FAIR AUTO ROAD FROM LYNDEN TO MT. BAKER OPEN IN SUMMER

A fair automobile road from Lynden to Shuksan on the last bench before the steeper slopes of Mt. Baker begin, will be open for travel before the summer is over. The county commissioners advertised for bids this week for the graveling of the road between Deming and Maple Falls. From Lynden to Deming, the road is paved.

A new road was constructed last summer from a mile this side of Excelsior to the old townsite of Shuksan.

It is expected that this road will be continued five or six miles further to Austin Pass, which would serve as a starting place for explorations and ascents in the Mt. Baker region.

LYNDEN PEOPLE WHO AIDED IN SALARY CASE TO GET CASH BACK

That Lynden people who contributed funds to aid in carrying the county salary case to the supreme court will get their money back, is the statement made this week by Attorney Frank Bixby, in charge of the case. The attorneys will be paid out of funds recovered to the county by winning the suit.

Judgment was entered this week against four county officials who drew excessive salaries under wrong classification of the county, the county salary case having been settled by stipulation. The total refund to the county will run close to \$5,500. Prosecuting Attorney Baldrey, one of the officials who was forced to refund a part of the salary he drew, yesterday refunded the entire amount, \$1,593.54. Former County Assessor Alex Van Wyck has refunded all but \$193.47 of the amount he had to refund which totaled \$796.67. The balance of the \$5,500 refund comes from Commissioner E. C. Baxter and former Commissioner Henry Slater.

ANNUAL SHIPMENT OF U. S. GARDEN SEED IS ON WAY HERE

The government garden seed is coming, hooray, hooray!

The following advance notice was received today from Congressman Lin Hadley:

"As in the past, I am distributing the seed allotted to the Second Congressional District mainly through the newspapers in the District, in order to more nearly insure that the seed will reach individuals who will plant it. Shortly after the receipt of this letter, you should receive a supply of garden seed, and I would appreciate your cooperation as heretofore. Congress has materially reduced the appropriation for congressional seed distribution and, therefore, the supply I am sending is necessarily somewhat less than usual. Owing to the limited amount of flower seed available under the appropriation, it is impracticable to distribute it through the newspapers, as requests coming directly to this office will no doubt absorb the limited supply of flower seed to the credit of the Second District.

Thanking you in advance for any assistance you may render in this matter, I am

Yours very truly,
Lin H. Hadley"

BABY CHICKS MAKE LONG TRIP FROM CALIFORNIA TO LYNDEN

Peter Koert received four thousand baby chicks last week from Petaluma, California. Although but a day or two old when they started, the little fellows made the trip remarkably well, but one out of a hundred failing to survive the journey.

WHAT'S BETWEEN YOUR BATTERY PLATES?

Willard

Are the plates of your battery insulated from each other — is your battery insured against separator troubles for the full life of the plates?

Or are the plates merely separated — with the constant liability of short circuits and wastage of current, with a bill for putting in new separators always hanging over you?

Is it a Willard Threaded Rubber Battery?

Or just an ordinary battery with ordinary separators that carbonize, puncture, warp and crack, that sooner or later have to be replaced at your expense?

Willard Threaded Rubber Battery — insulation that outlasts the plates — more miles of uninterrupted service per dollar.

The list of cars and trucks below is arranged alphabetically for your convenience.
