

ELDER AND PACE

PURE FOOD GROCERS.

Prices are going Up

on nearly all standard groceries. It will therefore pay you to look over your supply and order anything you find low. Many articles will be higher if you wait until you are out.

Prices have not advanced on many articles which we had in stock and which we are selling for less than we would have to pay for them wholesale.

We are taking all the advantage we can of the market, but will not sacrifice the freshness of our stock to save one or two cents in buying.

There is no line of business in commercial life where QUALITY is so absolutely essential as it is in GROCERIES. Whatever you buy from us is of the QUALITY KIND.

Call and Inspect Them

years ago was re-affirmed and the following resolution, drawn by a committee consisting of Mrs. Harriet Owen, of Blaine, J. P. Lawrence, of Ten Mile, and Fred Prouty, of Ferndale, was adopted:

"Conscious of the rectitude of the principles promulgated by the Progressive party, and the spirit of righteousness, loyalty and fidelity with which it was baptized at its birth in the city of Chicago, August 7, 1912, we, the members of the Progressive party of Whatcom county, Washington, in mass convention assembled, do hereby re-affirm our fealty to the principles of the platform of the Progressive party, as adopted at its first national convention, Chicago, August 7, 1912.

"We hold that the principles of the Progressive party are essential in the life of our republic, a party that stands for the uplift of humanity and wages war against the worship of the golden image of special privilege, and demands that the wage earners of our nation shall be entitled to just and fair consideration in adequate compensation and humane hours of toil and labor.

"The Progressive party is a party of the people, pledged to the uplift of humanity, morally, industrially, commercially, financially, and in view of these facts, we invite all persons to unite beneath the banner of the Progressive party to aid in the conflict for equal rights for all, special privileges for none.

"We favor initiative measure No. 3, an amendment to the constitution of the state, providing for state-wide prohibition, and to the successful elimination of this measure we pledge our county and legislative nominees, cognizant that it is the spirit of the Progressive party and the will of the mass of voters who constitute its membership."

BEEF TRUST ACTIVE.

The Canadian Beef trust working in conjunction with the American Beef trust has taken advantage of the present war conditions to seek to bring about an embargo on live hogs and cattle now being shipped from Canada to the United States. With the repeal of the United States tariff the Canadian farmers awakened to the fact that they were no longer at the mercy of the Canadian Beef trust but that they could ship their hogs to the United States at a fine profit. The American trust gave them no encouragement to do so, but the independent packers on this side, particularly those of the Puget Sound country, gladly bought the Canadian hog, paying the farmer top notch prices for them. The volume of this class of business is now very large, hundreds of double deck carloads of Canadian hogs come to the Puget Sound country every little while. The Canadian farmer has at last found out that he can raise hogs

at a profit by reason of this new American market and he is going in for this industry stronger than ever. Now comes the news from Canada that the Canadian Beef trust is using its influence with the powers of Canada in the hope of having this industry killed by inducing the Government to prohibit further shipments of hogs and cattle out of Canada. The argument advanced is that the Canadian farmer should not be permitted to ship his cattle and hogs outside of his own country in times of war when they are needed for home food supplies. The farmers of Canada are well aware of the fact that this is simply a move on the part of the Canadian trust to again put the farmers at the mercy of the trust, the result being that the trust will be in a position to dictate prices, not only to the farmer but to the consumer. So far as can be learned on this side it is not believed that the Canadian government will fall for this beef trust bait; in fact, so aroused are the farmers of Canada over the proposed action of the trust that it would be regarded as a fatal political blunder for any Canadian politician to attempt to meet the wishes of the beef trust in this matter.

Foreigners in this Country Are Safe from Service.

In response to many inquiries from foreign born residents of the United States in all parts of the country, Secretary of state Bryan announced at Washington on Saturday that "the United States is not a party to any treaties under which persons of foreign origin residing in this country may be compelled to return to their country of origin for military service, nor is there any way in which persons may be forced into foreign armies against their wills as long as they remain in the United States.

There is one penalty however which will be imposed upon the foreigner of military age now residing in this country. Should he ever return to the fatherland, he will be drafted into service. Should he upon his death become the beneficiary of an estate, the government of his native country will lawfully take that estate from him.

The Washington horse is now worth \$1.06 according to a report just issued by the United States Department of Agriculture, while a year ago his average value was \$1.10. There are 305,000 horses on the farms of this state and they are valued at \$32,330,000. In 1910 the number of horses in the state was 281,000 and they had an aggregate value of \$30,348,000. In the entire United States there are 20,962,000 horses, valued at \$109.32 each.
