

# SHIPPING MILK?

You have no doubt been worrying about the present prices of milk as so many farmers are doing. What are you going to do with your supply of milk? Get low prices for your whole milk and have no skim milk to feed to your calves or hogs?

Many dairymen are going back to their De Laval, others are buying new ones and are having the machines pay for themselves in a few months' time by the saving they make.

Now is the time to save—do so by getting your De Laval separator NOW.

SOONER OR LATER YOU WILL BUY A DE LAVAL.

### The Lynden Gimlet

Begins to look as if Ernest Heider, Robert Van Mersbergen, Jacob De Neul, and the rest of the service men, were going to collect \$15 a month from the state for all the time they were getting up at a quarter to six in the morning.

Quite a delegation is planning to go down to Ten Mile to see Mike Vander Griend auction gooseberry pies.

The Waples shingle mill which was closed down last year for good, will open up next week for a farewell appearance.

The Washington legislature ratified the suffrage amendment this week so that Grandma can vote for Miles Poindexter for president this fall.

That is, if he gets the nomination.

The high school news published this week contains the information that the track team took a run of a few parasangs. For the benefit of our readers, we looked this word up. A parasang is thirty stadia.

The Gimlet is pleased to note that Mr. John Zevenbergen is putting a few new legs on the city water-tower. We have always been afraid that some day it would spill over and muss up Mr. Beatty's or Mr. Joe Shoop's front-yard.

This week's Chesnutte— Good, absent-minded, old Dr. Wilder was greatly dependent upon his practical wife. One morning, Mrs. Wilder sent up an announcement after he had entered the pulpit with a foot-note intended to be private. "The Women's Missionary Society," he read aloud, "will meet Wednesday afternoon at three o'clock sharp. Your necktie is crooked; please straighten forward toward the right."

Children's hair cutting and ladies' work a specialty, by the Lady Barber.

### LIBERTY THEATER NEWS

#### A STRAIGHT FROM THE SHOULDER TALK

If I had whiskers this would be the time to stroke them reflectively and indulge in reminiscences of the past.

If I had whiskers, I could bore you to death with the splendid pictures I have been bringing here for the past year.

But there are no whiskers in my wardrobe; I don't live in the past. Anyone who tries it only proves that he is a dead one.

But the NOW and the FUTURE are the two things that count. We are showing high class, clean, wholesome pictures—pic-

tures that are a credit to the community. We run our house orderly, properly and along decent lines.

Wouldn't it be odd if you found that YOU are the one who is growing so many whiskers, because you have not kept pace with the times and received the wholesome joy and pleasure out of life that our good pictures are bringing to so many of the people of Lynden.

Take stock of yourself and see if you are not missing much in life if you don't see some of our really good pictures.

I thank you, JACK KAUFFMAN, Mgr. Liberty Theater

### Overhaul Your Car Now

Let us tune up your car for the Summer Trips. Drive it in, and we will go over it and let you know if there are any weak spots that may cause delays or trouble, when you will not want the machine laid up. A stitch in time may save being towed back to town.

We make no charge of any kind for this inspection service. We will merely tell you what is needed, and if you want the work done, we will charge for the material and labor time.

### THE PRICE OF BUICKS HAS NOT ADVANCED THIS SPRING

Although the prices of many other machines have jumped recently, the BUICK has not advanced. Now is the time to place your order. You can't go wrong on a Buick. We are agents for this district for the Buick.

### IN THE NOT-DISTANT FUTURE

Education of "Little Johnnies" of Next Generation May Be Conducted Along Sanitary Lines.

She conducted her school on the strictest and most approved hygienic principles, and before deciding to take Little Willie as a scholar she asked him the usual questions. "Have you had your vermiform appendix removed?" she inquired.

"Yes, ma'am," promptly replied little Willie. "Have you your own sanitary slate sponge, a disinfected drinking cup, certificate for inoculation for the croup, chicken-pox and measles?" "Yes, ma'am." "Do you possess a patent antiseptic dinner box, and do you wear a collapsible life belt, a camphor bag round your throat, and insulated rubber heels for crossing the electric lines? And have you taken out a life insurance policy against all the encroachments of old age?" "I can truthfully say 'Yes, ma'am.'" "Then hang your cap upon the insulated peg, and proceed to learn on sanitary lines."

Trench Logs Used for Seesaws. Children are playing on seesaws improvised from logs remaining from the bombardment in Reims and the playgrounds have been made by filling in shell holes in open plots of ground. German prisoners have furnished the labor of preparing them. But the children are playing again, and growing healthy and strong.

The American Y. W. C. A. maintains two such playgrounds in Reims in the center of populous regions and the children play in them from 9 until 11 in the morning. They are safely out of the way, then, while their parents work at rebuilding their homes, or their mothers are making clothes and curtains on the sewing machines at the Y. W. C. A. Foyer des Alliees.

War Crippled 800,000 Britons. More than eight hundred thousand Englishmen are permanently disabled as a result of war, according to the official estimate just given out. This figure represents about 5 per cent of the total number of workers in the entire country.

A request has been sent broadcast to every employer who has work for more than ten men asking him to employ partly disabled soldiers to a number not less than 5 per cent of his total force. Already approximately seven-eighths have found employment, but there remain 100,000 who still are searching for employment.
