SHERWIN-WILLIAMS VARNISHES

need no introduction to the people of this community. For years we have enjoyed a very large business in S-W varnishes, especially on "Marnot," the elastic, quick-drying varnish that keeps its lustre and resists wear and heel marks unusually well.

Your floors can be made beautiful and durable with Marnot Floor Varnish.

If you have never used Marnot, try a can of it. It comes in pints, quarts and gallons, and can be applied without previous experience.

The Shingles on Your House
can be made to look very beautiful with Sherwin-Williams Preservative Shingle Stains (made with creosote). Equally suitable for roofs or shingle sidings. Creosote is the best wood preservative known. When combined with coloring pigments it produces a stain of great beauty and one that effectually prevents decay of the wood.
