LYCEUM COURSE

For Our Community This Season a Notable One.

A Feast of Good Things In Entertainments That Will Not Only Entertain, but Instruct and Inspire.

A feast of good things in entertainments that will not only entertain, but instruct and inspire, has been arranged for our community this season. The Lyceum course is becoming more and more a permanent institution in every town and city.

Some communities which have had a Lyceum course for years boast of a larger per cent of their young people in colleges than towns of similar size in the same localities which have not maintained a course. Many of our national problems, now considered paralytic, were first presented in a forcible manner to the American people from the Lyceum and Chautauque platforms. Much also has been done to elevate music and the entertainer's art from these platforms and to abolish or decrease the attendance upon mediocre and questionable shows.

The course of entertainments which are to appear here this season is booked through the Redpath Lyceum Bureau, the oldest and largest Lyceum in the world. The course will consist of the following attractions:

RALPH BINGHAM. Ralph Bingham, another number on the forthcoming entertainment course, is a humorist who for thirty-five years has been making large audiences laugh and still is in the prime of life. This is accounted for by the fact that his first appearance was at the age of six years, when he traveled as the "Boy Orator of America." His appearances on the American continent number nearly 10,000. The past summer he has been traveling in Europe.

T. De Witt Talmage, after hearing Bingham, said: "Bless Bingham and

RALPH BINGHAM.

all the apostolic college of humorists. The man that makes me laugh is my benefactor. God bless all skillful punsters, all those who mirthfully surprise us with unusual juxtaposition of words. This is a divine mission." Mr. Bingham is an impersonator, a humorist, a violinist, a pianist and a vocalist. The coming season his wife will travel with him and play the accompaniments for his vocal and violin selections.

Valet Work For the Horse. To give the horse a glossy coat wash him thoroughly with warm water and castile soap. When thoroughly dry rub sawdust in the wrong way of the hair and let it stay on all night. This remove in the morning with a stiff brush, being sure to get every particle out. Then take a flannel cloth, dampened with coal tar, and go all over the animal, after which rub him with an other cloth until he is dry, and the work is done. By dipping one's thumb in vinegar and placing it on the horse he can be made to look dapple, however, the point being to give the thumb a twist around in each place where a dapple is wanted.—American Cultivator.

Diets For Calves. Hay tea is recommended for calf rearing. Pour boiling water over good hay and let it brew, then strain off. Begin with three parts milk and one part hay tea and gradually work on to one part milk and three parts hay tea. About three quarts are sufficient at first and feed in a lukewarm state. There are innumerable calf rearing diets. Skim milk and a little wheat flour are given in some districts. Equal parts of milk and sweet whey are favored, while the use of oatmeal gruel is recommended by some. Of all homemade calf meals boiled linseed and sweet milk are probably the most favored.—American Cultivator.

Plan For Road Upkeep. Roadside fruit trees line one of the turnpikes in Fairfield county, O., for a distance of fifteen miles. It is planned to use the income from the sale of the fruit for repair and maintenance of the road.

A WORD FOR OUR FARMERS.

It does not follow that the American is a poor farmer because he produces less to the acre. He does this largely because the acre is worth less—because, in other words, the man is worth more. The American farmer produces more per year of labor than does the European farmer; he lives much better; gives his children a better education; has for himself more leisure. When land is worth several hundred dollars an acre and labor but half a dollar a day, then we, too, can make the soil produce more per acre.—Country Gentleman.
