On that day falls the twenty-seventh birthday of the State, and the members of the Club, who settled here when Washington was only a slip of a territory, will honor the day properly.

Dinner will be served at noon at the I. O. O. F. hall, and a program, more dinner, and a dance, maybe, will conclude the day.

An invitation was issued this week to all pioneers and their families to attend, together with a warning that now was the right time to begin to fatten up the clams, White Leghorns, pumpkin pies, and other dainties of a substantial order, for the dinner.

Miss Ruby Parrish entertained a number of her young friends at a Halloween party Monday evening. The rooms were artistically decorated with evergreen boughs and festoons of black and orange, white numerous owls, witches and cats added further decoration. Partners for supper were secured by matching tiny bows of ribbon, the places being marked by the various ribbons extending from the ceiling to little baskets of sweets. The table appointments and decorations further emphasized the Halloween idea. The guests had their fortune told by a witch at her forest home. Those who enjoyed Miss Ruby's hospitality were Misses Gretchen McDaniel, Mildred Waples, Nettie Ecker, Doris Gale, Edna Daniels, Mary Worow, Gladys and Ruth Parrish, and Messrs. Ralph Dunker, Hoyt Horton, Alva Blowers, Carlton Baker, William Ehle and Elmer Swenson.

A Matter of Stripes.
A St. Louis boy, who has often seen the convict labor of his state, was visiting a relative in Chicago, who one day took him to the zoo. Among the creatures that particularly interested the youngster was a zebra.
"Say, uncle," exclaimed he, pointing to the queer beast, "look at the convict mule!"—New York Times.

THE VALUE OF SAVING

"Habit is a cable; we weave a thread of it every day and at last we cannot break it." Saving is a habit. Each penny that we save is a thread woven into the habit cable of saving.

A grown person always finds that some ready cash comes in handy and if he owns a bank-book that tells him of the money he has, it makes him feel more independent. The sooner a person begins to save, the more money there will be when he is grown.

In another way, saving is valuable. A person who saves does not spend money on foolish things which will harm him physically and mentally.

A boy or girl needs to know about saving because it is when we are young that good or bad habits are formed most easily and if we cannot resist the temptation to spend all we earn when we are older we may know it is because we did not resist the temptation when we were young.

—Hilda Elder.

LISTER ADVISES VOTE AGAINST ALL MEASURES

That citizens generally should vote solidly against all initiative and referendum measures, was the advice given by Gov. Ernest Lister, who spoke at the Electric Theater in Lynden Monday afternoon.

Governor Lister backed up the work of the stand-pat legislature by signing some of the bills on which a referendum has been called, but now takes a firm stand against them.

He outlined the business of his administration, and went into detail on some of the charges that have been made against him. On its editorial page this week, The Tribune discusses the "silk-hat" expenditure, the only one that has been mentioned in these columns.

A large crowd attended the meeting. Lister is an easy and vigorous speaker, and he was heartily applauded throughout his address.

What Damp Means.

Learn to know what damp means, especially when used upon polished woodwork. Think it means wet and you will be reviling valuable information as "newspaper rubbish." Dip a cloth in hot water, wring it as hard as you can, then shake it in the air, and it should have about the right amount of moisture.—Exchange.

Not to Be Considered.

JERSEY BREEDERS WILL FORM AN ORGANIZATION

An organization of the breeders of Jersey cattle of Whatcom County will be formed shortly, as the result of a visit over the district this week by E. L. Brewer of Satsop, field agent for the American Jersey Cattle Club. The organization will discuss their problems, and will cooperate in raising the standards of the Jersey type locally.

A union may be effected with similar societies which Mr. Brewer is organizing in Skagit and Snohomish County.

Mr. Brewer believes he will be able to prove, through the Association that the Jersey yields the most, in proportion to the feed consumed. The importation of proper herd sires will mean much to the Jersey interests in Whatcom County he declares.

That the splendid Satsop herd of Jerseys, owned by Mr. Brewer, which won the prizes at the San Francisco exposition will be brought to Lynden next year for exhibition at Fair time, is one of the plans of Mr. Brewer.

Children's Teeth Neglected

A recent investigation made by the U. S. Public Health Service in connection with studies of rural school children showed that 49.3 per cent had defective teeth, 21.1 per cent had two or more missing teeth, and only 16.9 per cent had had dental attention. Over 14 per cent never used a tooth brush, 58.2 per cent used one occasionally and only 27.4 per cent used one daily. Defective teeth reduce physical efficiency. Dirty, suppurating, snaggle-toothed mouths are responsible for many cases of heart disease, rheumatism, and other chronic affections. The children are not responsible for the neglected state of their teeth. The ignorant and careless parent is to blame for this condition—a condition which hampers mental and physical growth and puts a permanent handicap on our future citizens. School teachers can and are doing much in inculcating habits of personal cleanliness on the rural school child but this will fall of the highest accomplishment unless parents co-operate heartily and continuously.

As They Used to View the Plague.
An old work, a little book published in Cologne in 1665 under the title of "Geistliche und Leibliche Artzene Wider die Pest," gives a crude explanation of the plague and its ravages.

From this book we learn that it is due to the eccentric movement of the planets, eclipses of the moon or sun, inundations, earthquakes, famines and wars. Often also it follows the bad effluvia set up by pigs, ducks and geese. It is frequently attributable to the anger of God for man's sins, such as injustice in the law courts, the oppression of subjects by their rulers, the dearth of goods, the dance and gaming.

Mrs. M. Rear left last week for Long Beach, Calif., for the winter.
