, the Barnum and Bailey Greatest Shows on earth will give two performances in Bellingham thus affording an opportunity to the people of this city to visit the greatest amusement enterprise the world has ever known.

For fifty-four years the Barnum and Bailey show has led the world in all matters pertaining to big amusements. There is not a country on earth where it is not as well known as in America, nor a city of any size in the world where its mammoth tents have not been pitched. Royalty has applauded it and the peasantry has marveled at it, and all the world, civilized and savage, has contributed to its multiplicity of attractions.

The spirit of its great founder, one of the most wonderful men in all history, P. T. Barnum, still lives in the policy of the present management, while the perfect system put into operation by the great James A. Bailey, is still in operation. This season the show is much larger than ever before, and additional interest attaches to it because the parade, a feature which for several seasons has been missing, is again in its customary place.

For four years artists, sculptors and mechanics have been working day and night at the foreign workshops of the show at Stockton-Trent, England, building this great street pageant, and the result of their labors now is expressing itself in the most costly and longest street parade that ever passed through the streets of any city.

The program in the great exhibition tent opens with a new spectacle. The acts that follow are all European and of great novelty and variety. Of the 275 performers, nearly 300 have never toured America before. The climax of the bill is the most daring and wonderful exhibition of nerve and death-defying ever attempted. The act is called "Autos that Pass in the Air." As the name briefly explains, it is the passing of two automobiles high above the heads of the people, while leaping a 50-foot gap. The velocity is gained by a lightning-like dash down a steep steel incline, one machine plunging close behind the other. A sharp upward terminal of the track sends the automobiles up into space. One gracefully crosses the gap to a spring platform, the other turning a complete somersault around it and landing behind it.

The circus this season numbers 1,500 people, 700 horses, 108 cages of animals, 5 railroad trains, 20 camels and nearly all the elephants in America.
